

Visual Arts

Year 1

Term 3

Learner Book

Animals

Visual Arts

1. Visual Literacy

Elements of Art

The elements of art are sort of like the “building blocks” for creating something.

There are 7 elements of art

Line, Shape, Form, Space, Texture, Value and Colour.

Artists use these elements (building blocks) and mix them together with design to make a piece of art.

Space

Dear learner by the end of this activity you will be able to:

- Discuss and understand space.
- Identify and use fore, middle and background.

Artist use several techniques to create the illusion of depth with two-dimensional art.

It looks as though things a far away, very close etc.

Activity 1 : Space

- Make drawings to illustrate the different techniques used to create the illusion of depth.
- Look at the example underneath each block and make a drawing that will illustrate this.

PLEASE do not draw or write in this book.

--	--	--

Foreground

The part of the image that is nearest to you.

It is in the front, very close to you.

The objects appear big.

Middle

This part lies between the foreground and the background.

They are smaller than the foreground objects and usually placed behind objects in the foreground.

Background

The background holds the foreground and main subject in focus. It is the space that surrounds your image.

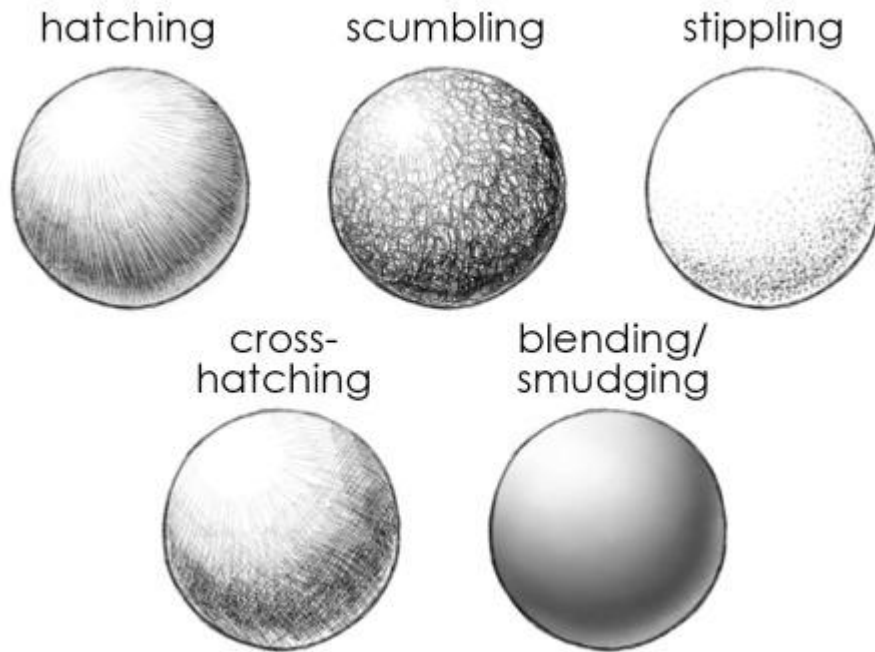

Things in the background most often appear out of focus and smaller than the middle.

Value

Dear learner by the end of this activity you will be able to:

- Discuss and understand value.
- Create value with black and white and in colour.

Value in **black and white** can be created by making any marks close together or further apart.

Shading Techniques by Lana's drawing 101

Activity 2 : Vaule

- Create value by using lines (mark making). (Black and white)
- Make lines that are spaced far apart and closer together to create the impression of light to dark (value).
- Practice in your visual diary before you do the final activity on the page that your teacher will provide.

Value created by using lines.

--	--	--	--	--	--

Value can be created in **colour** by adding black or white to the colour.

Pure Colour

White

Hue

Black

--	--	--	--	--	--	--

2. Animals

- Look at the image depicting different animals.
- See if you can identify the art elements (line, shape, colour, texture, space and value) in each animal drawing.
- Do you still remember the art elements we learned about in term 1 and 2 (line, shape, colour and texture)?

Activity 3

Use your visual diary to make notes and identify the art elements that you remember and can identify.

Animals source freepik.es

3. Create in 2D

Animals

Assessment 1 Formal activity

Start Date: _____

End date: _____

Dear learner by the end of this activity you will be able to:

- Use art elements: line, shape, texture, colour space and value.
- Explore different colour and drawing media and techniques.
- Draw an animal that you know about.
- Focus on shape, size and the colour of the animal.
- Draw what you see.

Recourses

A3 white paper.

Pencils, wax crayons, pastels or any colouring medium you are comfortable with.

Instructions

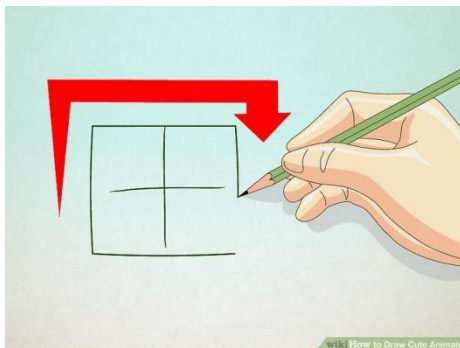

Draw or use a combination drawing materials to create an animal the learner knows. Look at photographs and pictures; focus on the shape, size and colour of the animal. Draw what you see. Use related colours in drawing any kind of animal.

By the end of this activity you must be able to draw an animal, any animal that is familiar to you.

Example 1 - Drawing a cute tiger

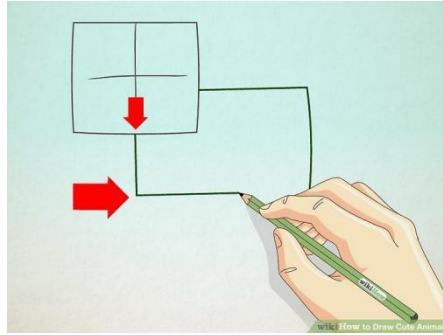

Step 1

- Draw a square.
- Add a crossed line in the centre.

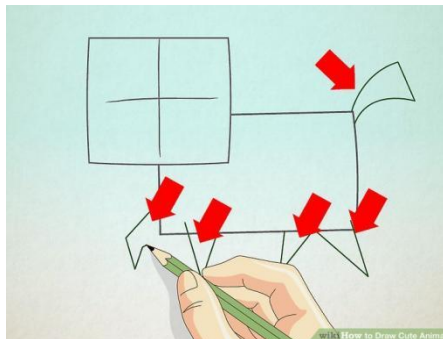

Step 2

- Draw a rectangle on the right bottom side of the square.

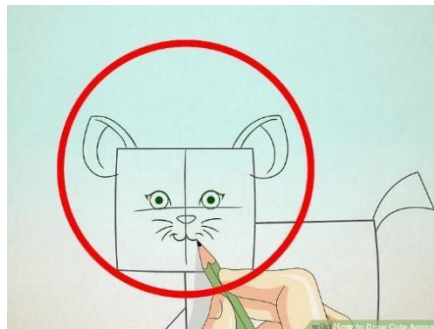

Step 3

- Draw the four legs of the tiger using small sharp angles (triangles).
- Add the tail at the left upper corner of your rectangle.

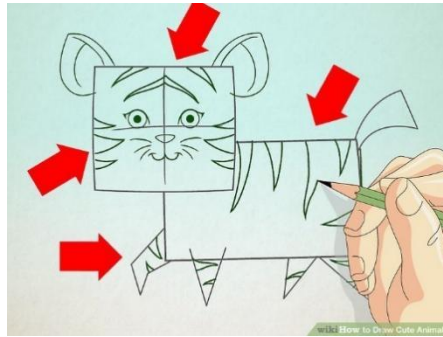

Step 4

- Draw the ears using small triangles.
- Add the eyes using two small darkened circles.
- Leave a small white portion of the eye for the light's reflection.
- Draw the nose using an upside-down triangle.
- Draw the mouth using two small curves and add the three horizontal lines on each side of the cheeks for the whiskers.

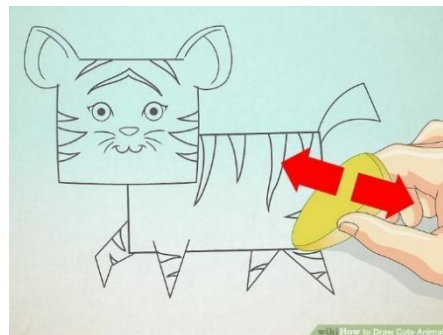

Step 5

- Draw patterns on the tiger's body.
- You can use small triangles for the pattern.

Step 6

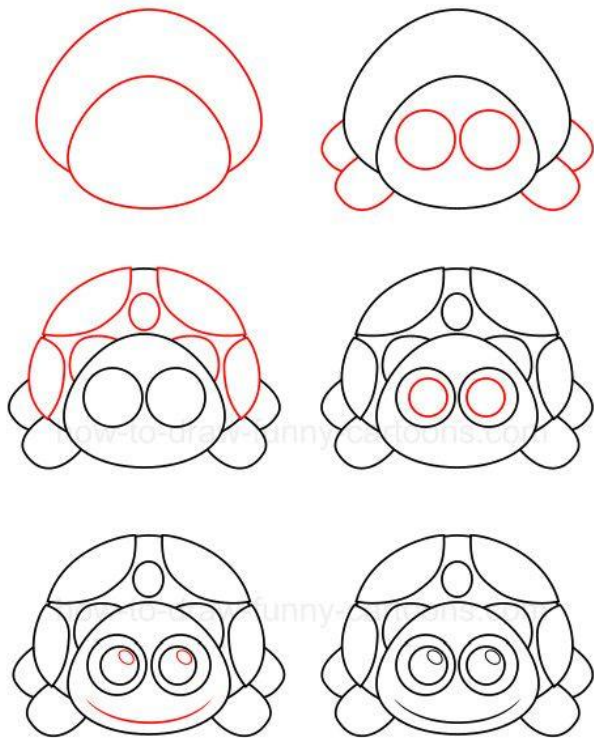

- Erase unnecessary line.

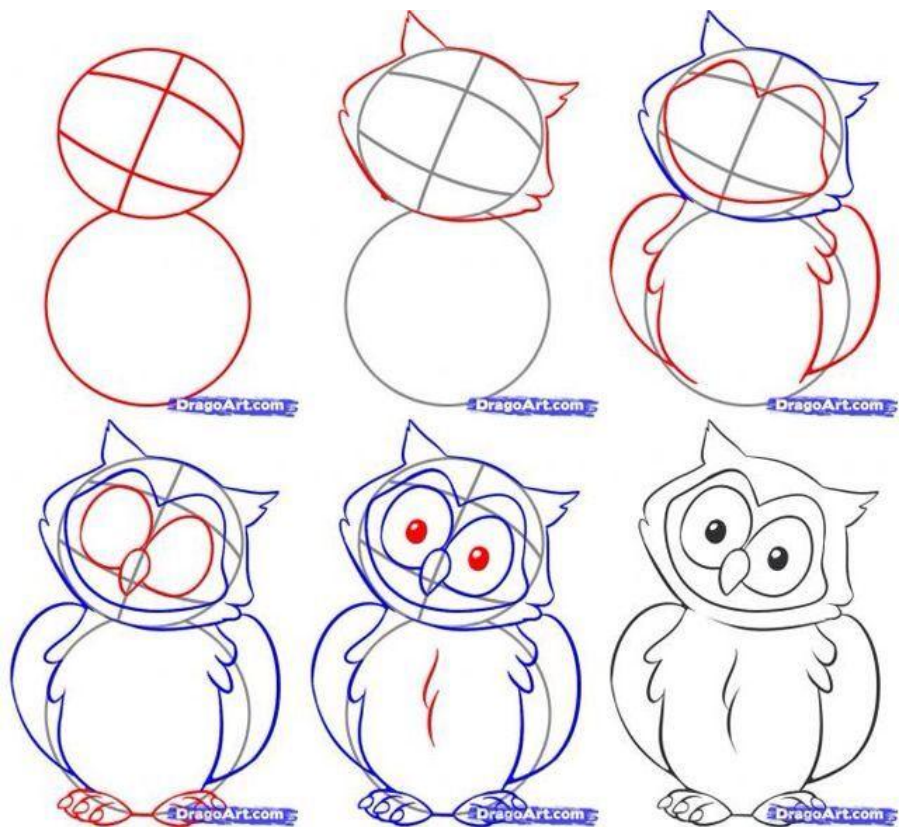

Step 7

- Colour your drawing.

how-to-draw-funny-cartoons.com

Example 2 - How to draw animals – Penguin and Polar Bear

Step 1

- Draw 2 circles for each animal.
- One for the head, and one for the body.
- Also, draw a cross on the bigger animal's head.
- Do not draw these lines to dark, they are only guidelines.

Step 2

- Draw the guide for the legs and other features of the animals. (Guidelines should be light)
- Use shapes.

Step 3

- Then, draw the animals. (Darker drawings)
- For the polar bear, you could draw the fur by using lines and zigzag lines for the fur.

Step 4

- Erase the guidelines.

Step 5

- Colour the animals as you like.

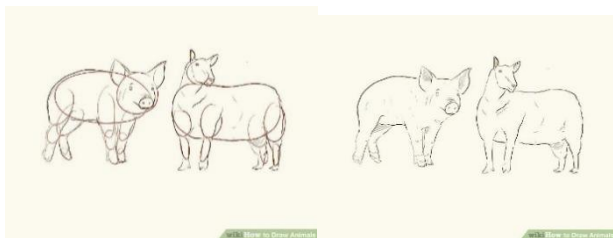

Step 6

- You could also add some background and shading to your drawing.

Alternatives

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Line usage: Long, short, thin, thick, horizontal, vertical, dark and light lines.	3	
2. Shape: Shape are clear and identifiable, neat and creative.	3	
3. Colour: Was colour used to the best advantage of the design.	3	
4. Texture: Was the student able to create implied textures.	3	
5. Space: Used for, middle and background as part of the final image.	3	
6. Value: There are differences in colour value (shade and highlights).	3	
Drawing is in line with the picture. (draw what you see, not realism)	3	
Technique: Work is neat and clean. Presents well.	2	
Attitude, taking care of the mediums, cleaning up processes.	1	
Task completed on time.	1	
TOTAL	25	

Reflection (use visual diary for reflection)

1. Was it hard to follow the steps?
2. Where you able to make a drawing of an animal?
3. How was this experience for you, did you enjoy drawing animals?

4. Create in 3D

Animals

Assessment 2 Formal activity

Start Date: _____

End Date: _____

Dear learner by the end of this activity you will be able to:

- Use skills and techniques: earthenware clay or any other type of clay.
- Use art elements: Texture, shape and form reinforced through own modelling of animals.
- Spatial awareness: Reinforce conscious awareness of working in space e.g. model can be viewed from front, back and sides.
- Use tools appropriately.
- Make an animal from clay.

Resources:

Clay: earth ware clay, papier-mâché clay, sculpturing clay, homemade clay etc.

Instructions

- Work with clay. Start building a sculpture through sculpting techniques.
- Decorate the sculpture by using colour and repetitive pattern.

Example - Sculpting a clay dog

Step 1

- Start with a tick oval-shaped ball.
- This will be your dog's body.
 - You can make the body a little longer to make a dachshund-type dog.
 - Dalmatian - start with a white body and add the black sport later.

Step 2

- Make a ball of clay for the head.
- Attach it to the top of your dog's body.
- Press it in until the head sticks.
- Form a triangle or long ovals from the clay to make the dog's ears.
- Add eyes and a round oval for the nose.

Step 3

- Add four rectangles for the legs.
- Two go in the front of the body and two in the back.
- Scratch two or three lines at the bottom of the legs for paws.

Step 4

- Attach a tail to your dog's body.
- Roll a small piece of clay back and forth between your hands, much like you are making a snake.
- Continue rolling until the tail gets to the length you want it to be.
- Attach the tail to the back end of your dog's body.

Step 5

- Take a toothpick or similar instrument and scratch your dog's body to create the texture of fur.

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Texture: Did you create an interesting texture that fits with the animal that you made?	4	
2. Shape/ Form: Does the shape of your animal resemble that of the real animal?	4	
Spatial awareness: Can your animal be viewed from multiple angles?	4	
Technique: Work is neat and clean. Presents well.	4	
Tools and clay were used appropriately? (Or did you play with the clay?)	4	
Task completed on time.	4	
Worked in an orderly manner and workstation was cleaned after activity.	1	
TOTAL	25	

Reflection (use visual diary for reflection)

1. Did you enjoy working with clay?
2. Were you able to make the animal that you wanted to make?

Your teacher will do this activity with you in class.

Teachers resource

How to make paper clay

- 1. Gather your supplies.** To make paper clay, you'll need toilet paper as well as a few supplies you can find at the hardware store. This recipe results in a smooth, malleable clay you can mould over any type of prepared form. It dries into a hard surface to which you can apply paint or varnish. Here's what you need:^[1]
 - 1 roll of single ply toilet paper (not the kind with lotion, scent or colour added)
 - 1 cup premixed joint compound (do not buy it in powdered form; get "regular")
 - 3/4 cup PVA glue (white school glue)
 - 2 tablespoons mineral oil
 - 1/2 cup white flour
 - 2 large bowls
 - Electric mixer
 - Measuring cups
- 2. Remove the toilet paper from the roll.** It's less messy to slip the entire roll of paper off of the cardboard roll at once, rather than unwinding the paper entirely. Place the toilet paper in one of the bowls.
- 3. Fill the bowl with water.** Pour it over the toilet paper until it's completely saturated. Push the toilet paper down into the water to make sure it all gets wet.
- 4. Squeeze out the toilet paper and place the pulp in a separate bowl.** Tear it off in smaller chunks (1 inch or less) so you can squeeze out as much water as possible. Place the pulpy chunks in a separate bowl so you can mix them with the other ingredients. Keep going until you've squeeze out all the toilet paper.
- 5. Measure 1 1/2 cups of toilet paper pulp.** One roll of plain toilet paper typically equals a cup and a half of pulp. If your brand of toilet paper makes very small or large rolls, you might end up with less or more pulp than you need. Make more toilet paper pulp or discard the excess as needed, so you have 1 1/2 cups of pulp in the bowl.
- 6. Add the remaining ingredients.** To the bowl with the pulp, add a cup of premixed joint compound, 3/4 cup white school glue, 2 tablespoons mineral oil, and 1/2 cup white flour.
 - Do not substitute these ingredients. Different types of glue, oil, flour, and so one will change the consistency of the paper clay and may not produce the results you want.
- 7. Mix up the clay until smooth.** Use your electric mixer to beat the clay at a high speed. The paper fibres will break down and blend with the joint compound, glue, oil and flour until it takes on a smooth, dough-like consistency.
 - If you want a thicker clay, mix in an extra half cup of flour.
 - For a thinner consistency, add an extra half cup of glue.

How to make clay

Ingredients

Flour and Salt Clay

- 4 cups (480g) of all-purpose flour
- 1.5 cups (417g) of salt
- 1.5 cups (350ml) of water

2. **Mix 4 cups (480 g) of flour and 1.5 cups (417 g) of salt in a large bowl.** Add both dry ingredients to a large mixing bowl. Then, use a big plastic or wooden spoon to stir the dry ingredients until they are thoroughly mixed.
- Make sure the flour and salt are **mixed well before you add the water** because it will be harder to redistribute one of the ingredients once the clay starts to form.
3. **Add 1.5 cups (350 mL) of water gradually as you stir the mixture.** Pour small amounts of water into the bowl at a time, stirring between pours. Blend the mixture as well as you can before you add more water. By the time all of the water is added to the bowl, your clay should be forming a ball.
- It should get harder to stir each time you add more water.
4. **Knead the clay until it reaches an even consistency.** Take your clay out of the bowl and place it on a flat surface, like the kitchen counter. Use your hands to push and pull the clay to work it into a nice consistency.
- You can also pick up your clay and throw it down on the counter to work out any air bubbles that might be present. This will help your clay stay moist longer.
5. **Sculpt the clay as you desire.** Now that your clay is ready, you can mould it into a figure, create ornaments, or just play around. Use it as you would use a store-bought clay.
- This kind of clay can make great keepsakes. For example, press your child's foot or hand into the dough until there is an imprint, then let the mould harden to make a gift.

Tip: Use cookie cutters or a glass to cut out shapes, if you like. Start by rolling your clay out flat using a rolling pin. Then, cut your clay into shapes using a cookie cutter or a drinking glass, which can make circles for ornaments. If you wish to hang the shapes as ornaments, poke a hole near the top of the shape using a drinking straw or a toothpick.

6. **Allow the clay to air dry for 2 days to preserve your model.** If you want to create a sculpture or keepsake, you'll need to let your clay dry. This kind of clay dries out quickly, but it's best to leave it untouched for at least 2 days to make sure it's fully dry.

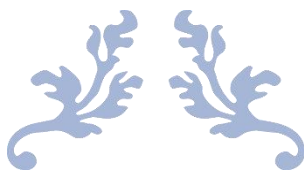

Variation: If you need to speed up the drying process, bake your clay at 100 °C for 3 hours. If it still feels soft after 3 hours, you can put it back in the oven for up to 2 more hours.

7. **Store unused clay in an airtight container.** You can preserve your clay for a few weeks by keeping it in an airtight container. Make sure you leave the clay in the container whenever you're not playing with it, as it will dry a little bit whenever it's exposed to the air.

For instance, you can use a plastic bag with a zipper or a Tupperware container. For extra longevity, place the clay in the refrigerator.

PERFORMING ARTS

YEAR 1 TERM 4

Year 1 Term 3

This term's focus will be on creation of indigenous or cultural stories using movement and songs.

Interpret and Perform

What is Indigenous?

The word indigenous suggests **traditional origins or roots of people's beliefs, practices and lifestyle.**

Beliefs – is what people in that particular group believe, at times within the indigenous setting the belief can **lead to superstitions**

Superstition – are beliefs that do not really make sense to people and they beliefs are usually about supernatural **things**.

Examples of Superstition:

1. Black Cats/Birds

Black cats have always had a bad rap, especially around Halloween, gi

2. Mirrors

Another widely-known superstition is that breaking a mirror will result in seven years of bad luck

3. Sweeping your house at night

Do not sweep your house at night, says the famous superstition, or you'll lose your wealth.

1. Interpret and Perform

What is a Cultural Practice?

A cultural practice is an act that is done in a particular culture to preserve, maintain identity from generation to generation. These acts are known as a Rituals and rite of passages.

A **Ritual** is a traditional practice that is symbolic, with great significance and is repeated from time to time.

Types of rituals

Cleansing Ritual – in most African cultures when a person is dead, the family has to mourn through cutting of their hair to show respect and honour. Usually slaughtering would take place after the funeral as to cleanse the deceased family,

Religious Rituals – this would include various domination practices, for example, the ordination of pastors/priest (there are certain prayers, songs, incenses, holy oil, water etc. that are used to perform the ritual.

Cultural Rituals – the intend is to celebrate identity of girl child, women of that particular culture and further preserve customs in that culture. For example, the Zulu Reed Dance (Umkhosi woMhlanga) is the pride of Zulu nation that teaches maidens to behave and maintain their virginity until such time they have been married. The maidens have a particular dress code which includes colourful beads which are symbolic. They carry long sticks and dance and sing in the process. See the picture blow:

Source: Google Images

Other Rituals are also linked with rite of passage

These are rituals performed when a person leaves or groups off a particular grouping, for example : Infancy (birth) ; initiation rituals; marriage rituals.

Examples

The birth rituals – a classical example of a birth ritual is baptismal that usually happens in churches. In the picture below the pastor baptise the baby and there are parents of the child.

Source:Google Images

Or even traditionally where they burn incense to chase the evil spirits from the home. They would then made a child a protective necklace which is believe to protect the child even when teething. In other cultures such as Zulu and Xhosa an Imbeleko is performed where a child is slaughter a goat for. Below is a picture representing persons who have undergone Imbeleko through having Isiphanga (white feathered bracelet)

Source: Google Images

Initiation Rituals – when a boy makes a transition from manhood and taken to the mountain, usually in the Xhosa culture that is known as Ulaluku. There is also womans initiation of Intonjane this take place after the girl's first period and a ceremony is performed which resemble sexual maturity and the ability to conceive.

Below is a picture of western boys initiation from their boyhood to manhood:

Source: Google Images

i The combination of beliefs and practices result into a lifestyle where families end up having values which are influenced by indigenous ways.

Informal Activity 1 : Ritual(Building block to final task)

Choose a ritual of your choice that is practiced by your family.

Find out the following information:

- Name of the ritual,
- Culture in which the ritual belongs;
- type of rituals,
- explain in four lines what happens in the ritual,
- explain why the ritual is important to your culture and have it symbolises.

Please note this information must be recorded in your book as you will orally share with your classmates. You are allowed to ask for information on rituals from your family, neighbours as your primary source for research; and books and internet.

2. Warm Up and Play

Relaxation game

- All learners will be lying down on the floor or seated on the chair quietly
- No learner must fidget or communication with there other learner
- You must wait for your teacher to give you instructions
- You are to think of a sound animal
- Slowly mimic the sound from soft to loud
- Visualise the movement of your animal
- The teacher will tell you when to open your eyes and move
- Be alert and try to locate the sound of the animal that appeals to your ears.
- Your teacher will call your name and you will move towards the direction of the sound you like
- When you reach the person whom you like their sound – you will repeat the sound and became a pair
- NOTE: Only half of the class will be called by the teacher to make a movement.

You will be group by your teacher based on the sound of your animals or animal family group for the next task.

- You will choose ONE natural disaster picture below:
- Create a movement piece with sounds representing the disaster

Source: Google Images

Source: Google Images

Source: Google Images

- This activity will lead to the verbal dynamics as part of the concept that you will learning.
- Keep mind the disaster you have chosen and the sound you made as you will be using them in your improvisation process.

Interpret and Perform

Verbal Dynamics

- It about bringing to live a written text to be alive, by using action or movement.
- When word is called out the action is also visualised.
- Words are usually larger than life and the word are motivate word which present a picture and onomatopoeic (words that mimic the sound and action)

These are a few examples of onomatopoeic words:

Source for all images: Google Images

Poem Analysis

Below there are choice of poems that link with the natural disasters that you did earlier.

Love like an active volcano roars,
it heats up, and really soars!

Starts way down deep from within,
molten, it does churn and spin.

Then comes a time for unloading,
bursting, burning, upward exploding!

By Chuy Amante

OR

Snow snow snow

Is

Falling

From

The sky

And

It is a

Winter

Wonderland

Out there

Believe

Me

[Aldo Kraas](#)

OR

Fire and treat all with fire

Only solution of all problems

Is fire, treat all with fire.

No silver, no gold, no dust, no dirt

But fire, fire is at the root.

All pure - fire,

Touch it and test your purity.

You are your own identity,

Show here your personality.

[Gajanan Mishra](#)

Informal Activity 3 Poem Analysis

- Study the poems above and in groups of not more six learners.
- Choose ONE poem in which you will identify words that you want to apply verbal dynamics.
- Your performance must be upbeat and action must be clear. Vocal range is important in verbal dynamics – Pitch is low or high and certain word have emphasized or stressed.

This process will be awarded a process mark which will be included towards your final mark:

Process Assessment - Contributes to the final

No	Criteria	Marks
1	Performed with energy	2
2	Evidence of Verbal Dynamics	3
3	Vocal Range & Projection	3
4	Creativity	2
	Total	10

4. Create and Improvise

Sound track for Drama

Sound track means recording for a drama/ film /or dance for music accompaniment. The soundtrack is usually used for films as recorded works. In theatre we refer to such sound as sound effects and radio can be on jingles or sound tunes.

Jingles is a musical identity of a person or programme in radio.

Informal Activity 4 : Percussion Instrument

In term one you have done the percussion family of instruments. Choose ONE percussion instrument that you will create using waste material. Please note that the percussion instruments that you will create will be used for your term final assessment. The creation of the instrument will be part of your post production mark.

An example of steps of how to make a drum from waste material: Remember this is to give you an example. You are encouraged to try other instruments

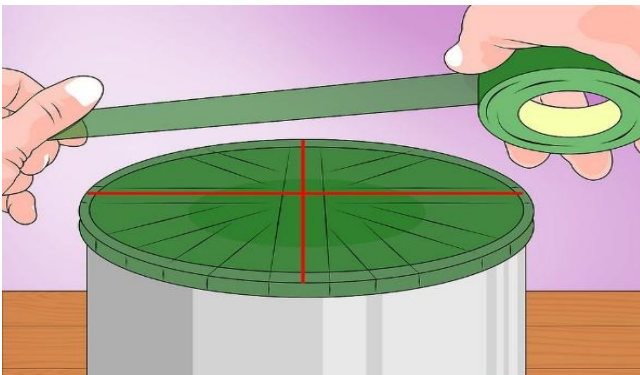

STEP 1: Gather your materials; Tin, Tissues, colour papers, tape, colour pens or paint

Source: Wiki Visual

STEP 2: Criss-cross strips of tape over the top of the container until it is completely covered.

Source: Wiki Visual

STEP 3: Measure the paper by wrapping it around the can. ...

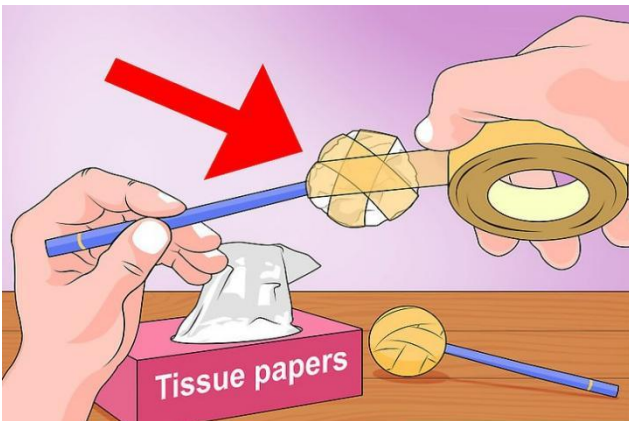

Source: Wiki Visual

STEP 4: Decorate the drum. ...

Source: Wiki Visual

STEP 5: Make a pair of drumsticks. ...

Source: Wiki Visual

STEP 6: Test the drum

Source: Wiki Visual

5 Interpret and Perform

Formal Activity : Ritual

Year One Term 3

Instructions

- Divide yourself in groups of not more than six learners
- Choose ONE cultural/indigenous practice that you did earlier this term
- The process of the ritual must be clearly be reflected upon
- You need to use elements of drama to develop your performance
- Include instruments you created to make an indigenous song for the performance
- Your performance should be 3-5 minutes
- You must use costume and props to enhance your performance

- Your performance must include indigenous song and a dance

Below are how elements of drama can be applied for a cultural/indigenous performance

Example of a Ritual e.g. Reed Dance Performance	Elements of Drama
Procession of the maidens and ceremony proceedings	Considered as plot
The beadwork and traditional clothes	Costume which is part of spectacle
Maiden Sticks	Props which is also spectacle
Singing and dancing of song	Music /Rhythm
The purpose of the reed dance (Preservation of Zulu customs among girls_	Theme
Different Maidens	Characters

Marks will be awarded for the following

Process	Criteria	Mark
Pre-production	Verbal Dynamics performance	10
Production	Evidence of element of drama	10
	Cultural Practice clear	10
	Song and dance	10
Post - Production	Percussion instrument	10
Total
