

Creative Arts

Year 1

Term 2

Learner Book

Pattern making

Visual Arts

1. Visual Literacy

Elements of Art

The elements of art are sort of like the “building blocks” for creating something. There are 7 elements of art Line, Shape, Form, Space, Texture, Value and Colour.

Artists use these elements (building blocks) and mix them together with design to make a piece of art.

Texture

Dear learner by the end of this activity you will:

Know what implied and actual texture is and how to use and draw them in your own artwork.

There are two types of texture: actual texture and implied texture.

Actual Texture

Actual texture uses our sense of touch.

You can feel it.

e.g.

Fur >

Glass >

Implied Texture

Implied texture looks as if it has a texture.

It is an illusion you can see it but not feel it.

Activity 1 : Texture

- Use the page that your teacher will provide you with.
- Name 5 object with an interesting actual texture (write the names), then use a pencil to draw the implied textures. (draw what you named)

PLEASE do not draw on this page.

Actual Texture

Implied Texture

Texture activity by Kitchentableclassroom.com

Colour

There are three primary colours: Red, Yellow and Blue. You can make any colour in the world by mixing these three colours plus white and black.

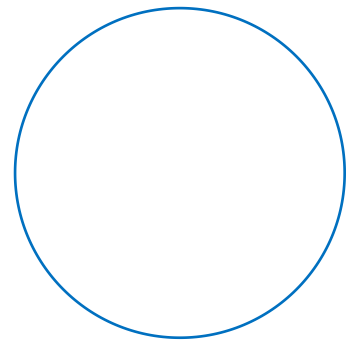

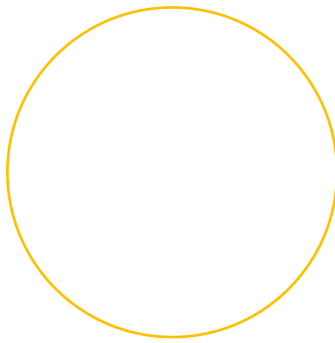

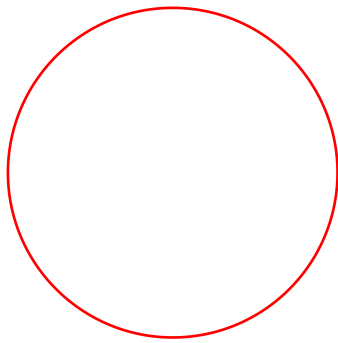

Dear learner by the end of this activity you will be able to:

- Identify and make primary and secondary colours.

Activity 2 : Colour

Use the page that your teacher will provide and colour the circles below with the three primary colours.
PLEASE do not colour in this book.

Use the page that your teacher will provide and colour the circles below with the three primary colours.

You will see that there are two primary colours together, and that they overlap.

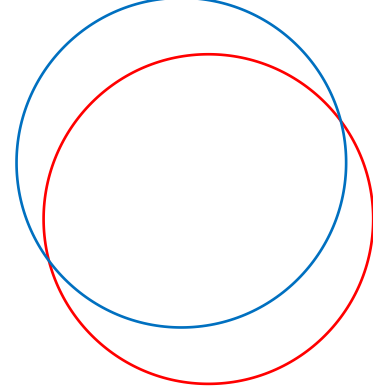

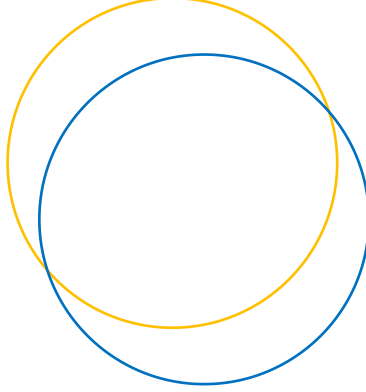

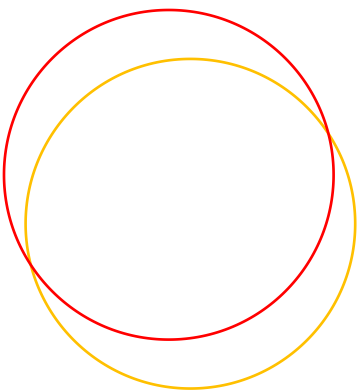

See what happens when you mix the two indicated primary colours.

Mix your primary colours and see if you get the three secondary colours.

red and yellow

yellow and blue

blue and red

Secondary colours are made by mixing two primary colours together. They are Orange, Green and Purple.

Make note of the secondary colour that you created in your visual diary.

PLEASE do not colour in this book.

2. Creative pattern making

Dear learner by the end of this activity you will be able to:

- Identify colour and texture in images and artwork.
- **ACTIVITY : 3 Also, be able to re-create your own.**

- Look at the below images that show patterns and designs for interior and garden decorating.
- See if you can identify the art elements (line, shape, texture and colour) in the designs.
- Use your visual diary to design, collect and experiment with different patterns and ideas.

Pottery by funnelcloud rachel

Pottery by Pueblo Pottery

Wallpaper by Livettes - Etsy

Wallpaper by Robinpickens's design collection

Fabric Textures byTexture X

Stencils by Royal Design Studio Stencils

William Morris Fabric from Historic Style

Wallpaper by Mayabella's design collection

Wallpaper by Knight Moves- Ecuador Navy T9249

Garden designs by Yandex'ga kirish

3. Create in 2D

Creative pattern making

Assessment 1 Formal activity

Start Date: _____

End date: _____

Dear learner by the end of this activity you will be able to:

- Use art elements: line, shape, texture and colour in creating a pattern for interior or outdoor decorating.
- Design your own pattern by exploring line, shape, colour and texture in designing a wallpaper/ fabric pattern or outdoor object.

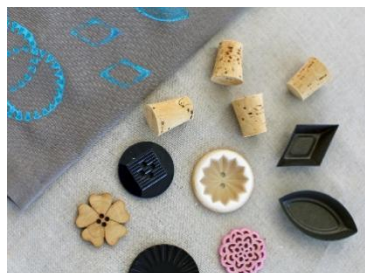

Recourses

A3 with page

Colouring pencils, grey pencils, magazines for collages etc.

Any materials identified in the visual diary process.

Instructions (Example only)

DIY Stamps by Crafting 101

Gift Wrap by Oana Befort

Styrofoam Stamps by [Muhaiminah Faiz](#)

Step 1

- After the class discussion, you should have a good idea of what pattern looks like, how it is used, and the art elements required to create beautiful patterns and how to use them.
- Now we are going to create a 2D pattern that you will be able to use in interior decorating or for an outdoor garden object.

Step 2

- Place the A3 paper in front of you in a landscape or portrait orientation.
- The pictures will guide you.

Step 3

- Take the piece of polystyrene/ foam or whatever medium you wish to use to make your stamp.
- First draw the desired image/ shape of the stamp that you want onto the polystyrene.
- Then carefully cut out the shape. Ask you teacher or friend to help you if you are unsure of how to do this.
- Paste your shape onto a piece of cardboard or ice cream sticks, to use as a handle for comfort in use.

Step 4

- Dip your stamp into a small amount of paint/ ink.
- Do not use to much as this will make your print look sloppy and messy.

Step 5

- Use colour pencils or crayons to add smaller details or to colour your background.

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Line usage: Long, short, thin, thick, horizontal, vertical, dark and light lines (half marks).	3	
2. Shape: Shape are clear and identifiable, neat and creative.	3	
3. Colour: Was colour used to the best advantage of the design. Primary colours, complementary colours, interesting combinations.	3	
4. Texture: Was the student able to create texture with paints or other materials or illustrated textures.	3	
Patter and design are pleasing on the eye and appropriate for its application.	2	
Technique: Work is neat and clean. Presents well.	2	
Page coverage: No open spaces were visible on the finished product.	1	
Artist expression: Original work and idea.	3	
Attitude, taking care of the mediums, cleaning up processes.	3	
Task completed on time.	2	
TOTAL	25	

Reflection (use visual diary for reflection)

1. Identify the art elements you struggled with.
2. How was this experience for you, did you enjoy making your artwork?

4. Create in 3D

Interior or outdoor decorative piece

Assessment 2 Formal activity

Start Date: _____

End Date: _____

Dear learner by the end of this activity you will be able to:

- Design and make a decorative piece found in the interior design line or make a decorative object found in a garden.
- Use the pattern that you created in your 2D piece on your 3D object.
- Use art elements: line, shape, texture and colour in construction of interior decorative piece found in interior decorating or garden decorating objects.
- Use tools appropriately.

Resources:

Scissor, glue, hard recyclable cardboard, paints, colour inks, food colouring, toothpicks, old non workable pen, glitter, any media needed to complete the product.

Villa Residence Ornamental Pillows

Rug sold by Hayneedle

Flowerpot by Mount Blossom

Instructions

By the end of this activity you must be able to make an interior or garden decorative piece.

Step 1

- Identify the object you want to make, is it an interior design piece or an outdoor object.
- Use your visual diary as reference.

Step 2

- Get together all the materials you will need to make your design.
- Ensure that you have the pattern that you designed in the previous assessment. (2D design)

Step 3

- Make your object.
- Be as neat and tidy as possible.
- Make sure you know how to use all the tools and that you are careful.
- Plan and make sure of your next step before you do it.

Step 4

- Present your finished project to your teacher.
- It must have the pattern design that you made in your 2D assessment.

✓ **Rubric**

Assessment criteria:	Possible mark:	Student's mark:
Technique: shows knowledge and skill in using chosen media.	2	
Student's use of art elements:		
Construction lines.	3	
Use of colour.	3	
Texture: Implied textures or actual texture present.	3	
Shape: Shape is evident in the finished product.	3	
Dimensions: This is a true 3D objects and can be viewed from multiple angles.	2	
Art expression: Made use of creative freedom and made something unique and beautiful.	2	
Skill: All relevant skills were used to complete the object, neat and presents well.	2	
Effort taken to completing the object to the best of your ability.	3	
Task completed in a timely manner.	2	
Total:	25	

Reflection (use visual diary for reflection)

Did you enjoy the medium you used? Give a reason.

Resources

Your teacher will do this with you in class.

Teachers resource

How to make paper clay

1. **Gather your supplies.** To make paper clay, you'll need toilet paper as well as a few supplies you can find at the hardware store. This recipe results in a smooth, malleable clay you can mould over any type of prepared form. It dries into a hard surface to which you can apply paint or varnish. Here's what you need:^[1]
 - 1 roll of single ply toilet paper (not the kind with lotion, scent or colour added)
 - 1 cup premixed joint compound (do not buy it in powdered form; get "regular")
 - 3/4 cup PVA glue (white school glue)
 - 2 tablespoons mineral oil
 - 1/2 cup white flour
 - 2 large bowls
 - Electric mixer
 - Measuring cups
2. **Remove the toilet paper from the roll.** It's less messy to slip the entire roll of paper off of the cardboard roll at once, rather than unwinding the paper entirely. Place the toilet paper in one of the bowls.
3. **Fill the bowl with water.** Pour it over the toilet paper until it's completely saturated. Push the toilet paper down into the water to make sure it all gets wet.
4. **Squeeze out the toilet paper and place the pulp in a separate bowl.** Tear it off in smaller chunks (1 inch or less) so you can squeeze out as much water as possible. Place the pulpy chunks in a separate bowl so you can mix them with the other ingredients. Keep going until you've squeeze out all the toilet paper.
5. **Measure 1 1/2 cups of toilet paper pulp.** One roll of plain toilet paper typically equals a cup and a half of pulp. If your brand of toilet paper makes very small or large rolls, you might end up with less or more pulp than you need. Make more toilet paper pulp or discard the excess as needed, so you have 1 1/2 cups of pulp in the bowl.
6. **Add the remaining ingredients.** To the bowl with the pulp, add a cup of premixed joint compound, 3/4 cup white school glue, 2 tablespoons mineral oil, and 1/2 cup white flour.
 - Do not substitute these ingredients. Different types of glue, oil, flour, and so one will change the consistency of the paper clay and may not produce the results you want.
7. **Mix up the clay until smooth.** Use your electric mixer to beat the clay at a high speed. The paper fibres will break down and blend with the joint compound, glue, oil and flour until it takes on a smooth, dough-like consistency.
 - If you want a thicker clay, mix in an extra half cup of flour.
 - For a thinner consistency, add an extra half cup of glue.

How to make clay

Flour and Salt Clay

- 4 cups (480g) of all-purpose flour
- 1.5 cups (417g) of salt
- 1.5 cups (350ml) of water

2. **Mix 4 cups (480 g) of flour and 1.5 cups (417 g) of salt in a large bowl.** Add both dry ingredients to a large mixing bowl. Then, use a big plastic or wooden spoon to stir the dry ingredients until they are thoroughly mixed.
- Make sure the flour and salt are **mixed well before you add the water** because it will be harder to redistribute one of the ingredients once the clay starts to form.
3. **Add 1.5 cups (350 mL) of water gradually as you stir the mixture.** Pour small amounts of water into the bowl at a time, stirring between pours. Blend the mixture as well as you can before you add more water. By the time all of the water is added to the bowl, your clay should be forming a ball.
- It should get harder to stir each time you add more water.
4. **Knead the clay until it reaches an even consistency.** Take your clay out of the bowl and place it on a flat surface, like the kitchen counter. Use your hands to push and pull the clay to work it into a nice consistency.
- You can also pick up your clay and throw it down on the counter to work out any air bubbles that might be present. This will help your clay stay moist longer.
5. **Sculpt the clay as you desire.** Now that your clay is ready, you can mould it into a figure, create ornaments, or just play around. Use it as you would use a store-bought clay.
- This kind of clay can make great keepsakes. For example, press your child's foot or hand into the dough until there is an imprint, then let the mould harden to make a gift.

Tip: Use cookie cutters or a glass to cut out shapes, if you like. Start by rolling your clay out flat using a rolling pin. Then, cut your clay into shapes using a cookie cutter or a drinking glass, which can make circles for ornaments. If you wish to hang the shapes as ornaments, poke a hole near the top of the shape using a drinking straw or a toothpick.

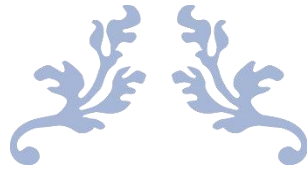

6. **Allow the clay to air dry for 2 days to preserve your model.** If you want to create a sculpture or keepsake, you'll need to let your clay dry. This kind of clay dries out quickly, but it's best to leave it untouched for at least 2 days to make sure it's fully dry.

Variation: If you need to speed up the drying process, bake your clay at 100 °C for 3 hours. If it still feels soft after 3 hours, you can put it back in the oven for up to 2 more hours.

7. **Store unused clay in an airtight container.** You can preserve your clay for a few weeks by keeping it in an airtight container. Make sure you leave the clay in the container whenever you're not playing with it, as it will dry a little bit whenever it's exposed to the air.
- For instance, you can use a plastic bag with a zipper or a Tupperware container. For extra longevity, place the clay in the refrigerator.

PERFORMING ARTS

YEAR 1 TERM 4

1. Warm Up and Play

Purpose of the warm this term is to provides a stimulus and building block for Improvise and Create topic. You will be expected to create a pantomime production involves a lot of preparation in terms of the characters, music, plot (storyline), costumes and dance.

Energiser	COUNT TO 20 • This is one of the simplest, yet most challenging drama games. Sit or stand in a circle. • The idea is for the group to count to twenty, one person saying one number at a time. • Anybody can start the count. Then a different person says the next number – but if two or more people happen to speak at the same time, counting must start again from the beginning. • It is possible to get to twenty if everybody really concentrates – but try and be relaxed as well. • Try doing it with and without eye contact Other variations you can try include members of the group facing outwards and closing their eyes (difficult!) or counting back from twenty to one. •
Game	Brief: A game of miming and unleashing imagination. Instructions: • Participants/Learners stand in a circle • The facilitator inform the participants that this is a guessing game whereby one participant stands in the centre with an imaginary gift box with a gift inside. Then, that participant opens the box and inside is his/her imaginary gift. • The participant then needs to mime that give (show what it is) by demonstrating what it is for. • The other participants guess what the gift is. • Once they give the correct guess, then the participant returns the gift into the box and gives the gift to another participant

	• That new participant, like the first on goes to the centre and open the gift; mime what it is and other guess. This process goes until everyone has had a chance. Notes: Miming is done silently with no props except imaginary ones
	Imaginary settings/scene scenarios (5-10 min) • Facilitator asks the participants to walk freely and silently in the space, not following each other. Just casually walking all different directions and paces. • Facilitator informs the participants about the magic instruction word 'Freeze' then informs the participants that when they hear that word being called out by the facilitator, they need to stand still on the spot. • After a minute or so, the facilitator calls out the magic word 'Freeze' • When the participants are still then the facilitator gives them scene change instruction. Examples of scene change instructions • Walking in the forest, deep snow, market place, the rain, wind, taxi rank etc. • Climbing a mountain, rocky or slippery or thorny • Walking with luggage • Trying to hide from someone • Walking suspiciously (like you have done something illegal or someone is following you. Note: Before each instruction 'Freeze' must be called out in order for the instruction to be received well.
Cooling Down	Breath in and out standing quickly.

1. Interpret and Perform

Facts about a pantomime.

- Pantomime literally means “all kinds” of “mime” (panto-mime) entertainment.
- Pantomime is a type of play, using fairy tales to entertain.
- The creation process of a pantomime incorporate dramatic genres such as musical, jokes, slapstick comedy and it is based on a fairy tale.
- The performance of a **Pantomime** during the festive season.
- The characters in the fairy tale are usually exaggerated, bigger than life.
- The actors wear elaborate costumes.
- Audience actively participates in the pantomime.
- The storyline is a very predictable. “The bad guy’ (Villain) always tries to prevent ‘the good guys’ (Dame and the principal boy) by making the principal boy aware that the villain is “He’s behind you”.

Source : Google Images

Source: Google Images –Snow White and the Seven Dwarfs

Examples of dramatic genres included in the Pantomime production:

1. Slapstick – is a style that involves a lot of humour and exaggerated physical activity which are above normal life. Slapstick originated from commedia dell'arte (comedy of the masks), which is an Italian improvised comedy. For example, Mr Bean.

2. Musical

Musical

This is a drama style that has the combination of song, dance and dialogue as key elements used to create a performance. The performance of a musical relies a lot on visual spectacle (lighting, sound, costume etc.)

SpongeBob Musical at Forrest Theatre (2019)

The musical picture above displays the colourfulness in and elaborate facial express as in a pantomime production.

Informal Activity 1 : pantomime

Study the pictures (A & B) below and answer the questions that follow.

1.1 Identify the objects that create exaggeration.

1.2 If you were an audience member who you have shout out to actors that they are in danger? Explain your answer.

Picture A

Picture B

i **Fairy tales** are stories that are fictional, and they are passed down from generations. There is a magical being and they are bigger than life. These are some classical fairy tale, Cinderella, Snow white; The bad stepmother, Beauty and the Beast, Three little pig etc.

- Fairy tales are known for their humour and the upbeat characters in a struggle for power.
-

In this topic learners are to begin the production process of a pantomime which will be their performance end of the term.

- Learners will create props of their favourite fairy tale character.
- Learners will adapt ONE fairy tale in their group to perform.
- Learner also must collect relevant costume relevant to their characters.

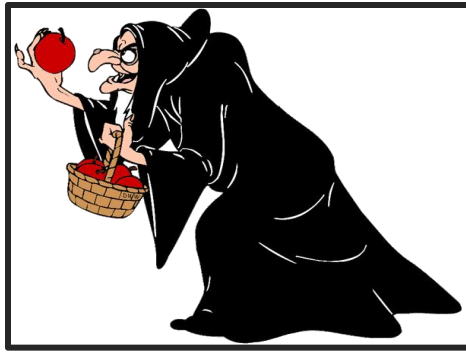

Learners must incorporate the music and dance into their performance.

Activity 3 : Prop Creation

You will need the following basic resources for this activity: scissors; cardboard paper, plastic, newspaper, paint.

You have had a lesson on pantomime and some of there characteristics you find in such a production. Using your knowledge of the pantomime and fairy tale; choose ONE fictional character in which you will find in the pantomime and /or fairy tale. Create stage property (prop) item associated with that character. For example, The Evil Queen from Snow white is associated with a red apple.

Source: Google Images

- Remember to use your knowledge from visual art of elements of art and design principles to enhance the look of your prop.

Below is a picture that displays some of the props associated with fairy tale character:

{Source: Google Images}

Character Biography

- Is personal profile for a character.

- In a character biography we review the character in a three-dimensional approach, which mean we describe the physical, psychological and mental attributes of a character.
- We also analyse the dreams and goal of your character and further get an understanding of the obstacles that your character may encounter.

Activity 4: Character Biography

Having created your prop for your character. You need to write out a character biography in which you detail out the attributes of your character. Below is the information required for your character.

Character Biography

Mention the fairy-tale your character comes from you?

1. Fairy-tale Character

Magical Objects: _____

Physical Characteristics

2. What does your character look like?

3. Describe the costume your character wears?

4. How does your character walk?

5. What expressions does the character have on their face?

Some social characteristics

6. What is your character's economic status?

7. Where do they live?

8. What job do they do?

—

9. What level of education do they have?

Some emotional characteristics

10. What does your character love or hate?

11. How do they feel about the situation that they are in?

12. What is their reaction to the people around them?

13. What makes them happy, sad, angry or confused?

Some psychological characteristics

14. What motivates your character?

15. What do they dislike or like the most?

4. Warm Up and Play

Process Drama

i **Process Drama** is a method teaching and learning, that makes learners and the teacher to be in and out of role exploring a situation or theme in a set up.

The teacher will use process drama to conduct this lesson. Learners have been developing their favourite fairy-tale character and they have got to know the character though developing the props and writing out the character biography. In this lesson there is a Fairy fair where different characters from different worlds will be meeting for the first time.

IN ROLE:

The Teacher: The organiser of the Fairy Fair

Learners: Different fairy characters

Setting: It is in the evening and all fairy characters are gathered to discussion the food shortages that threatens their worlds.

For example, the mermaid that a challenge with the populated sea with full of chemicals and the plants are dying and are unable to secure their food. The mermaid hope to find a solution to this fair through suggestion of other fairy characters.

Rules of Participation in Process Drama

- All learners must be in role when interacting with others.
- Learners must give each other a chance when speaking.
- The teacher needs to draw information from learners and probe.
- Everyone must remain in character until such time the teacher announces out role.

Process

The teacher (organiser) will welcome all the learners (fairy characters) at the fair in role. The organiser will outline the purpose of the fair, "Network with other fairy character and find possible solutions to the issue of food shortages in their worlds"

The organisers will allow other fairy characters to present their challenges to the fair. Others will try to give suggestions to the challenges. The organiser out of role will summary the challenges the fairy characters presented. The fairy characters out of role will be divided into groups where they will discuss the problems from their different worlds.

Activity 5 : Reflection

Tableau

It is a still picture or image of a scene or event displayed by a group of people.

Source: Google Images

In groups, learners must create a tableau that represents the challenge of food secure in their world. The world needs to be clearly portrayed through body imaging. The tableau can be brought to live where the fairy characters say one word that represent their world's challenge.

5. Improvise and Create

Scripting Process

This activity leads to the formal activity. All the material developed will be used in your formal assessment for the term.

In this lesson learners are expected to write a fairy story which they can incorporate their previous process drama issue or even use a different storyline from the beginning.

In the process of scripting learners must:

- create a dance and
- make music either by using body percussion from term one or other music making devices in order to enhance their performance.
- Ensure that the storyline has the dame, villain and the principal boy.
- Find a moment in their play to incorporate the audience

6. Interpret and Perform

Formal Activity: Pantomime

YEAR ONE

TERM TWO

3-5 minutes per group

In term two, several activities both practical and theory are focused in up building to a pantomime ranging from facts about pantomime, characterisation fairy fair; and creating a good script.

Ensure the following information is included:

- In manageable groups you need to create a pantomime play.
- A script must be written and submitted for marking.
- Groups can begin with a new theme or can even develop the one challenge they are working with during process drama.
- Evidence of three key characters in a pantomime and your fairy characters can be included in the creation of your play.
- Music and dance inclusion
- Audience Involvement
- Usage of costume, props and the prop items made by the class can be incorporated.

Marks Allocation – Marks will be awarded for the following aspects:

A rubric will include a detailed criteria of awarding.

Process	Items	Mark Allocation
Pre- production	Script for Pantomime	10
Production	Plot: Evidence of the three key characters	10
	Music and dance	10
	Audience involvement	10
	Visual Spectacle: Costume, props	5
Post-Production	Reflection: Tableau	5
Total Mark		50
