

Creative Arts

Year 1

Term 1

Learner Book

Famous work of art

Name and Surname: _____

Class: _____

Visual Arts

1 Visual Literacy

Elements of Art

The elements of art are sort of like the “building blocks” for creating something. There are 7 elements of art Line, Shape, Form, Space, Texture, Value and Colour.

Artists use these elements (building blocks) and mix them together with design to make a piece of art.

Line

A LINE is a moving dot. A moving pencil or paintbrush makes a mark called a line. A line can be fat, thin, straight or wavy.

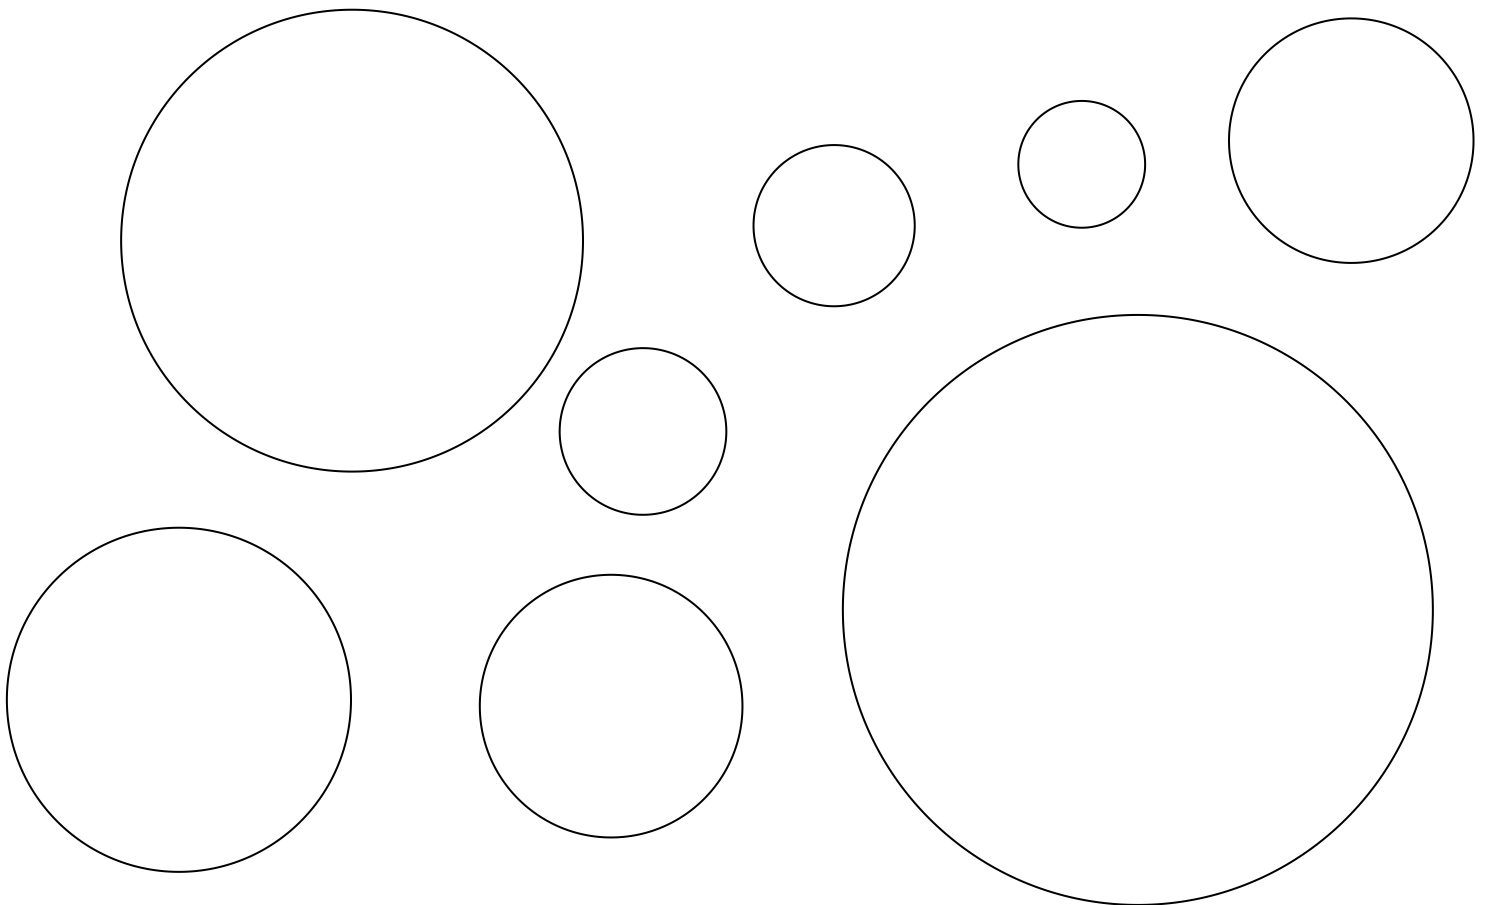

Dear learner by the end of this lesson you will be able to:

- Draw multiple different types of line.

Activity 1 Line

Use the template page that your teacher will provide and fill in each circle with a different type of line.

PLEASE do not draw on this page.

Shape

Shapes are flat, two dimensional areas outlined by a line.

There are two main categories of each shape: Geometric shapes and Organic shapes.

Geometric shapes are shapes that generally have their own names e.g. squares, circles etc.

Dear learner by the end of this activity you will be able to:

- Identify and draw geometric shapes.

Activity 2 : Shape

- Draw a few geometric shapes in your visual diary.
- You may trace shapes that you find in the class or in your pencil case.

Famous works of art

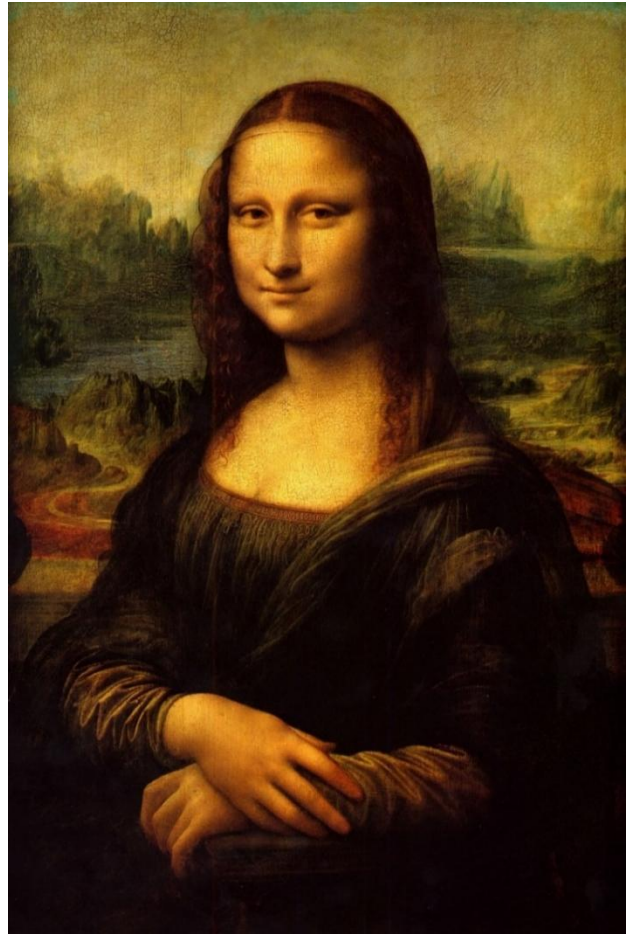

- Look at the following 10 famous paintings.
- See if you can identify the art elements (line and shape) in each painting.
- Discuss the emotions that the paintings evoke. (How you feel when you look at them)
- You may take notes in your visual diary.

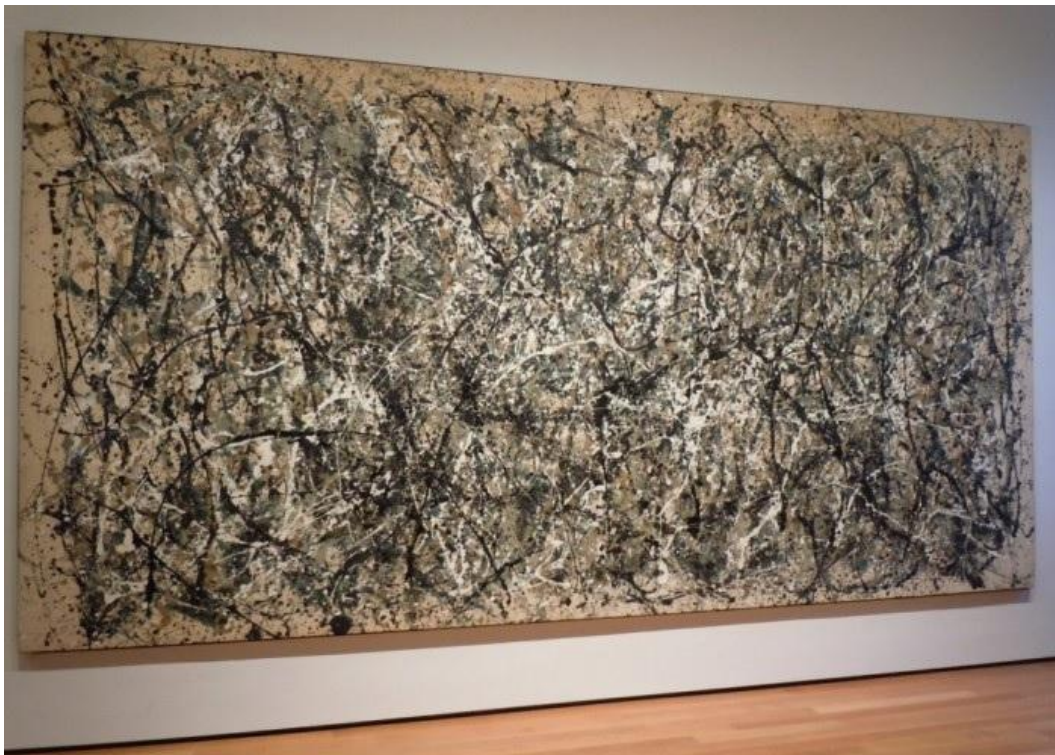

Dogs Playing Poker by C.M. Coolidge

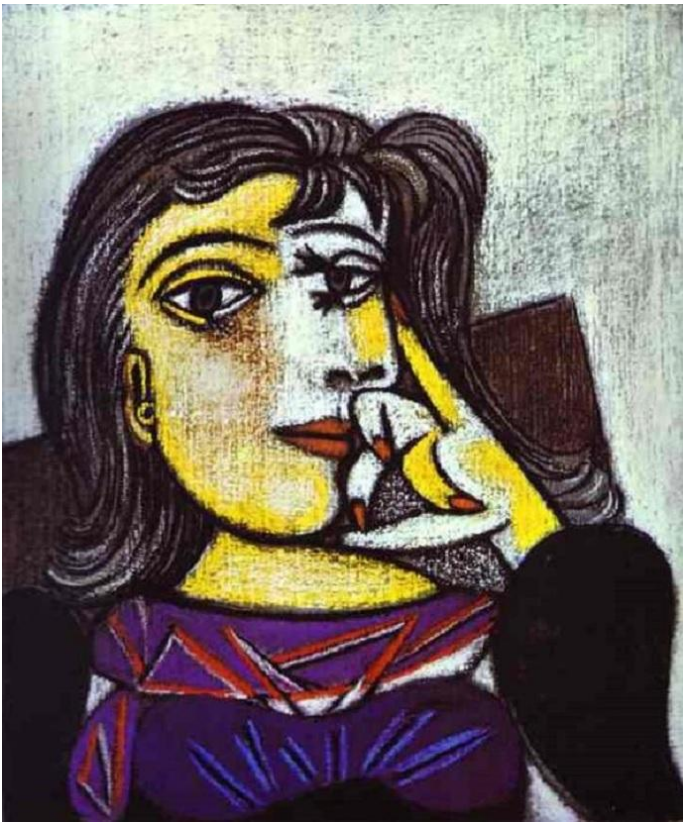

Girl with a Pearl Earring by Johannes Vermeer

Monalisa by Leonardo da Vinci

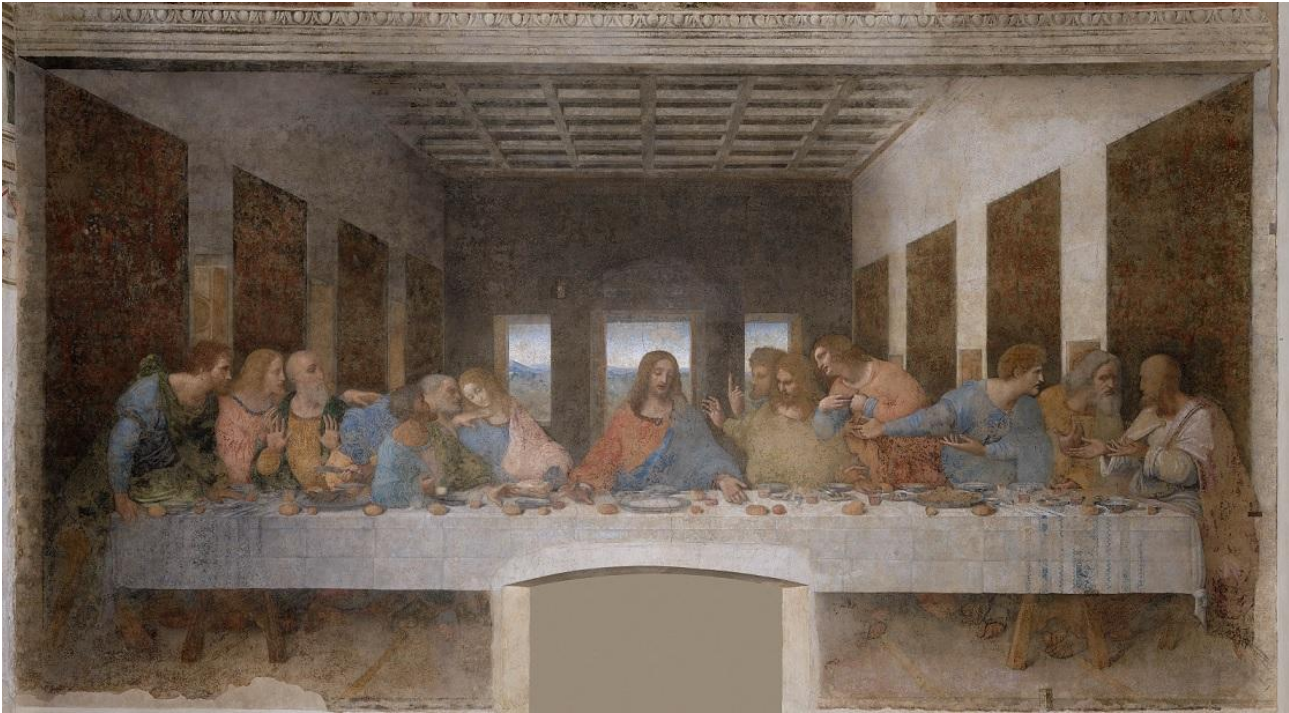

No.5, 1948 by Jackson Pollock

Portrait of Dora Maar by Pablo Picasso

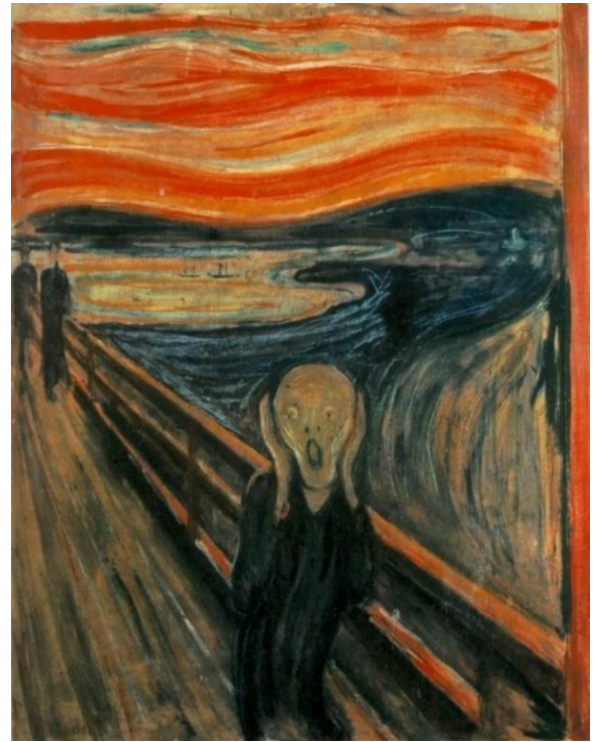

Rembrandt Christ in the Storm on the Lake of Galilee by Rembrandt van Rijn

The Last Supper by Leonardo da Vinci

The Persistence of Memory by Salvador Dali

The Scream by Edvard Munch

Starry Night by Vincent Van Gogh

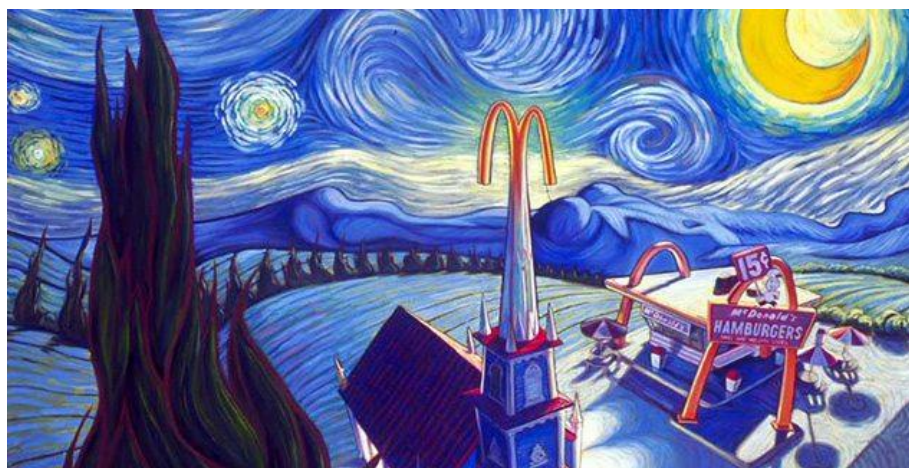

3. Create in 2D [Examples]

- After looking at all the famous works of art, make your own.
- You may use one of the famous paintings you discussed in class or one of your own favorites.
- Take the image and change it in a way that makes it uniquely yours.
- Use your visual diary to come up with ideas and practice what you want to do.

Examples

catscatalan.tumblr.com

Starry Night by Ron English

Parodies of Famous Paintings wallpaper

Create in 2D

Famous work of art

Assessment 1 Formal activity

Start Date: _____

End Date: _____

Dear learner by the end of this activity you will be able to:

- Use drawing and/or colour media to explore a variety of media and techniques through observing famous art works and changing it to be your own work keeping in mind plagiarism
- Use art elements: Line and shape related to the knowledge of the learner and guided by the educator.

Recourses

- A3 drawing page. (A4 if need be)
- Art medium learner is comfortable with.
- Paint, pastels, wax crayons, colour pencils etc.

Instructions

By the end of this activity you should be able to alter a famous work of art in a way that will make it unique.

Step 1

- We have now studied the pictures and discussed all the art elements taking dimensions and size in consideration.
- Now we are going to create the 2D picture of a famous work of art.

Step 2

- Place the A3 paper in front of you in a landscape or portrait orientation.
- The original artwork will guide you.

Step 3

- Divide the A3 page in 4 quarters to help you to place the objects.
- When placing the objects in the picture make sure you look at balance.
- Take up your pencil and draw the outlines of the basic picture.
- Place the objects on the A3 page so that the whole page is filled.

Step 4

- Place the medium in front of you.

Step 5

- Start with the background keeping in mind all the art elements you have learnt about.
- Remember your picture that you draw should not be a direct replica of the original picture and must be changed about 30 – 40 % (with guidance from the educator).

Step 6

- Work in quarters, colour or paint one quarter of your picture.
- While the quarter is drying start with the next quarter and repeat.
- As the image dries go over these parts and add in your details.

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Line: Long, short, thin, thick, horizontal, vertical, dark and light lines (half marks).	3	
2. Shapes: Square, circle, triangle, rectangular.	3	
Dimensions and size practised during the planning session.	2	
Dimension and size portrayed in the finished product.	2	
Orientation of paper (appropriate for the image).	1	
Placing of objects on the A3 paper (looking at the four quarters).	3	
Colours are bold and bright.	2	
Foreground, middle ground, background is clearly identifiable.	3	
Originality: Effort the learner used to complete the artwork.	2	
Technique: Coverage of planning lines and generally neat appearance.	2	
Page coverage: No open spaces were visible on the end product.	1	
Artist expression: What emotions do the artwork provoke in yourself and others (get your friends opinions).	3	
Attitude, taking care of the mediums, cleaning up processes.	3	
TOTAL	30	

30÷30x25 = __/25

Reflection (Use your visual diary for reflection)

1. Identify the art elements you struggled with.
2. How was this experience for you

5. Create in 3D

Objects found in a famous art piece

Assessment 2 Formal activity

Start Date: _____

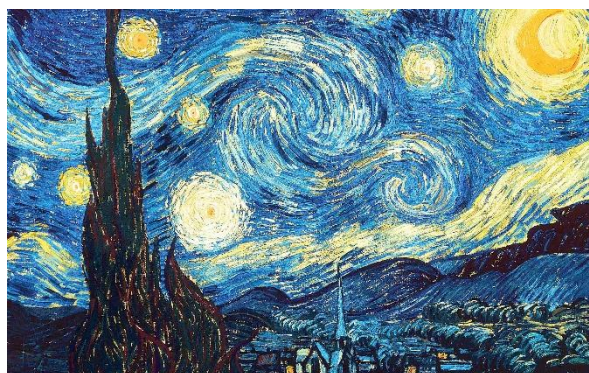

End Date: _____

Dear learner by the end of this activity you will be able to:

- Create a 3D object found in famous art pieces all over the world.
- Display skills and techniques using available media e.g. recycled materials, paper mâché, clay etc.
- Make use of art elements line and shape.
- Spatial awareness: use space consciously e.g. front, back and sides of object.
- Use tools appropriately.

Resources:

- Available media: recycled materials, paper mâché, clay

Instructions (Example activity)

Make a 3D object out of your 2D drawing.

By the end of this activity you should be able to make a 3D sculpture inspired by a famous work of art.

Step 1

- Take the clay out of the package and pinch and roll it until it is soft.

Step 2

- Make a ball with the clay. Role the clay in between your hands until you get the desired shape.
- Insert a paper clip at the top of your ball so you can thread the rope or ribbon through it when your product is completed

Step 3

- Add on your sky by making long strands of clay and rapping it around the clay ball
- Create the trees and sun by using your imagination. After completing it place in a safe place to dry.

Step 4

- Paint the starry night ball according to the original painting colours. (see above example)
- Thread your ribbon or piece of rope through the paper clip.

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Line usage: Long, short, thin, thick, transitions are smooth.	3	
2. Shape: Shape are clear and identifiable, neat, and creative.	3	
3. Texture: The nature of this activity texture is evident, and learner tried to copy and recreate texture in his/her artwork.	3	
Planning: Done in visual diary before starting this task and used during the process, work resembles planning.	3	
Technique: Work is neat and clean. Presents well.	3	
Artist expression: Original work and idea.	4	
Attitude, taking care of the mediums, cleaning up processes.	3	
Task completed on time.	3	
TOTAL	25	

 Reflection (Use your visual diary for reflection)

1. Did you enjoy the medium you used?
2. Give a reason.

6 Resources

Your teacher will do this with you in class.

Teachers resource

How to make paper clay

1. **Gather your supplies.** To make paper clay, you'll need toilet paper as well as a few supplies you can find at the hardware store. This recipe results in a smooth, malleable clay you can mould over any type of prepared form. It dries into a hard surface to which you can apply paint or varnish. Here's what you need:^[1]
 - 1 roll of single ply toilet paper (not the kind with lotion, scent or colour added)
 - 1 cup premixed joint compound (do not buy it in powdered form; get "regular")
 - 3/4 cup PVA glue (white school glue)
 - 2 tablespoons mineral oil
 - 1/2 cup white flour
 - 2 large bowls
 - Electric mixer
 - Measuring cups
2. **Remove the toilet paper from the roll.** It's less messy to slip the entire roll of paper off of the cardboard roll at once, rather than unwinding the paper entirely. Place the toilet paper in one of the bowls.
3. **Fill the bowl with water.** Pour it over the toilet paper until it's completely saturated. Push the toilet paper down into the water to make sure it all gets wet.
4. **Squeeze out the toilet paper and place the pulp in a separate bowl.** Tear it off in smaller chunks (1 inch or less) so you can squeeze out as much water as possible. Place the pulpy chunks in a separate bowl so you can mix them with the other ingredients. Keep going until you've squeezed out all the toilet paper.
5. **Measure 1 1/2 cups of toilet paper pulp.** One roll of plain toilet paper typically equals a cup and a half of pulp. If your brand of toilet paper makes very small or large rolls, you might end up with less or more pulp than you need. Make more toilet paper pulp or discard the excess as needed, so you have 1 1/2 cups of pulp in the bowl.
6. **Add the remaining ingredients.** To the bowl with the pulp, add a cup of premixed joint compound, 3/4 cup white school glue, 2 tablespoons mineral oil, and 1/2 cup white flour.
 - Do not substitute these ingredients. Different types of glue, oil, flour, and so on will change the consistency of the paper clay and may not produce the results you want.
7. **Mix up the clay until smooth.** Use your electric mixer to beat the clay at a high speed. The paper fibres will break down and blend with the joint compound, glue, oil and flour until it takes on a smooth, dough-like consistency.
 - If you want a thicker clay, mix in an extra half cup of flour.
 - For a thinner consistency, add an extra half cup of glue.

How to make clay

Flour and Salt Clay

- 4 cups (480g) of all-purpose flour
- 1.5 cups (417g) of salt
- 1.5 cups (350ml) of water

1. **Mix 4 cups (480 g) of flour and 1.5 cups (417 g) of salt in a large bowl.** Add both dry ingredients to a large mixing bowl. Then, use a big plastic or wooden spoon to stir the dry ingredients until they are thoroughly mixed.
- Make sure the flour and salt are **mixed well before you add the water** because it will be harder to redistribute one of the ingredients once the clay starts to form.
2. **Add 1.5 cups (350 mL) of water gradually as you stir the mixture.** Pour small amounts of water into the bowl at a time, stirring between pours. Blend the mixture as well as you can before you add more water. By the time all of the water is added to the bowl, your clay should be forming a ball.
- It should get harder to stir each time you add more water.
3. **Knead the clay until it reaches an even consistency.** Take your clay out of the bowl and place it on a flat surface, like the kitchen counter. Use your hands to push and pull the clay to work it into a nice consistency.
- You can also pick up your clay and throw it down on the counter to work out any air bubbles that might be present. This will help your clay stay moist longer.
4. **Sculpt the clay as you desire.** Now that your clay is ready, you can mould it into a figure, create ornaments, or just play around. Use it as you would use a store-bought clay.
- This kind of clay can make great keepsakes. For example, press your child's foot or hand into the dough until there is an imprint, then let the mould harden to make a gift.

Tip: Use cookie cutters or a glass to cut out shapes, if you like. Start by rolling your clay out flat using a rolling pin. Then, cut your clay into shapes using a cookie cutter or a drinking glass, which can make circles for ornaments. If you wish to hang the shapes as ornaments, poke a hole near the top of the shape using a drinking straw or a toothpick.

5. **Allow the clay to air dry for 2 days to preserve your model.** If you want to create a sculpture or keepsake, you'll need to let your clay dry. This kind of clay dries out quickly, but it's best to leave it untouched for at least 2 days to make sure it's fully dry.

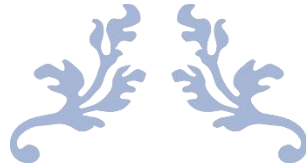

Variation: If you need to speed up the drying process, bake your clay at 100 °C for 3 hours. If it still feels soft after 3 hours, you can put it back in the oven for up to 2 more hours.

6. **Store unused clay in an airtight container.** You can preserve your clay for a few weeks by keeping it in an airtight container. Make sure you leave the clay in the container whenever you're not playing with it, as it will dry a little bit whenever it's exposed to the air.

For instance, you can use a plastic bag with a zipper or a Tupperware container. For extra longevity, place the clay in the refrigerator.

PERFORMING ARTS

YEAR 1 TERM 4

1. Perform and Interpret

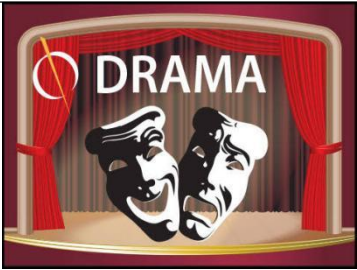

What is Performing Arts

Performing Arts is an art media that includes dance, music and drama. The performing arts are usually performed in different platforms for people to enjoy.

Platforms of Drama

	Medium in which we find drama	Form in which we experience drama
	Theatre: A place where audience and actors meet for a live performance	Theatre drama is live and people who watch it are called the <u>audience</u> . live means that the audience experience a performance with the naked eye.
	Television: This also includes movies, sopies	Television drama is recorded and can be live the people who watch tv are known as <u>viewers</u> .
	Radio is also another platform that we exposure to drama through radio dramas.	Radio drama is also recorded and the people who listen to it are <u>listeners</u> .

Our study of drama at school is biased to theatre study as it is feasible and accessible to all learners.

2. Warm Up and play

For Information

Performing arts uses the body and the voice to create a piece of performance. Therefore, when engaging in a process of creating a performance, the body and voice function beyond the normal use.

Warm up and Play

Posture

Warm up allows the body and voice to undergo an exercise physically and vocally so person does not get hurt or strained in the process of creation.

1. YOUR BODY MUST BE IN NEUTRAL POSITION

Neutral position is the starting and end position when doing warm up. The body is relaxed and there is no part that is taking a strain.

WARM UP AND PLAY

Your teacher will take you through a **Warm Up and Play** sequence which involves practical work and at the end you will write a reflection on your experience of the process :

i Reflection: presenting our experience through writing it out or speaking it out and/or using tableaux (picture display).

1.1 Name Game: Think of an action that represent your name and want to be remembered by your classmates. Standing in a circle you will lead by present your name and action at the same time and your classmates will repeat after you.

i Name game is important as you get to know your classmate in an informal way. It creates a safe environment to interact with your peers.

1.2 **Energiser** is a game requires a lot of energy and enjoyment where you play with your body freely.

1.3 **ZIP, ZAG AND BOOM** is a game that requires you to concentrate and be aware of the direction your classmate are clapping at.

1.4 **Tense and release:** relaxation **exercise** is about tensing the muscle in one part of your body, holding the tension and then **releasing** it suddenly.

1.5 **Cooling Down:** You stretch up, sideways your arms and drop. You also drop down your upper body and hang. Your head always go down first and pull down the rest of your body and going up the head is the last to come up.

Informal Activity1: Reflection

Your teacher will hand out a reflection handout. All questions. Your responses must be in detailed.

3.Improvise and Create

What are Locomotor movements?

Body movements that move the body from one place to another. They are building blocks of coordination.

These movements include:

What are Non-Locomotor movements?

These are movements of certain body parts, or even the whole body, without causing the body to travel. Non-locomotor assists with body awareness and spatial awareness – such skills allow children to explore the way in which the body can be moved.

[google images]

Informal Activity 2: Locomotor and Non-LoCo-movement

An example of a movement sequence

Study the visuals
below and write
out the TWO

locomotor and non-locomotor movements in each picture

Locomotor

Non-Loomotor

Locomotor

Non-Loomotor

Locomotor

Non-Loomotor

Symbol : $\Pi = X2$

$I = X 1$

Movement Sequence

Π	I	I
Stamp Stamp	Clap	Clap
Π	I	I
Stamp Stamp	Click	Click
Π	I	I
Stamp Stamp	Slap	Slap
I	I	I
Hips	Hips	Shout!

Activity 3 : Movement Sequence

In your next session you will be doing body percussion using your body to make sound and movement. You need to create an eight-step movement sequence using body percussion. Be mindful of the locomotor and non-locomotor movements you have used in your sequence. Your movement sequence will be in collaboration with other learners. Here are some examples of body percussion moves to assist you in creating a sequence.

- Clapping Hands – loudly
- Tapping palm with two fingers
- Clapping flat hands
- Rubbing arms or legs
- Slapping knees
- Tapping finger nails
- Tapping feet
- Stamping feet
- Clapping hands – quietly
- Clapping cupped hands
- Rubbing hands together cupped
- Rubbing backs of hands together
- Clicking fingers
- Tapping finger tips together
- Knocking knees together
- Banging fists on table or floor

What is body Percussion?

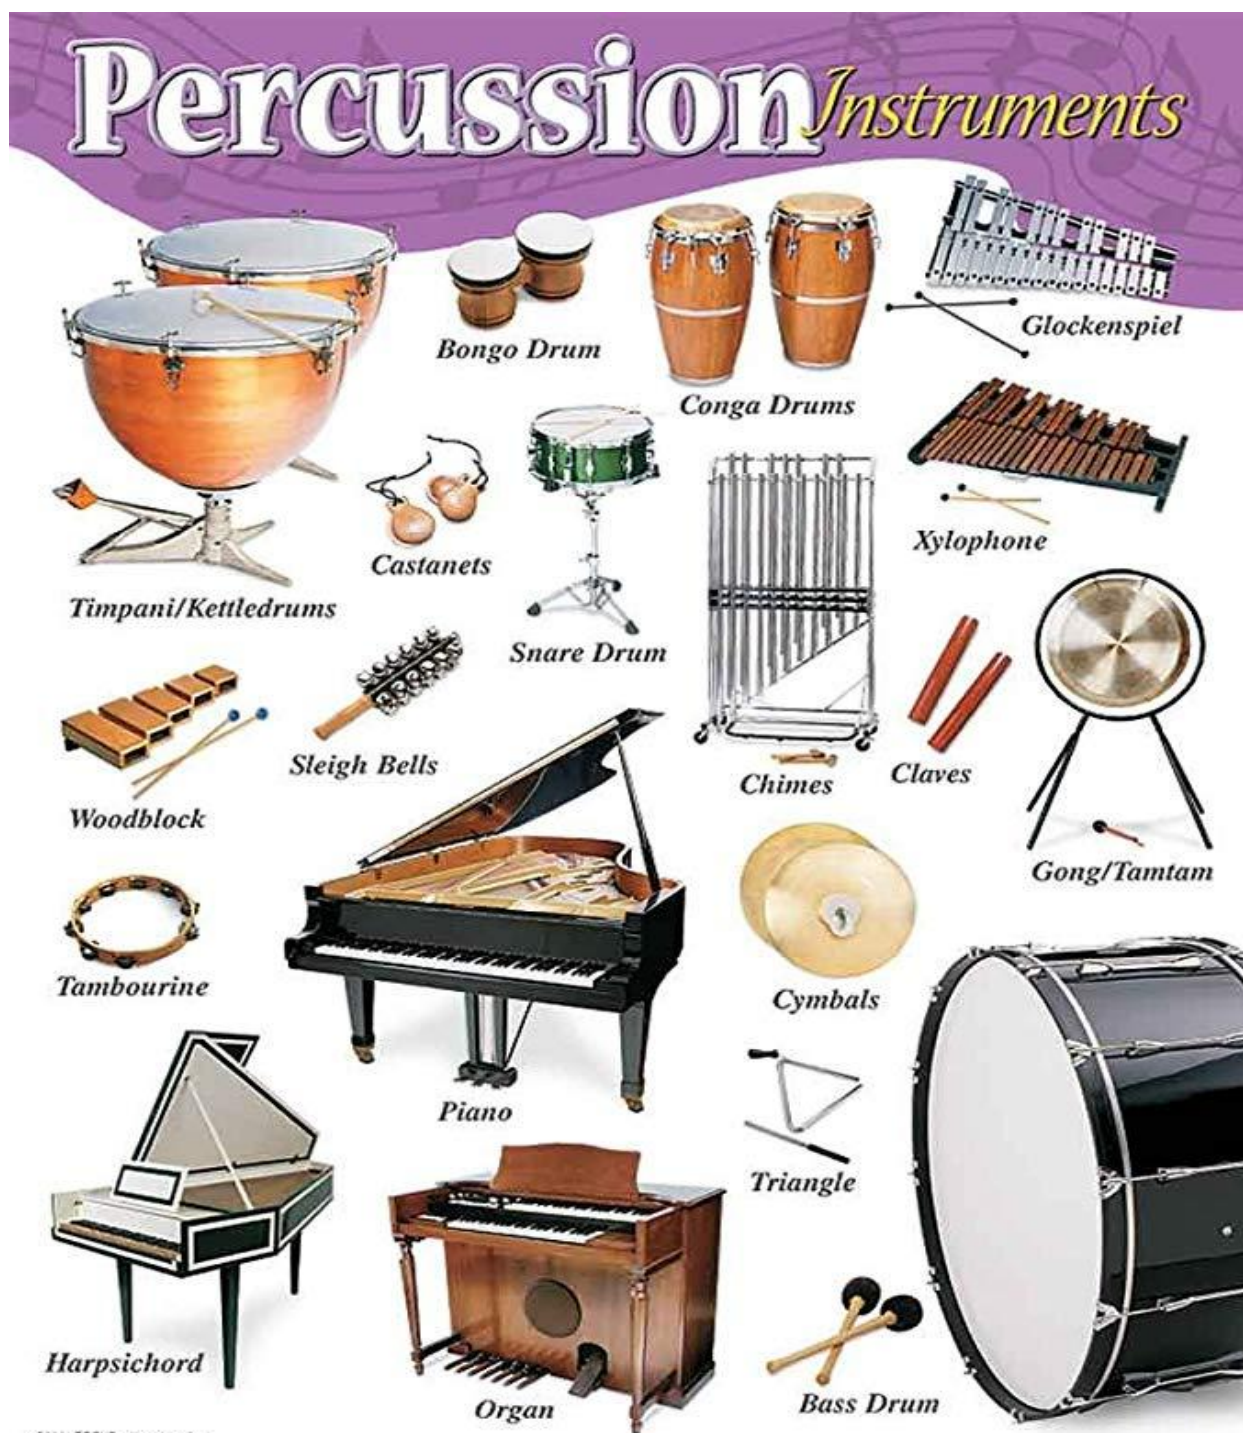

- It is to explore and create sound using your body, your body becomes the 'instrument'
- Body percussion is an art of striking the **body** to produce various types of sounds for didactic, therapeutic, anthropological and social purposes.

Steps to making a body percussion:

[google images]

i Body percussion is also associated with the percussion instruments family because of the sound that is produced by the body, usually has a close connection.

4. Warm up and Play

Energiser: Fruit Salad	Standing up or sitting on your chair in a circle. You will be allocated a fruit name which can be shared by other learners. One learner will be in the stand in the centre and his/her chair must be removed from the circle or space (if standing) closed so that one person remains without space. The learner in the centre calls out a fruit name “Orange” and everyone with who is an orange moves across the circle to find a new place. The learner at the centre also must secure their own spot within the circle replacing another orange. One person will remain in the circle and call out another fruit name. Move takes place again. A learner can call out FRUIT SALAD, it means everyone has to make movement.
Improvisation Game	The beam bag or small plastic ball will be circulated around the circle given a different object name expect for its original identity. One learner will give it to the learner next to them and say, “This is a dog” (example) the other learner response by making an action and sound of the dog. The next learner will continue to call out an object/animal, etc.
Copy cat game	The teacher makes a sound – clapping hands, clicking fingers, slapping knees, stamping feet and the children copy the sound. When all the children are making the sound, the teacher makes another sound and the children copy this new sound. When the children have experienced a wide variety of sounds, one of the children can be chosen to be the leader.

Informal Activity 4: Body Percussion Practical

i This body percussion activity is a building block to the formal task

- Divide yourselves in a group of not more than five learners.
- Share your homework sequence with the group.
- Create one movement piece using all the group steps.
- Ensure your movement piece do not exceed two minutes.

4. Interpret and perform

Formal Activity: Body Percussion

YEAR ONE: TERM ONE

DATE: _____

MARKS: 50

Instructions

- Divide yourself in a group of not more than five learners.
- Choose ONE percussion instrument in which you will to produce through body percussion
- Develop a movement sequence using body percussion moves
- Movement sequence must be written down and must be handed in before performance
- Use costume and props to highlight your percussion instrument.

Mark Allocation

The marks will be awarded using the following criteria

Process	Item	Mark
Pre-production	Written Movement Sequence	10
Production	Evidence of percussion instrument	10
	Sequence of the body percussion	10
	Usage of Costume and Props; and Creativity and originality	10
Post - production	Reflection	10

A copy of the rubric and reflection is included in this assessment brief.

ASSESSMENT RUBRIC

Learner Name:

Class:

Date of Assessment:

CRITERIA	10-8	6-7	4-5	1-3
Movement sequence is original and exciting. The sequence captures the purpose of the performance	Exceeds expectations	Good and tangible evidence	Fair with no clarity.	Does not meet expectations
Percussion instrument is convincing displaying all aspects of the instrument. Instrument easy to identify	Exceeds expectations	Good and tangible evidence	Fair with no clarity.	Does not meet expectations
Evidence of costumes, props, lights(optional) usage to enhance the performance. Creativity and originality.	Exceeds expectations	Good and tangible evidence	Fair with no clarity.	Does not meet expectations
Body percussion movement, sound elaborate and follows a sequence	Exceeds expectations	Good and tangible evidence	Fair with no clarity.	Does not meet expectations
Written reflection: improvisation process clearly outlined.	Exceeds expectations	Good and tangible evidence	Fair with no clarity.	Does not meet expectations

Reflection (Group oral discussion)

Use the questions below as a guide to write up your group reflection.

1. What percussion instrument did the group choose?
2. Mention the locomotor and non-locomotor movement that dominated your body percussion.
3. Do you think your movement sequence exceed your group expectations? Explain your answer.
4. What could have your group done better in the process of creation?
