

Common Types Of Bulbs

1. Incandescent Bulb

2. Halogen Bulb (Improved Incandescent Bulb)

3. Standard Fluorescent Bulb

4. CFL (Compact Fluorescent Lamp)

5. LED (Light Emitting Diode)

Feedback : Demonstration

Question : 1

1. Remove and replace light bulb.

1. _____

3. _____

5. _____

Marks : 10

Time : 10 mins

2. _____

4. _____

Replace the Different Types of Bulbs

Stage 1: Turn off power to the light.

Stage 3: Use proper equipment to reach to the light you want to change.

Stage 5: Replace the new bulb and turn on the power.

Feedback: Activity and Demonstration

Stage 2: Give the light time to cool.

Stage 4: Use caution when removing the old bulb.

Question : 1

1. Remove and replace light bulb.

Stage 1 : _____

Stage 3 : _____

Stage 5 : _____

2. Name five types of Bulbs

2.1 _____

2.4 _____

2.2 _____

2.5 _____

Stage 2 : _____

Stage 4 : _____

2.3 _____

Identify Basic Parts Components of an Engine.

Common Components of the Distribution Board (DB)

1. Main switch

- It allows us to turn off and on the electricity to our home.

3. Surge Protector

- It used to protect electronic equipment from unwanted power surges.

2. DIN Rail

- It is designed for securely attaching electrical products.

4. Earth (Ground) Busbar

- It provides a measure of safety against electrical shock.

5. Bus Bars

- Its function is to transport and distribute electricity.

7. Residual Circuit Breakers (RCCB)

- Its function is to cut-off electricity supply immediately upon detecting leakages.

9. Wires

- It used for establishing electrical conductivity between two devices.

Feedback : Activity

6. Isolators

- It is used to disconnect the faulty part of electrical system so that it will be safe to repair.

8. Circuit Breaker

- Its function is to interrupt current flow after protective relays detect a fault.

10. Fuse Boxes

- It serves as the central switchboard to the electrical system in the entire house.

Kwa Thema Skills School

Subject : Maintenance

Grade : Year 3

Date : / /

Marks : 6

Time : 30 mins

Question:1

1. Identify The Following Components Of The Distribution Box (DB).

1.1 _____

1.2 _____

1.3 _____

1.4 _____

1.5 _____

1.6 _____
