

Explain The Need For Building Regulations

Approval is predominately necessary to ensure the Health and Safety of those living in the property as the regulations oversee not just the structural integrity of the building but the matters such as fire safety, energy efficiency and sustainability.

Basic Tools For Paint, Waterproofing And Glazing

1. Paint Brushes

- It is used for painting, cleaning things.

3. Scrapers

- It is used for removal and scraping away materials.

5. Glass Polisher

- It is used to remove any form of scratches.

2. Paint Trays

- It is used for a variety of painting projects.

4. Measuring Tape

- It is used to measure lengths.

6. Glass Cutter

- It is used to make a shallow score in one of the glass.

7. Hot Gun

- It is used for shrinking, soldering, sealing etc.

9. Putty Knife

- It is used to work putty around the edges of glass.

11. Trowels

- It is used to spread materials evenly on the substrate.

Feedback : Activity

8. Blow Torch

- It is used where a diffuse high temperature naked flame is required.

10. Ladder

- It is used as a working platform.

12. Glazing hammer

- It is used for tapping on glass and frames.

Question : 1

1. Identify the following Paint, Waterproofing and Glazing.

1. _____

4. _____

7. _____

10. _____

2. _____

5. _____

8. _____

11. _____

Mark : 12

Duration : 30 mins

3. _____

6. _____

9. _____

12. _____

The Need For Proper Preparation Of Surfaces Before Works Begins

Preparing a surface for construction work or general maintenance is an essential Part of ant successful project. It helps ensure that the surface is suitable for the Materials being laid or re-coated and can help make the project easier to work with.

Consumable Cleaning Materials

1. Paraffin
2. Turpentine
3. Thinners
4. Sandpapers

Waterproofing

Structures Where Waterproofing is essential

- | | |
|----------------------|------------------|
| 1. Foundations | 5.Parapet Walls |
| 2. Concrete Slabs | 6. Balconies |
| 3. Paved areas | 7. Roof Terraces |
| 4. Base an d Cellars | 8. Flashings |

Question : 1

1. Name four consumable cleaning materials.

1. _____

2. _____

3. _____

4. _____

(4)

2. Name six structures where waterproofing is essential.

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

(6)

[10]

Types of Roof and Waterproofing Methods

1. Parapet Roof

- Sealers Method

-

3. End Wall Flashing

- Membrane Method

Causes Of Roof Leaks

1. Concrete Tiles

Feedback : Activity

2. Box Gutters

- Membrane Method

4. Flat Roofs

- Sealers Method

2. Corrugated Sheet-Metal

Question : 1

1. Name four areas on the roof where waterproofing methods are applied.

1.1 _____

1.2 _____

1.3 _____

1.4 _____

2. Name two causes of roof leaks.

2.1 _____

2.2 _____

(4)
