Applying the Correct Finishing Touches after Glazing

Make your glass even smoother by sanding down the edges with 150-grit, 220-grit, 320-grit and finally 400-grit sandpaper. To polish the edges to perfection, use 1000 and 2000 grit sandpaper. After you've finished the sanding, wipe edges of the glass with a clean, damp cloth to remove any left over dust.
