

Creative Arts

Year 2

Term 4

Teacher Book

Name and Surname: _____

Class: _____

Visual Arts

Visual Literacy

Elements of Art

By the end of this activity learners will be able to:

- Identify and use Tertiary and Related colours.
- Observe and discuss the success of the work you have done throughout the year.

Teachers Notes:

Hand out visual diaries.

Instruct students to make colour drawings, swatches as examples (notes).

Work through the two new colour theories and ensure that they understand and comprehend.

Colour

Related colours

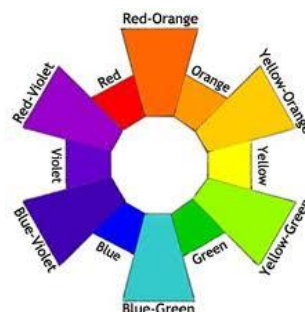

Related colours are when the secondary colour and another secondary colour have the same primary colour. They are called related colours because these colours are directly related with the primary colour.

Related colours posted by shwethavenkat

Tertiary colours

A tertiary colour is a colour made by mixing one primary colour with half of a secondary colour.

Activity 1

Teachers Notes:

Hand out visual diaries.

Provide each student with the template required for activity 1.

Template must be copied, cut and paste into the visual diary.

Instruct the students to colour (they will not be writing on this page) each of the examples as is being requested.

Assist them where needed.

INSTRUCTIONS:

Teachers will give verbal instructions to student.

This entire page will only be coloured in, students will not be writing anything.

They will colour the primary and secondary colours.

Identify the 3 warm and 3 cool colours.

Complementary colours.

Related colours they will start in the middle with a primary colour and then colour the two colours on each side of that primary colour (colours related to the primary colour)

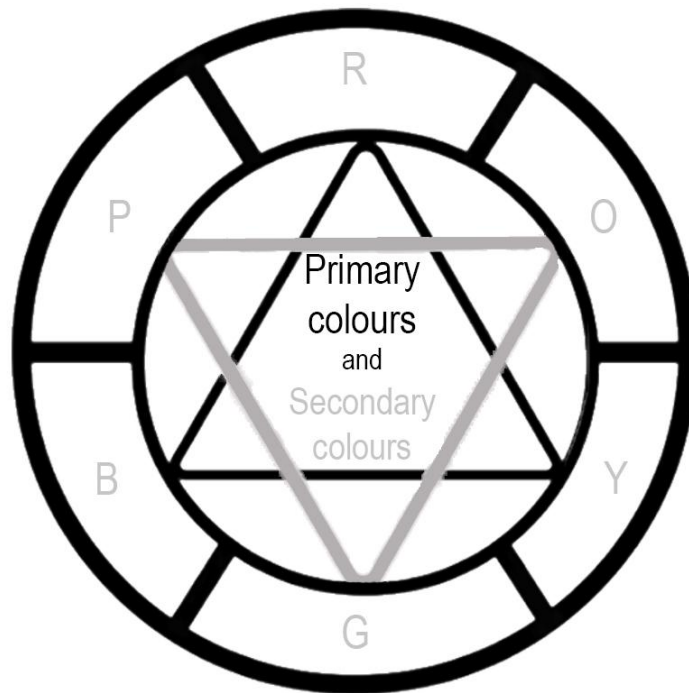

Tertiary colours, they can either colour the tertiary colour only or show the two colours that make up the tertiary colour as well, in this case it will be a gradient/ transition colouring.

By the end of this activity learners will be able to:

- Complete the colour theory activity, showing their understanding of the topic.

- Have a look at the activity sheet below.
- In it you will see all the theory on colour we have done up to date.
- Together with your teachers' instruction, complete the activity.
- You will receive a template that you must then cut and paste into your visual diary.

Colour Theory

R
O
Y
G
B
P

Warm

Cool

Complementary Colours
Colours that are opposite on the colour wheel.

Related Colours
Colours that are related to one primary colour.

--	--	--	--	--	--	--

Tertiary Colours
Primary colour mixed with a secondary colour.

Teachers Notes:

Hand out visual diaries.

Students need to make notes with images in their visual diary.

Teachers must ensure that the students understand each principle before moving on to the next.

The activity (2) that follows must be an indicator if students grasp the concept.

If needed, teachers should revisit this information.

Unity and Variety

By the end of this lesson you will be able to:

- Identify and show your understanding of unity and variety.

Unity is the result when all the design elements work together to give you a satisfying sense of belonging and relationship.

- The individual elements in an artwork do not compete for attention.
- The main theme of the image is clear.
- The design will feel complete and organized.

source: Theresa Barnard Oil Paintings

Unity is created here with repetition.

See how the (duck) form and (brown) colour is repeated throughout the whole image

source: Theresa Barnard Oil Paintings

The road in this image help us to create unity by connecting the people in the foreground with the people in the background.

Variety is about mixing the elements and objects in your image, to avoid making them boring.

Photograph by Trent Sizemore

Photograph by Trent Sizemore

This image has variety because each shell is completely unique/different. There is also unity in this image because each shell is still a part of the whole beach. You can mix colour, shape, textures, and any other combination of elements.

This image has variety by introducing another element into the foreground of the picture. Without the rocks, this would be just another waterfall image. The rocks add something new, while keeping the same feel in the overall image.

Activity 2

By the end of this activity learners will be able to:

- Identify unity and variety in each of the two images below.

Teachers Notes:

Hand out visual diaries.

Provide students with the template needed to complete activity 2.

Students must complete, cut and paste in their visual diaries.

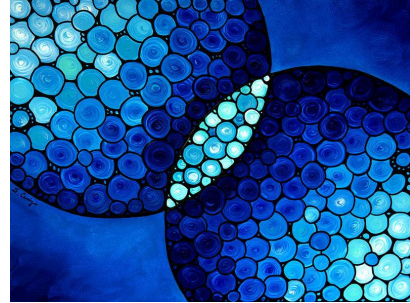

Help learners with their discovery and understanding of the new concept.

DO NOT give them answers, help them to come to an answer with discovery.

- Use your visual diary to complete activity 2.
- Your teacher will provide you with the template, cut out and paste in your visual diary.
- You need to indicate if the following 2 images are an example of Unity or Variety and then explain why you say so.

Posted by [phenominalkidinthemaking](#)

Print by Sharon Cummings

The M&M's are all the same shape, but different colours add variety to the same shape.

Just like the shells on the beach, they are all the same candy even though they all look different.

Some students may also see unity in this with the repetition of the same shape.

Same shapes and same colour value.

It may be different colours of blue, but it is still all blue.

Teachers Notes:

Hand out visual diaries.

Lead the discussion and help learners to identify and come to conclusions as part of their own discovery. This is a class discussion, but should the students feel the need to take notes in their visual diaries they can do so.

All formal assessments to follow are going to be related to one another (Theme Term 1-3)

The activity examples to follow are ONLY examples and are created with themes from Term 1-3 in mind.

It will be up to each individual teacher and her class to develop and plan the activities.

This is an open topic, but there are still assessment requirements that must be met.

See rubrics or CAPS document assessment plans.

Create in 2D

Picture combining all work done in Term 1-3

Assessment 1 Formal activity

Start Date: _____

End date: _____

By the end of this activity learners will be able to:

- Use drawing and or colour media to explore a variety of media and techniques.
- Use art elements: Secondary colours, related colours, warm and cool colours, tint and shades, focal points.
- Use design principles: Contrast and proportion.

Resources

A3 white paper.

Visual stimuli.

2/3B pencils, charcoal, coloured inks, oil pastels, tempera paints.

Mixed mediums.

Instructions

Combine all techniques taught to create a picture using one of the themes of work done in Term 1-3.

Create a picture combining all work done in Term 1-3.

You will develop an activity with your teacher, the example to follow is just for inspiration.

Teachers Notes:

For this activity students will have to make a billboard poster for an animal fashion/ accessory brand or product.

The name and logo are not important, the images composition and art elements and design principles that they have learned over the year is important.

The product being advertised in 2D will be made in the next 3D assessment activity.

Example

Resources

A3 white page.

Variety of colour mediums, what you are comfortable with.

Instructions

Develop a billboard advertisement/ image that will advertise an animal product.

Focus on the image not the wording and the selling factor.

Fore, mid and background, colours, composition, balance etc.

Just like your still life/ landscape drawing, attention must be given to fore, middle and background, and all other related elements and design principles that will contribute to a good image.

Step 1

Think of what you want to draw.

Work in your visual diary and do your rough work.

Step 2

Sketch the basic form of the object/s you are trying to draw.

Try breaking it down to basic shapes.

Pay special attention to proportions, fore, mid and background.

Step 3

Erase and redraw as needed.

This can be done as much as you like until you are happy with your finished composition.

Remember that this is a class activity, so don't waste too much time.

Step 4

Go over the drawing when you are satisfied with the form and outline.

Add small lines and details and show light and shadow.

Step 5

Finish the line work.

Go over the lines with a pen or sharp pencil.

At this point, you can add the darker areas using solid lines.

Step 6

Colour if you wish.

Think about all the colours you have learned about and how to use them to make your artwork the best it could possibly be.

Illustration by Mark Christiansen

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Colour: Related colours and/ or warm and cool colours used with intent.	4	
Design Principles:		
1. Contrast: Evident and used to benefit or improve the image.	4	
2. Proportions: Image shows correct proportion or used to improve the image/ with intent.	4	
The image conveys a clear message. (Animal, product, a story)	4	
Finished image meets the brief and is neat and well presented.	4	
Made good use of allocated time and finished on time.	4	
Planning was done in the visual diary and then refined for the finished poster.	1	
TOTAL	25	

Reflection (Use your visual diary for reflection)

1. What product did you decide to sell?
2. Do you think your poster represents this product well?
3. Did you enjoy making this poster?

Teachers Notes:

Hand out visual diaries.

Students will reflect on previous activity, build on it and do planning in their visual diary.

These two assessments (2D and 3D) need to follow on one another or relate.

This activity will follow and incorporate with the 2D activity.

Again, this is only an example and teachers together with their class will have to come up with appropriate activities.

This activity was developed with Term 1-3, themes, in mind.

Create in 3D

Create a product combining all work done in Term 1-3

Assessment 2 Formal activity

Start Date: _____

End date: _____

By the end of this activity learners will be able to:

- Perform skills and techniques like pasting, cutting, wrapping, tying, joining various recycled materials.
- Use art elements: Texture, shape/form, colour.
- Spatial awareness: reinforce conscious awareness of extending parts of models into space.

Resources

Mixed media.

This is only an example.

Instructions

Combine all techniques taught to create a picture using one of the themes of work done in Term 1-3.

Create a product where all Term 1-3 work is taken into consideration and combining these products into one object.

You will develop an activity with your teacher, the example to follow is just for inspiration.

Example

Resources

Recycled materials, clay, beads, mixed mediums, anything the learners is comfortable with

Instructions

You will now make the animal product that your billboard advertised.

Do the relevant planning and design in your visual diary.

You may use any materials that you are comfortable with.

Step 1

- Get a piece of fabric.
- If you know someone who sew you can use some of their scraps. (Sewing teacher at school)
- You will need a square of fabric about 35cm for a large dog or 20cm for a small dog.

Step 2

Cut the fabric into a square.

The length of your fabric from the bottom left corner to the right top corner needs to be two times longer than what you need.

Large dog $35\text{cm} \times 2 = 70\text{cm}$ from corner to corner, Small dog $20\text{cm} \times 2 = 40\text{cm}$ square from corner to corner.

Step 3

Place your square flat on your table, face down. (Your print is showing toward your table)

Lois Wade – wikihow.com

Step 4

Fold the two opposite corners in, about 7cm, towards the centre.

Lois Wade – wikihow.com

Step 5

Stich, hand sew, paste with fabric glue the folded corners down.

Lois Wade – wikihow.com

Step 6

Fold the bandana un-sew corner to corner, with printed sides facing each other and sew, stich fabric glue. They should line up the edges and leave the sewn corners in line with each other. Sew, glue or stich the corners together, DO NOT sew closed the folded corners.

Lois Wade – wikihow.com

Step 7

Trim the seam and miter (cut off the excess) the point of the bandana to make turning the point easier.

Lois Wade – wikihow.com

Step 8

Turn the printed side of the bandana to the outside and iron it flat if needed.

Lois Wade – wikihow.com

Step 9

Trim away any thread as needed.

Lois Wade – wikihow.com

Step 10

Slide your dog's collar through the bandana.

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Texture: Actual texture created that fits with object made.	5	
2. Shape/form: Interesting shapes or forms made that are proportionate or accurate.	5	
3. Colour: Colour combination learned in term 1-3 that benefits the finished product and used with intent.	5	
Spatial awareness	5	
Used a variety of mediums/materials and different skills.	5	
TOTAL	25	

Reflection (Use your visual diary for reflection)

1. Would you buy this product for your pet in a shop?
2. What would you change if you could do this activity over?
3. What was the best part of this activity?

Teachers resource

How to make paper clay

1. **Gather your supplies.** To make paper clay, you'll need toilet paper as well as a few supplies you can find at the hardware store. This recipe results in a smooth, malleable clay you can mould over any type of prepared form. It dries into a hard surface to which you can apply paint or varnish. Here's what you need:[\[1\]](#)
 - 1 roll of single ply toilet paper (not the kind with lotion, scent or colour added)
 - 1 cup premixed joint compound (do not buy it in powdered form; get "regular")
 - 3/4 cup PVA glue (white school glue)
 - 2 tablespoons mineral oil
 - 1/2 cup white flour
 - 2 large bowls
 - Electric mixer
 - Measuring cups
2. **Remove the toilet paper from the roll.** It's less messy to slip the entire roll of paper off of the cardboard roll at once, rather than unwinding the paper entirely. Place the toilet paper in one of the bowls.
3. **Fill the bowl with water.** Pour it over the toilet paper until it's completely saturated. Push the toilet paper down into the water to make sure it all gets wet.
4. **Squeeze out the toilet paper and place the pulp in a separate bowl.** Tear it off in smaller chunks (1 inch or less) so you can squeeze out as much water as possible. Place the pulpy chunks in a separate bowl so you can mix them with the other ingredients. Keep going until you've squeeze out all the toilet paper.
5. **Measure 1 1/2 cups of toilet paper pulp.** One roll of plain toilet paper typically equals a cup and a half of pulp. If your brand of toilet paper makes very small or large rolls, you might end up with less or more pulp than you need. Make more toilet paper pulp or discard the excess as needed, so you have 1 1/2 cups of pulp in the bowl.
6. **Add the remaining ingredients.** To the bowl with the pulp, add a cup of premixed joint compound, 3/4 cup white school glue, 2 tablespoons mineral oil, and 1/2 cup white flour.
 - Do not substitute these ingredients. Different types of glue, oil, flour, and so one will change the consistency of the paper clay and may not produce the results you want.
7. **Mix up the clay until smooth.** Use your electric mixer to beat the clay at a high speed. The paper fibres will break down and blend with the joint compound, glue, oil and flour until it takes on a smooth, dough-like consistency.
 - If you want a thicker clay, mix in an extra half cup of flour.
 - For a thinner consistency, add an extra half cup of glue.

How to make clay

Flour and Salt Clay

- 4 cups (480g) of all-purpose flour
 - 1.5 cups (417g) of salt
 - 1.5 cups (350ml) of water
1. **Mix 4 cups (480 g) of flour and 1.5 cups (417 g) of salt in a large bowl.** Add both dry ingredients to a large mixing bowl. Then, use a big plastic or wooden spoon to stir the dry ingredients until they are thoroughly mixed.
 - Make sure the flour and salt are **mixed well before you add the water** because it will be harder to redistribute one of the ingredients once the clay starts to form.
 2. **Add 1.5 cups (350 mL) of water gradually as you stir the mixture.** Pour small amounts of water into the bowl at a time, stirring between pours. Blend the mixture as well as you can before you add more water. By the time all of the water is added to the bowl, your clay should be forming a ball.
 - It should get harder to stir each time you add more water.
 3. **Knead the clay until it reaches an even consistency.** Take your clay out of the bowl and place it on a flat surface, like the kitchen counter. Use your hands to push and pull the clay to work it into a nice consistency.
 - You can also pick up your clay and throw it down on the counter to work out any air bubbles that might be present. This will help your clay stay moist longer.
 4. **Sculpt the clay as you desire.** Now that your clay is ready, you can mould it into a figure, create ornaments, or just play around. Use it as you would use a store-bought clay.
 - This kind of clay can make great keepsakes. For example, press your child's foot or hand into the dough until there is an imprint, then let the mould harden to make a gift.

Tip: Use cookie cutters or a glass to cut out shapes, if you like. Start by rolling your clay out flat using a rolling pin. Then, cut your clay into shapes using a cookie cutter or a drinking glass, which can make circles for ornaments. If you wish to hang the shapes as ornaments, poke a hole near the top of the shape using a drinking straw or a toothpick.

5. **Allow the clay to air dry for 2 days to preserve your model.** If you want to create a sculpture or keepsake, you'll need to let your clay dry. This kind of clay dries out quickly, but it's best to leave it untouched for at least 2 days to make sure it's fully dry.

Variation: If you need to speed up the drying process, bake your clay at 100 °C for 3 hours. If it still feels soft after 3 hours, you can put it back in the oven for up to 2 more hours.

- **Store unused clay in an airtight container.** You can preserve your clay for a few weeks by keeping it in an airtight container. Make sure you leave the clay in the container whenever you're not playing with it, as it will dry a little bit whenever it's exposed to the air.
- For instance, you can use a plastic bag with a zipper or a Tupperware container. For extra longevity, place the clay in the refrigerator.

In this section the teacher is expected to guide learners in developing a storyline and characters for a drama performance to be completed in term 4

Warmup and Play

YEAR TWO TERM THREE

Dear Educator

In this term you will be expected to help and assist learners to learn and develop skills on how to develop a storyline and characters in drama which they will in turn be expected to perform in the term to follow.

In this segment the teacher must re-emphasize the importance and value of warming up before a drama, dance or music performance and that this can be targeted at certain body parts or organs, e.g. breathing exercises will help with the development of breath control and thus help in terms of resonance; articulation exercises help in terms of diction or audibility and stretches help in terms of increasing flexibility just to mention a few.

You may use the PowerPoint presentation linked to teach more on the concept of warmups:

https://cdn3.sportngin.com/attachments/document/aab3-1811157/Stretch-Warmup-Agility-Strength__1_.pptx

Stretch-Warmup-Agility-Strength__1_.pptx

Please direct learners to do a spine roll up and down exercise, side bends and floor work as guided in the following linked videos: <https://youtu.be/VpQ9SPwNPvY>

<https://youtu.be/kCda4DM3rQ>

<https://youtu.be/1tvmezJh5uY>

<https://youtu.be/h24yIM9ljbq>

<https://youtu.be/ZGFwcZs73dA>

You do not have to play the whole length of each of these videos above as learners can do so at home. It is therefore advisable that you download the videos and share with learners so they can watch at any convenient time either than at class time.

NB: It is important to emphasize to learners that warmup routine movements may seem boring but, are later the very building blocks of dance sequences when choreography happens.

Improvise and Create

In this segment the teacher must explain to learners the relationship between the mood of the music and movement. Some call this relationship creative movement which is basically communication through movement.

Ask learners to respond to musical and word prompts that describe mood as in the following linked video:

<https://youtu.be/8k32x-aYl4>

Allow learners to be creative in their responses to word and music prompts. It will be a good idea to challenge them to explain, describe their responses and those of others.

The teacher may use the following attached PowerPoint presentation to teach on creative movement:

creative_movement.
ppt

Ask learners to answer the following questions:

What constitutes creative movement?

- It is communication through movement and children move much better than they speak.
- It is movement in which the statement is more important than the technique.
- It is the language of expression using the body.
- It is a form of informal, structured play that is a process, not a product.

What are the benefits of creative movement?

- It simultaneously involves the inner being and the physical body.
- It teaches body awareness, and what their body can do.
- Develops coordination & control of movement.
- It is a discipline for dealing with self-image, self-awareness, and self-control.
- It fosters the expressive capacities and imagination.
- It stimulates creative and critical thinking.

Guidelines for creative movement

The following principles must be followed by the teacher when dealing with creative movement in class:

- Children love the familiar & repetition.

- Don't show them how. It restricts creativity.
- Have lots of room, bare feet.
- Say, "Use your whole self".
- "Move how it sounds or makes you feel".
- "Can you. . . ? Follow me!"
- Encourage each child to do it in a different way.
- Dance is emotion in motion
- It is important to note that emotions are not an add on but a building block of movement in dance

Have learners watch the videos herein linked or any music video and have them write a review of how it fulfils each of the following benefits about creative movement: <https://youtu.be/QtzbfkflDjyM>

<https://youtu.be/FVNMrc5nP3Y>

<https://youtu.be/rPBzPzbuwc4>

- It simultaneously involves the inner being and the physical body.
- It teaches body awareness, and what their body can do.
- Develops coordination & control of movement.
- It is a discipline for dealing with self-image, self-awareness, and self-control.
- It fosters the expressive capacities and imagination.
- It stimulates creative and critical thinking.
- physical fitness - whole body
- mind/body coordination
- social engagement and cooperation
- memory, and whole brain exercise
- accessibility and diversity
- self-expression and artistic/creative outlet

- mental health

Interpret & perform
Improvise and create

Request learners to choose a ceremonial song such as a wedding song known from their culture and rehearse it with dance movements. Learners are to create a drama based on welcoming uMakoti in accordance to their culture. Watch the linked video excerpt from Isikizi and others for ideas and prompts:

https://youtu.be/4i6n8yM_esQ

<https://youtu.be/HVWD4S4jdX0>

<https://youtu.be/46YBrbc3cxQ>

<https://youtu.be/rcT6xeEsmSM>

Please also use the attached PowerPoint presentations to help you teach concepts in drama they will need to write their scripts.

intro drama part 2
ppt.ppt

Elements Of
DramaEDL.ppt

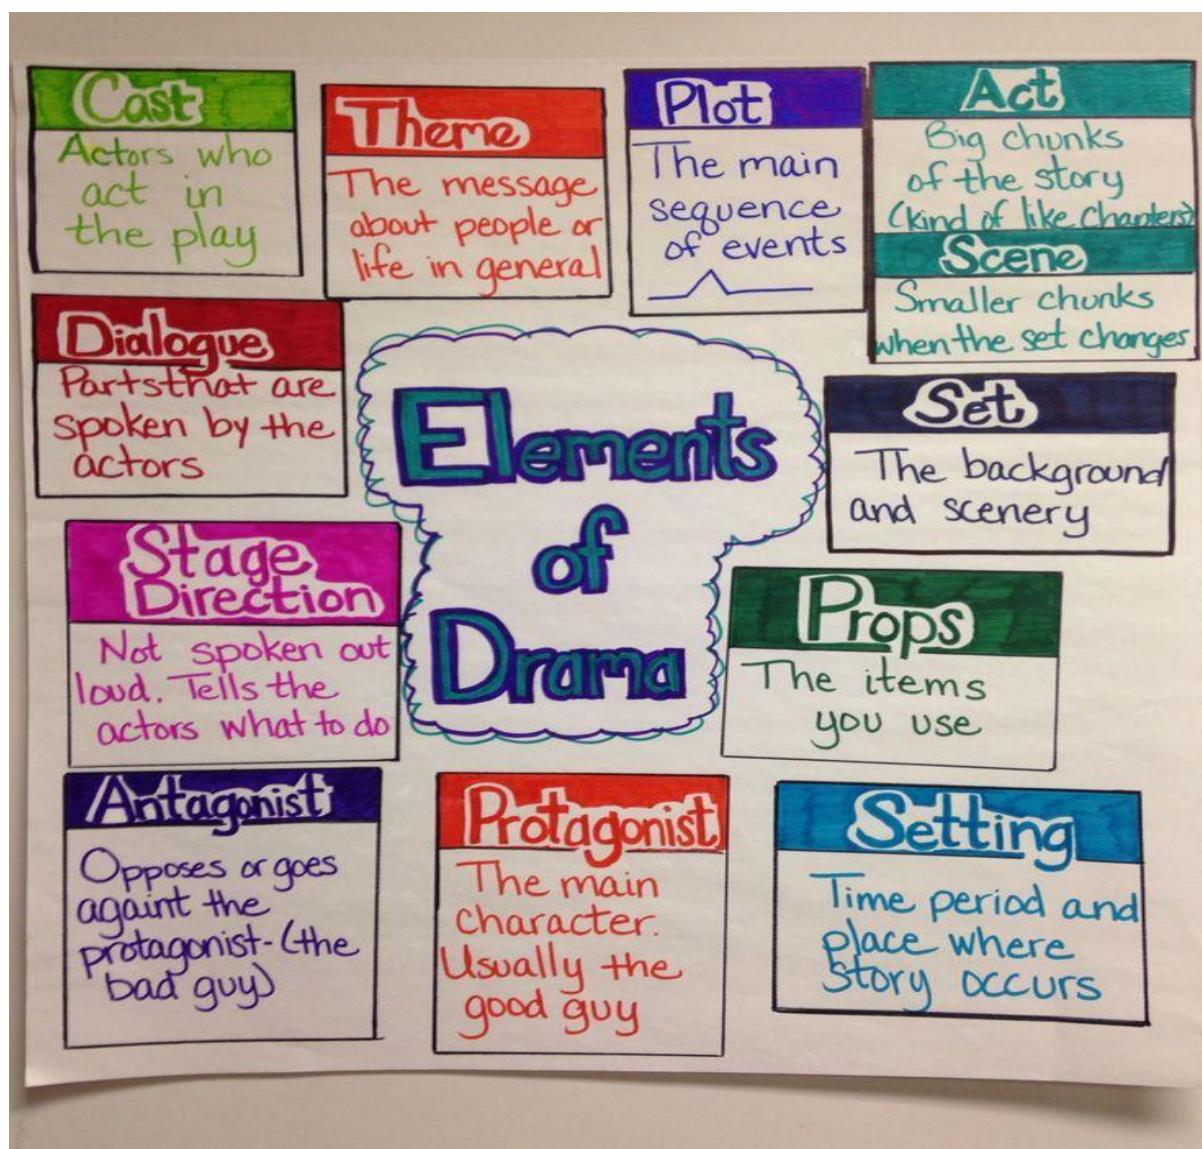

Informal Activity

Go through the following steps guiding learners on how to develop a drama:

1. Start with characters and plot. The best dramas are usually character driven with an interesting plot
2. Introduce conflict. All stories revolve around conflict, and this is especially true in drama.
3. Don't forget about comic relief. Unless you're writing a tragedy, there should be at least some amount of humour in your drama.
4. Generally, a good drama entails the involvement of interesting issues, the use of the right dialogue and monologue, knowledge of the main issues, the use of unique and interesting characters, a clear theme and an understandable yet interesting plot.

Let learners use the chart below as a guide to develop their drama production:

- Remind learners to also prepare for concentration and focus games. Do voice warm-ups e.g. humming, yawning, and sighing before a rehearsal and or performance.
- Here are just a few warmup games that can be used:

2 Truths, 1 Lie

Get to know the group by learning something about them and about how well they can lie!

About Me

Understand more about a group by discovering facts about them.

Catch My Name

Get to know everyone in the group by passing a ball or similar soft object.

Change Places If

Test the listening skills of your group whilst getting to know more about them.

Connect Me

Connect to different words to spark discussions or to delve into characters.

Hi John, You're Jolly

A descriptive name game with a group reaction.

Name Gesture

A common name game to encourage imagination, physical movement and mime when introducing yourself.

Personal Advert

Create a personal advert to highlight the best and worst of you or your characters personality.

Term 4

Term 4 Formal Drama Activity

Marks: 50

Interpret and Perform
Improvise and create

Instructions

In groups of six or more learners create a drama scene based on welcoming uMakoti in accordance to your culture as done in term 3. Watch the linked video excerpt from Isikizi and others for ideas and prompts:

https://youtu.be/4i6n8yM_esQ

<https://youtu.be/HVWD4S4jdX0>

<https://youtu.be/46YBrbc3cxQ>

<https://youtu.be/rcT6xeEsmSM>

The rubric below will be used for assessment and each criterion will carry a total of 5 marks maximum. An extra 5 marks will be given for participation in the final performance which will give a total of 50 Marks for this task.

Name _____	Drama _____			Date _____
ELEMENTS	1	2	3	4
Practise	works with the group only with continued assistance and prompts	works well in the group with frequent assistance	works well in the group, communicates ideas and feelings	works well in the group, communicates ideas and feelings and supports the contributions of others
Loud /clear voice	voice is unclear or nearly inaudible	voice is somewhat clear and mostly audible	voice is clear and audible	voice is clearly audible and plays to the room
Setting	little evidence of manipulation of sound, objects, and space to communicate a mood, feeling, idea, or setting	limited manipulation of sound, objects, and space to communicate a mood, feeling, idea, or setting	manipulates sound, objects, and space to communicate a mood, feeling, idea, or setting	manipulates sound, objects, space and light and uses metaphor to communicate a specific mood, feeling, idea, or setting
Props	uses little or no props or in such a way as to distract from the performance	uses props to convey setting, character, or action somewhat clearly	uses props to convey setting, character, or action clearly	uses props in a highly imaginative and creative way
Action	rarely interprets ideas physically	somewhat interprets ideas physically	interprets ideas physically	clearly and unmistakably interprets ideas physically
Comedy	rarely or inappropriately and injects humour	inappropriately injects humour, or it distracts from purpose of drama	injects humour appropriately	injects humour in creative ways that move forward the drama situation
Role – development	little evidence of role development	develops a role appropriate to the drama with assistance	develops a role appropriate to the drama	develops one or more roles appropriate to the drama
Role – sounds and feeling	rarely or ineffectively uses tone of voice, gesture, facial expression and vocabulary of role	uses tone of voice, gesture, facial expression and vocabulary of role with assistance	adapts tone of voice, gesture, facial expression and vocabulary of role effectively	skillfully and confidently adapts tone of voice, facial expression, gesture, and vocabulary
Performance	rarely sustains engagement in the drama	sustains engagement for a portion of the drama	sustains engagement throughout the drama	sustains engagement throughout the drama and encourages the involvement of others
