INTRODUCTION

A picture paints a thousand words they say. This is certainly true for Tommy Motswai, the famous South African artist.

DEVELOPMENT

Fun, laughter, joy and happiness are what Tommy Motswai's art is all about.

His work shows people going about their business, laughing, talking and shouting.

Cars and trains rush past, but Tommy Motswai hears none of this, as he has been deaf and mute since birth.

Motswai was born in Johannesburg in 1963. He studied art and won numerous awards for his art work.

He is known worldwide for his colourful paintings.

CONCLUSION

I am inspired by his positive attitude towards life. His paintings teach us that no matter your disabilities, life can still be bright and happy. You can reach your goals. It all depends on your attitude.

5. You may read together or take turns to read.

“Long Walk to Freedom”, the autobiography of Nelson Mandela, describes the South African antiapartheid struggle from the perspective of one of its most important participants. In the book, Mandela describes his childhood; his development into a freedom fighter; his twenty-seven years in prison; and his remarkable role in the construction of a new, democratic South Africa. Long Walk to Freedom was published in 1995,

the year after South Africa’s first democratic elections made Mandela the first black president of South Africa.
