

Know The Uses of Different Welding Tools Equipment

1. Welding Machines

- It is used for joining metals together.

3. Angle Grinder

- It used for cutting and grinding of metals .

5. Welding Table

- It is used to provide the best surface for both welding.

2. Hear Protection

- It is used to prevent noise induced hearing loss.

4. Consumable Electrodes

- It is used in metal inert gas (MIG) welding

6. Sheet Metal Gauge

- It is used to measure metal thickness.

7. Vice Grips

- It is used for clamping materials together .

9. Chipping Hammer

- It is used for light material removal .

11. Steel Wire Brush

- It is used for cleaning rust and removing paint.

8. Welding or Soldering Torch

- It is used for generating flame.

10. Safety Glasses

- It is used for protection against light and flying particles.

12. Filler Metal

- It is used for supply in the joint to be welded or joined.

Know How The Different Methods Work

Arc Welding Method

- It is an electric arc to weld metals together.

M.I.G Welding Method

- It is used to join parts together.

T.I.G Welding Method

- It is used for pipe line and pipe welding

Feedback : 1. Activity

2. Demonstration

Kwa-Thema Skills School

Subject : Maintenance

Grade : Year 3

Date : / /

Marks : 14

Time : 30 mins

Question:1

1. What is Welding ?

1.1 _____

2. Name three common Welding Methods..

2.1 _____

2.2 _____

2.3 _____

Question: 2

1. Name the uses of the following Welding Tools/Equipments.

1.1 _____

1.2 _____

1.3 _____

1.5 _____

1.7 _____ -

1.9 _____

1.4 _____

1.6 _____

1.8 _____

10. _____
