What to do

1. Read “A poem on climate change” out loud. Pay attention to reading skills.

TEXT: POEM

A poem on climate change

1. I don't want my children to see the Earth die,
 2. Without fish swim and without birds fly,
 3. With no air for breathing, no water to drink,
 4. When global conditions will make the land sink.

 5. I don't want emissions to stay in the air,
 6. To fill our lungs and to spread everywhere,
 7. To cause global warming, submerging the land!
 8. To stop all this mess we should lend our hand!

 9. The nature is dying together with us,
 10. We wouldn't exist here but for the green grass ...
 11. We must prevent nature from saying “farewell”-
 12. In case it is dying, we're dying as well!

 13. What could human beings' activities mean-
 14. To make our planet one big rubbish bin?!
 15. No matter that you may be only a teen –
 16. It's never too early or late to be green!

 17. To show our children the beauty of life;
 18. To help polar bears and pandas survive;
 19. To claim to the world that this talk should gain weight
 20. Let's first take part in the global debate!

What to do

1. Read "A poem on climate change".
2. Answer the questions.

Did you know?

Air pollution includes greenhouse gases. One of these is carbon dioxide, a common part of the exhaust from cars and trucks. Greenhouse gases cause global warming by trapping heat from the Sun in the Earth's atmosphere.
