

Difference Between AC And DC

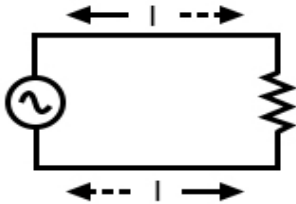

1. Direct Current (DC)

It is the flow electric charge in one direction. It is the steady state of a constant-voltage circuit.

Must well-known application, however, use a time varying voltage source.

The use of Direct Current (DC)

- It is used from charging of batteries to large supplies for electronic systems, motors etc.

2. Alternating Current (AC)

- It is the flow of electric charge that periodically reverses direction.

The use of Alternating Current (AC)

- It is used to transmit information e.g Telephone and Television.

Different Electrical Ordinary Hand And Power Tools

Ordinary Hand Tools

1. Wire Stripper

- It is used to strip insulated wires.

3. Pliers

- It is used to cut, straighten, twist and bend wires.

5. Conduit Bender

- It is used to bend pipes.

2. Fish Tape

- It is used for pulling electrical wires.

4. Insulated Screwdrivers

- It is used to screw and unscrew screws.

6. Utility Knife

- It is used for general manual work purposes.

7. Hacksaw

- It is used for cutting pipes and cables.

9. Cable Cutter

- It is used to cut wires and cables.

11. Diagonal Cutter

- It is used for cramping and wedging cables.

Feedback : Activity

8. Hammer

- It is used for general hammering.

10. Insulate Gloves

- It is used to protect hands from electricity.

12. Tape Measure

- It is used to protect workers from harm.

Question : 1

1. Identify the following Electrical Hand Tools

1. _____

2. _____

3. _____

2. _____

4. _____

6. _____

6. _____

8. _____

9. _____

10. _____

11. _____

12. _____

Power Hand Tools

1. Multimeter

- It is used to measure electrical properties.

3. Tester

- It is used to check the flow of electric current.

5. Flashlight

- It is used as a light source outdoors.

Feedback : Activity

2. Voltage Tester

- It is used for detecting the presence of AC in.

4. Hand Drill

- It is used for drilling holes.

6. Electric Screwdriver

- It is used to screw and unscrew nuts and screws.

Question : 1

1. Identify the following Electrical Hand Tools

1. _____

3. _____

5. _____

2. _____

4. _____

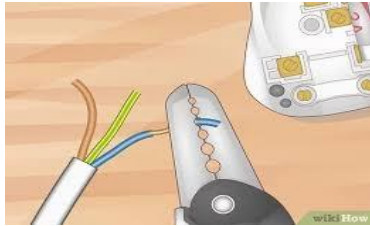

6. _____

Colour Coding Of The Three Core Cord

1. Live Wire : Brown
2. Neutral Wire : Blue
3. Earth Wire : Yellow and Green

Wire A Three Pin Plug

Stage 1 : Strip the wire.

Stage 3 : Loosen the screw-in.

Stage 5 : Tighten the screws.
