

KWA THEMA SKILLS

Week 1-2

Office Practice

STORAGE AREA

Demonstrate basic knowledge of storage area and stocktaking.

In an organisation, all functions and tasks need to be controlled to ensure that the activities differ from what was planned or anticipated.

The purpose of equipment consumable control

To operate office equipment effectively, it is important that there should always be sufficient of the consumables to keep the equipment operating continuously.

The purpose of office equipment consumable stock control is to ensure that there is the right quantity stock of the right type of consumable items that are needed to perform normal operations.

The right type means the specific consumable item by brand name (where applicable), description and reference number.

To ensure that you will always have sufficient stock of a consumable item, you have to know the average daily, weekly or monthly consumption.

Monitoring equipment consumable stock

The monitoring of office equipment consumable stock refers to the task of watching over the available stock to ensure that there will be sufficient items available for the daily or weekly needs to operate a specific office equipment. This may be the task of the receptionist.

In this case she or he will be responsible to keep the stock in a safe place. The monitoring of the stock of office equipment consumables will involve knowing at all times how many items are available in the storeroom or cabinet and how many are used on a daily or weekly basis.

When the stock of a particular equipment consumable item starts to run low, the receptionist has to report the low level of that stock using the familiar procedure. This report will set the process in motion to buy the required stock.

Activity

Discussion activity – The need for stock control of equipment consumables

This is a group and class discussion topic. In your groups, you have to discuss the following:

- a) What do you understand by the monitoring the stock of office equipment consumables?
- b) What benefits can be forthcoming from monitoring the stock of office equipment consumables?
- c) What is the worst thing that can happen to the activities in a department if the stock of office equipment consumables is not monitored?
- d) Make suggestions of how you think the stock of office equipment consumables can best be controlled and monitored.

If required, take down notes on your group discussion.

RUBRIC

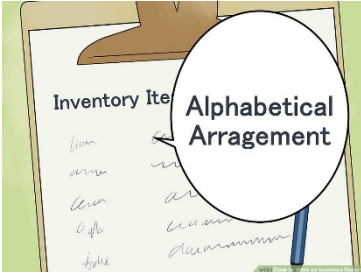

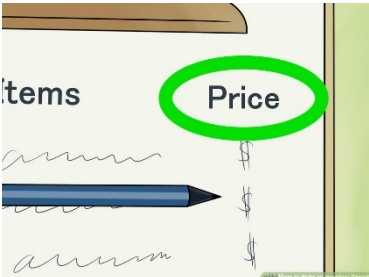

Criteria: The student is able to:	1	2	3	4
1. Explain what they understand by monitoring the stock of office equipment consumables.				
2. Identify the benefits of monitoring the stock of office equipment consumables.				
3. Explain a major disadvantage when office equipment runs out of consumable stock.				
4. Suggest a relevant and logical stock control system for the consumables of office equipment.				
5. Participate meaningfully in a class discussion on the topic of the monitoring of office equipment consumables.

HOW TO WRITE AN INVENTORY REPORT

An inventory report is a summary of items belonging to a business, industry, organization, or home. It provides a comprehensive account of the stock or supply of various items. They can be written in various forms and lengths. A good inventory report should always be clear, simple, and exhaustive.

Inventory Report Template

Creating the Report	
	List your inventory items. List every item that you have in stock. This will be the list that help you stay organized with your inventory in the future. Keep in mind that you may have multiple locations. If you have more than one stock room, make sure to list which stock room you're taking inventory for. List items that are no longer available. Even if you have run out of a certain item, keep it on the report and you'll list it as "0" stock
	List them in an organized fashion When listing your items, think of a good way that will help you search for items on your inventory report. Try listing them alphabetically or by serial number.
	Keep a space for description Under your inventory items, leave a space for description. This will help you keep track of differences in items. For example, you can list separate colours or sizes in this space but have a total inventory count next to the original item. Also, you can mark down if an item is damaged or missing in your description.
	Assign a price to each item Depending on the kind of inventory you have, list prices. The price may be what you paid for the item, what price you sell the item at, your bottom expenses, or your bottom earnings from the item.
	Make a column to list stock remains Next to the list of your items, make a column where you can list the amount of stock you have per item. If necessary, leave room for labels—boxes, dozen, pairs, etc.

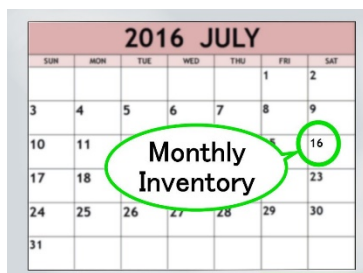

Filling in the Report

Fill out descriptions

Go through your list of items and begin filling in descriptions. This will help you get organized before taking your inventory counts. When looking over your items and filling in your descriptions, start organizing your items into groups to make counting stock faster. There are multiple ways you can do this.

- Organize your stock room by item alphabetically.
- Pull the items you have an excess of into the front.
- Order them by serial number.

1. Select a time frame

Inventory reports should be filled out on a consistent basis: weekly, monthly, or annually. Be sure to label the time frame that you're using before taking count of your items.

List inventory

Go through your inventory and list the amount of stock you have for each item. Be sure to label your stock review with a unit of measurement if needed. Also, list "0" for any items that you've run out of. Don't leave the space empty.

Sign and date

Once you've filled out your inventory report, double check your stock review. A proper review will give an accurate account of expenses, stock items, and damaged items. If everything is accounted for and labelled properly, sign and date the report.

How can storage rooms be managed more effectively?

As a manager there is one responsibility that should never get overlooked — it is the storage room. All facilities need one or more storage rooms to safely house supplies, equipment and related parts, among other things, to keep a modern facility operating smoothly.

Effectively managing storage rooms means making sure those office equipment and consumables are kept safe, secure, and available to staff and occupants as needed. Here's how:

Allocate enough space

Look for more space than is needed when moving in, because storage space requirements tend to grow over time. If a facility is short on space, see if it can be enlarged; create new storage areas from unused areas; or discard any items that are no longer needed.

Assign management responsibility

Storage rooms need to be managed. If not, they can become overcrowded, making it harder to find things when needed. The job of a storage room manager is to ensure storage areas are kept neat, clean, and orderly; properly shelved; and that items are kept safe with the help of a storage room checkout system, noting when items were removed from the storage room and by whom.

Keep clean, organized

Paint storage rooms white, install proper lighting and keep them clean and orderly. The storage room manager should create a plan for where to store various products. A messy, poorly kept storage room will likely become more disorganized and unkempt over time.

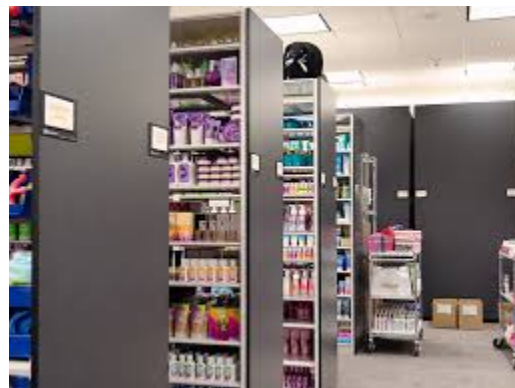

Protect against theft

Security is important in storage rooms, as they are prone to theft.

Set re-stocking triggers

Have minimum and maximum triggers for replenishing inventory in the storage room. Know what capacity the room has for a particular item and leave enough time to order and receive supplies before the facility runs short. Keeping tabs on the flow of supplies will also help to identify changes in usage.

Storage room management is an ongoing process, so it's important to regularly review a facility's plan.

Create a similar inventory list for your classroom. Your teacher will guide you in choosing specific equipment to add to your list. Count the items that you've listed, check if co-ordinate with the inventory list of the classroom.

Discuss:

1. Why do items get written off?
2. What happen to these items?
3. What is the purpose of having an inventory list for your classroom?
4. What roll does the auditors play in checking your list?

Invul van die Verslag

Vul beskrywings in

Gaan deur jou lys van items en begin beskrywings invul. Dit sal jou help om georganiseer te word voordat jy jou voorraad tellings neem. As jy oor jou items kyk en jou beskrywings invul, begin jy om jou items in groepe te organiseer om vinniger voorraad te maak. Daar is verskeie maniere waarop jy dit kan doen.

- Organiseer jou voorraadkamer volgens item alfabeties
- Trek die voorwerpe wat jy oorskry, in die voorkant.
- Bestel hulle volgens die serienommer.

Kies 'n tydraamwerk

Voorraadverslae moet op 'n konsekwente basis ingevul word: weekliks, maandeliks of jaarliks. Maak seker dat jy die tydraamwerk wat jy gebruik, benoem voordat jy jou items tel.

Lys inventaris

Gaan deur jou voorraad en lys die hoeveelheid voorraad wat jy vir elke item het. Maak seker dat jy jou voorraadresensie met 'n meeteenheid benoem, indien nodig. Lys ook "0" vir enige items wat jy uitgeloopt het. Moenie die spasie leeg laat nie.

Over the past few years there have been many reports in the

press about illegal moneymaking schemes. Many investors	119
have lost millions of rand and it is clear that there is no	179
reliable recipe for instant returns.	216
Pyramid schemes can flourish for a short time. However, it	279
remains illegal and agents for these schemes are	328
conscienceless swindlers. Agents often come to visit the	387
prospective investor at his home. They promise returns that	449
can be obtained nowhere else. They are usually in ^(10 wpm) a	503
hurry and try to force the investor to make a decision	558
immediately. As soon as the prospective investor starts to	619
question the risks, they become uncomfortable. An investor	680
should immediately become suspicious if an agent requests	738
him to provide ^(15 wpm) his credit card number.	777
There are also agents who propose immediate cash deposits.	839
They will even come and fetch the money from your home.	897
This is obviously suspicious and even uninformed people	954
should suspect that there is a snake in the grass ^(20 wpm)	1004
somewhere.	1015

Water has no detrimental effect on wool. Should your

at room temperature. Brush them as soon as they are	166
dry and hang them on a hanger. Fabrics with a pile	219

Do not store wool clothes unless they are spotlessly	326
clean. It is a known fact that moths always attack the	383

offering special moth-proofing services, but should such	497

useful.	561
After cleaning, fold the clothes and place them in sealed	620

Dear Trenz:
Salutation

Body → Thank you for taking the time to sit down and speak with me about a potential strategic alliance. Circle Corp and Square Corp have been bitter rivals over the years. However, as you agreed during our meeting, there are many opportunities for our two firms to work together. I strongly believe my firm can help Square Corp grow by leaps and bounds.

As promised, I have attached a business plan that outlines how our strategic alliance would work. Please look over the details and give me a call at (555) 123-4567. I look forward to hearing from you.

Sincerely yours,

Dear Sir/Madam

MOTIVATIONAL TRAINING

They are written by experts and compiled to inform and to motivate.

The step-by-step training papers, e.g. action plans, checklists, etc., you your team will learn:

We recommend the following training course which will motivate your staff.

It is a practical **motivation training course** which works as an ongoing motivation and training programme. It is a course so inexpensive- and so effective – you will want to put it into action as soon as possible, before your competition.

It is used by South Africa's leading companies and consultancies.

The topics are varied, according to your needs, yet they all have the following in common.

- ! how to identify key ideas and how to implement them;
- ! how to run a productive meeting;
- ! how to manage time;
- ! how to motivate yourself;
- ! how to overcome objections; and much, much more.

Do you want to attend a course? Simply write to:

Dear Mrs Jobse

LOOK-LISTEN-AND-LEARN PUZZLE

Thank you for your interest and enquiry in our excellent educational products.

The Look-listen-and-learn-puzzle will help your child to recognise and name common objects in the home.

The Look-listen-and-learn-puzzles will teach the child to sort by colour, shape, position and direction.

Once your child is familiar with the puzzle pieces he will be ready to look and listen to the video cassette.

USING THE VIDEO CASSETTE

The objects on the video cassette are arranged reading and showing from left to right and from top to bottom as in all reading activities.

By looking at each object, hearing the name of the object at the same time, and then completing the puzzle, will help your child to:

- recognise common objects in the house
- develop listening and concentration skills
- tell the difference between various objects

Place them in set pieces from the puzzle face up on the table in random order.

Play the video while the child looks and listens to it. He should hold up the relevant puzzle piece as he hears the name of the object.

Have a wonderful time with your child!

Dear Cardholder

CREDIT CARDS

1. However the increased cost of money and the high administration cost have forced the issuers of credit cards to levy a nominal fee on all accounts. This will enable us to continuously expand and modernise our present service.
2. To date we have succeeded in providing you with the convenience of a Buy-Now Credit Card at no charge whatsoever.

In turn we assure you if

- ☐ Cash withdrawals, and payment facilities at all automated tellers in the near future;
- ☐ A credit limit adjustment during December 20XX if your account was opened before 1 November 20XX and your present limit is less than R50 000;
- ☐ The maintenance of the present high standard of service provided; and
- ☐ The expansion and modernisation of your credit card facility ensuring that you keep pace with the best the market has to offer.

Your Buy-Now CreditCard will now cost you R50,00 per month as from December 20XX. Your account will be debited with the full fee during the month in which your

FORMAL ASSESSMENT

**ACTIVITY 2
INSTRUCTIONS****POWERPOINT****YEAR 3**

Create a PowerPoint Presentation about YOURSELF. Each slide must contain information on a different aspect of yourself. Include at least the following.

- Study the 2 examples: JJ and Bongiwe
- Insert 6 – 8 slides
- Choose the colour scheme you will be using throughout your presentation.
- Use *Transition* between each slide.
- Insert pictures you have downloaded to your slide.
- Slide 1: A title slide / Introduction
- Slide 2: Content slide
- Slide 3: Picture of yourself / family
- Slide 4: My subjects – The subjects you are doing this year Click on the *Insert a SmartArt Graphic* as a media option and use the *Basic Block List* to list your subjects.
- Slide 5: My plans for after school
- Slide 6: My hobbies / likes / dislikes

Use pictures and Shapes to illustrate these. Use the Format tab to change the appearance of each object to suit your message. Add tasteful animation effects to the objects, remembering not to 'go overboard'.

- You may extend your presentation by adding any of the following:
 - * Your favourite things
 - * Places you have visited
 - * Places you still want to visit
 - * Things you still want to do

TOTAL 25

Remember! Normal View shows one slide at a time, at maximum view, and is good for

POWERPOINT****YEAR 3****ACTIVITY 4
INSTRUCTIONS**

Open the Funwalk presentation:

1. The presentation has been set up for a wide screen. Use *Slide Size* to change it to *Standard* (4:3).
2. Change individual slides as follows:
 - Slide 1: Change the colour of the title to blue.
Change the subtitle to italics and fill its text box with light blue.
Align the subtitle vertically in the middle of the text box.
 - Slide 2: Add the photo *Class1*.
Use the Washout effect on the photo and place it behind the text.
 - Slide 3: Change the layout to *Title and Content*.
Add the SmartArt, Vertical Box List and use it for the three categories. Obtain the information from the supplied *Word* document *FunWalkProposal*.
 - Slide 4: Move the slide so that it appears directly after slide 2.
Change the line spacing of the information to 1.5.
 - Slide 5: Add a 2 x 3 table to the slide.
Copy the information about the distances from the FunWalkProposal document to the two columns of the table.
Make the first column smaller and adjust the table and text size as you prefer.
 - Slide 6: Animate the logo so that it flies in from the left.
 - Delete Slide 7 (Rules and Regulations).

Also do the following:

- * Add the word 'Proposal' to the middle of the slide footer so that it will appear on all slides.
- * Also add the word 'Proposal' to the header of the handouts.
- * Set the print options so that the slides will print two per page for handouts (you do not need to print anything).
- * Ensure that the orientation for handouts is portrait.
