Visual Arts

Visual Literacy

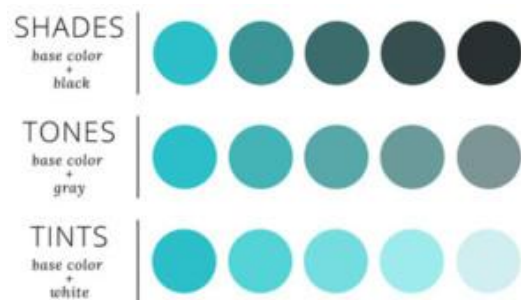

By the end of this activity the learner will be able to:

- Identify art elements and design principles in architectural structures.
- Identify monochrome colours in images and photographs.

Architectural Structures

Monochrome means one colour. Typically, one colour is presented in different values and intensities, or different shades of one colour.

Teachers Notes:

Lead the class discussion.

Explain monochrome to your students.

Allow them to identify other monochrome images / colours around them.

Ensure that they know monochrome is not grayscale.

Then have a look at the images of architecture in monochrome.

Identify balance in these structures.

Allow them to identify art elements line, colour, tone, shape and texture.

Teachers are encouraged to prepare material at home e.g. posters or even a small structure.

Do research on these buildings, why they look the way they do what was the architect/ designers inspiration.

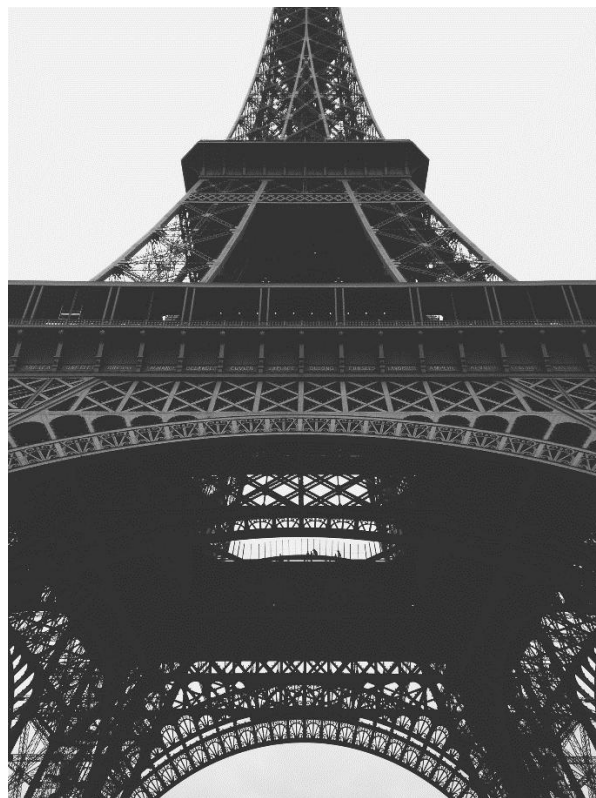

Activity 1

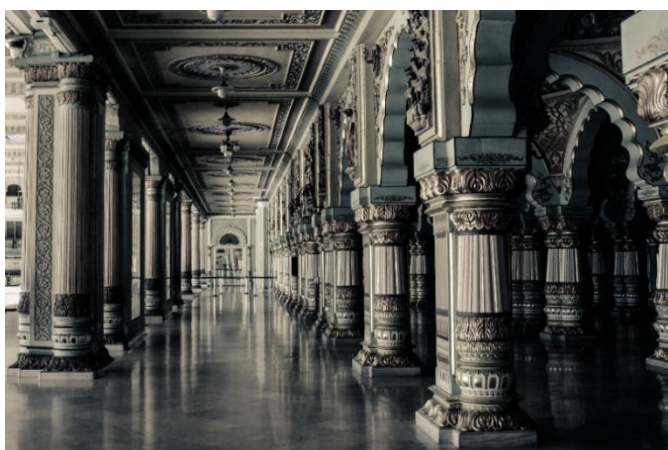

- Have a look at the following 9 monochrome images of architectural structures.
- Monochrome - a photograph or picture developed or executed in black and white or in varying tones of only one colour.
- Look at the design elements, shapes and structures that make these buildings unique.

Create in 2D

Architectural Structures

Assessment 1 Formal activity

Start Date: _____

End date: _____

By the end of this activity the learner will be able to:

- Explore a variety of media and techniques.
- Use art elements: Monochrome colours.
- Design principles: Balance.

Teachers Notes:

The images in used for the steps below are purely examples.

Students are required to make a drawing of an architectural building, structure, object.

Possible solution may be to take your class outside and have them draw a building in the school.

Teachers may also bring a model building form home for students to draw.

They may also bring their own. (Must be 3D and able to view from multiple angles)

Students need to do their drawing in monochrome, this includes colour, not just black and white.

Stress the importance of finding balance in their drawing.

Refer to principles of design.

Students may use their visual diaries as reference or for dry runs.

Recourses

A3 white paper

Any drawing material learner is comfortable

3D models as reference if possible

Instructions

Using a model if possible, draw a building, seeing it from different angles and views.

Step 1

- Choose the subject/ object you want to draw.

Step 2

- If you are drawing a 3D model or something smaller, place it on a counter, table, floor etc.
- If you are drawing a stationary /large building, find a desirable angle /composition to draw.

Step 3

- Try to have one source of light. (a lamp is recommended)
- You may also decide to use the window light, that falls onto your object from one side, this will allow for more defined shadows.

Step 4

- After choosing the location and determining the light source, look at your object for 2-7min.
- Try to determine the position/ shading/ texture/ pattern and other things that may help.

Step 5

- When you have viewed/ determined every single part of the object, start drawing any place/ part that makes you feel comfortable.
- Try using the pencil softly so that when you mess up its easier to erase.

Step 6

- When starting, try using shapes that you see in the object, such as circles or rectangles, or draw light lines that divide the object equally.

Step 7

- Once you have the entire object drawn lightly, start darkening the outline, but not too dark.

Step 8

- After that, start adding detail.
- Shading is very important, and it must be done properly.
- Use your pencil lightly when shading and continue overlapping that one part.
- Don't get impatient and start pressing harder, because a dent will appear in the paper and that will be harder to erase.

Step 9

- The process of shading may take a long time, depending on the object, so take a few breaks when you feel it's necessary.

Step 10

- When you have finished the shading take a step back and look at your work. You may notice some differences that you can go back and fix.

Step 11

- Keep practicing and you will become a better artist!

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Used monochrome in your drawing, used it effectively.	3	
2. Able to record position, shading, texture and pattern correctly.	4	
Design Principle:		
1. Image and composition are balanced.	3	
Subject choice: Architectural subject that fits with the brief.	3	
The drawing medium is used effectively and fits with the style of the image.	3	
Light source/ direction is easily identified and viable in the image.	3	
Orientation of paper and placement fits the subject/ object.	3	
Attitude: Lesson was completed in a timely manner and time was used effectively.	3	
TOTAL	25	

 Reflection (Use visual diary for reflection)

1. Did you learn something from this lesson that will make future drawings easier or better?
2. Motivate your answer.
3. Do you feel this activity was appropriate for multiple skill levels in drawing?
4. Motivate your answer.

Create in 3D

Architectural Structures

Assessment 2 Formal activity

Start Date: _____

End date: _____

By the end of this activity the learner will be able to:

- Utilise skills and techniques: Recyclable materials.
- Use art elements: Reinforce texture, shape, form.
- Design principles: Balance and emphasis.
- Spatial awareness: Reinforce conscious awareness of working in space e.g. model viewable from front, back and sides. Parts of the model can extend into space.

Recourses

Recyclable material, cardboard

Glue

Cutting knives

Instructions

Build a flat surface, 3D sculpture using different layers. Refer to Year 3, Term 1, 3D layered paper faces.

Teachers Notes:

The below example is only that. Students are allowed creative freedom to reach the brief however they see fit.

They need to make a 3D sculpture of a building.

Should you decide to use this activity for all students, they need to supply recycled cereal box, milk box, cardboard etc.

Teachers need to copy and provide the templates.

There are 2 options depending on the skill level of your students.

Step 1

- Your teacher will provide you with a template.
- Copy this template onto cardboard e.g. an old cereal box, empty shoe box etc.

Step 2

- Cut out the template onto the cardboard.
- Take care when using cutting knives.
- Score all the edges for easy folding later.

Step 3

- Fold along all the scored edges (lines of the building)

Step 4

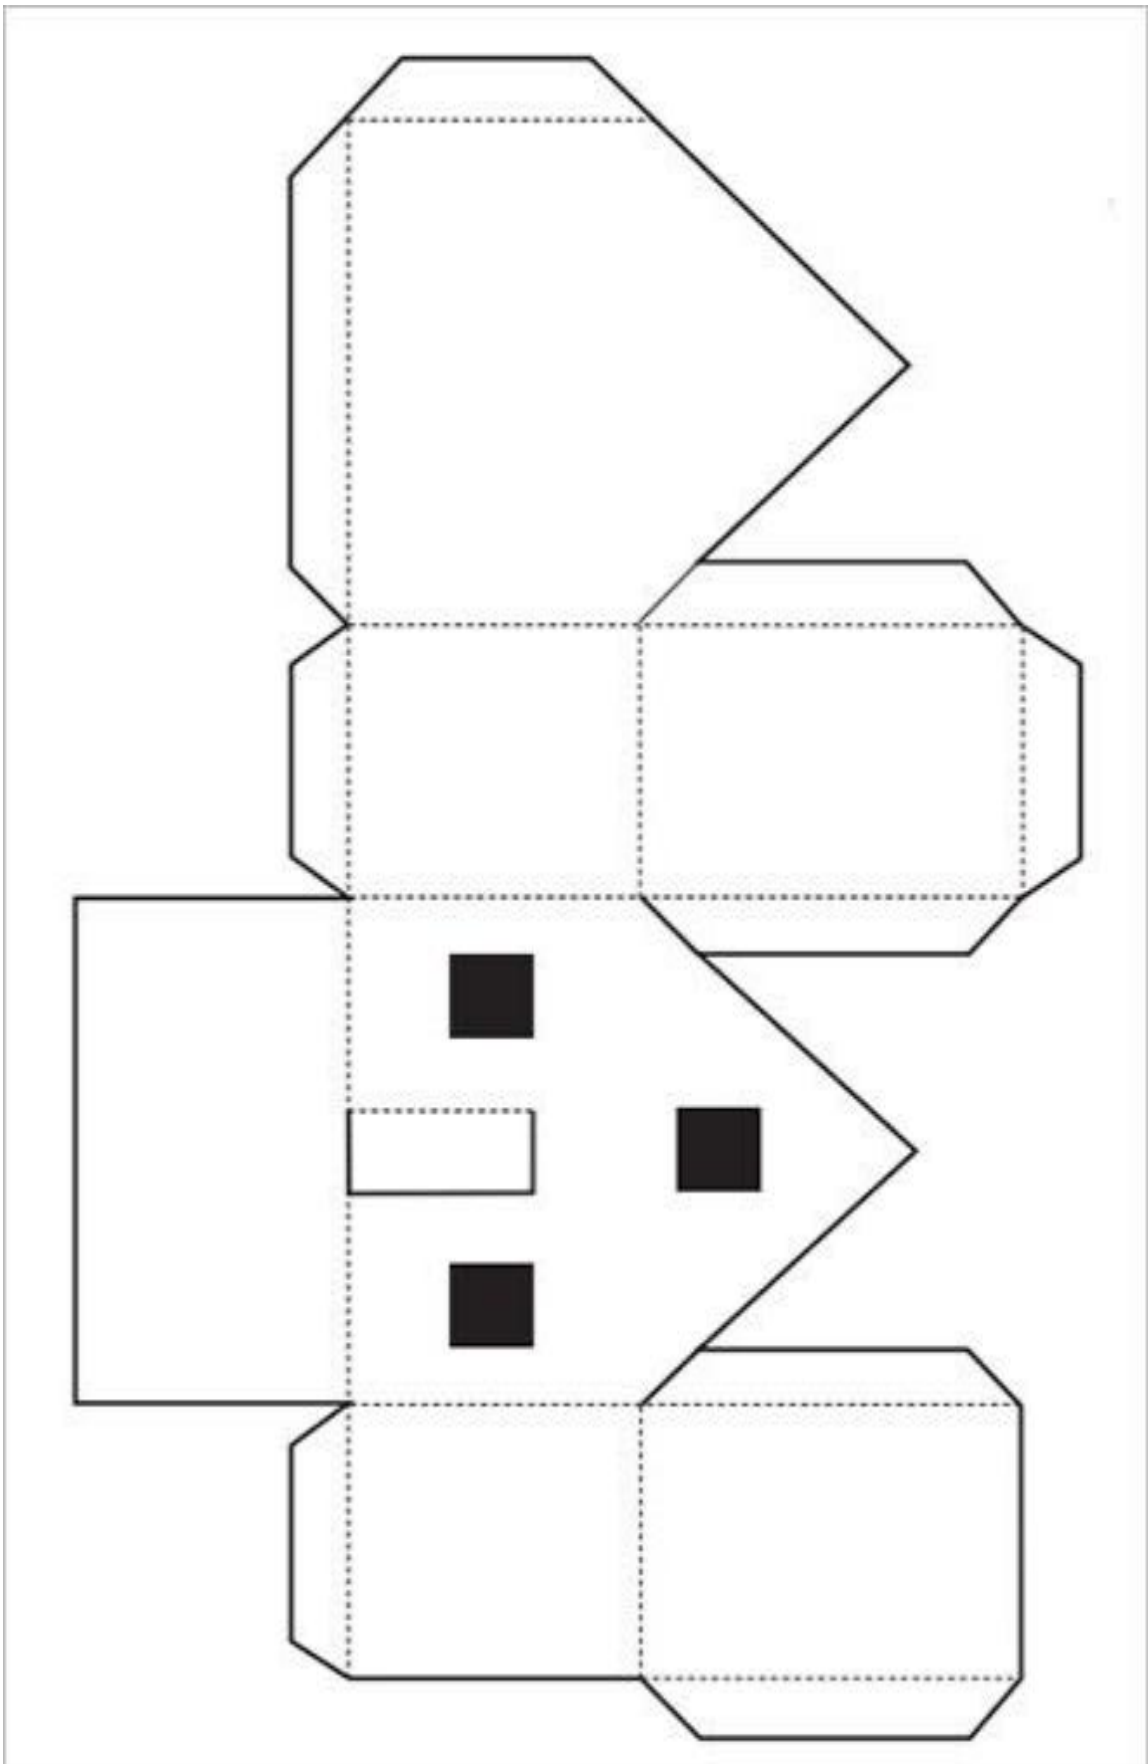

- Apply glue along all the folding tabs and stick them to the corresponding sides.

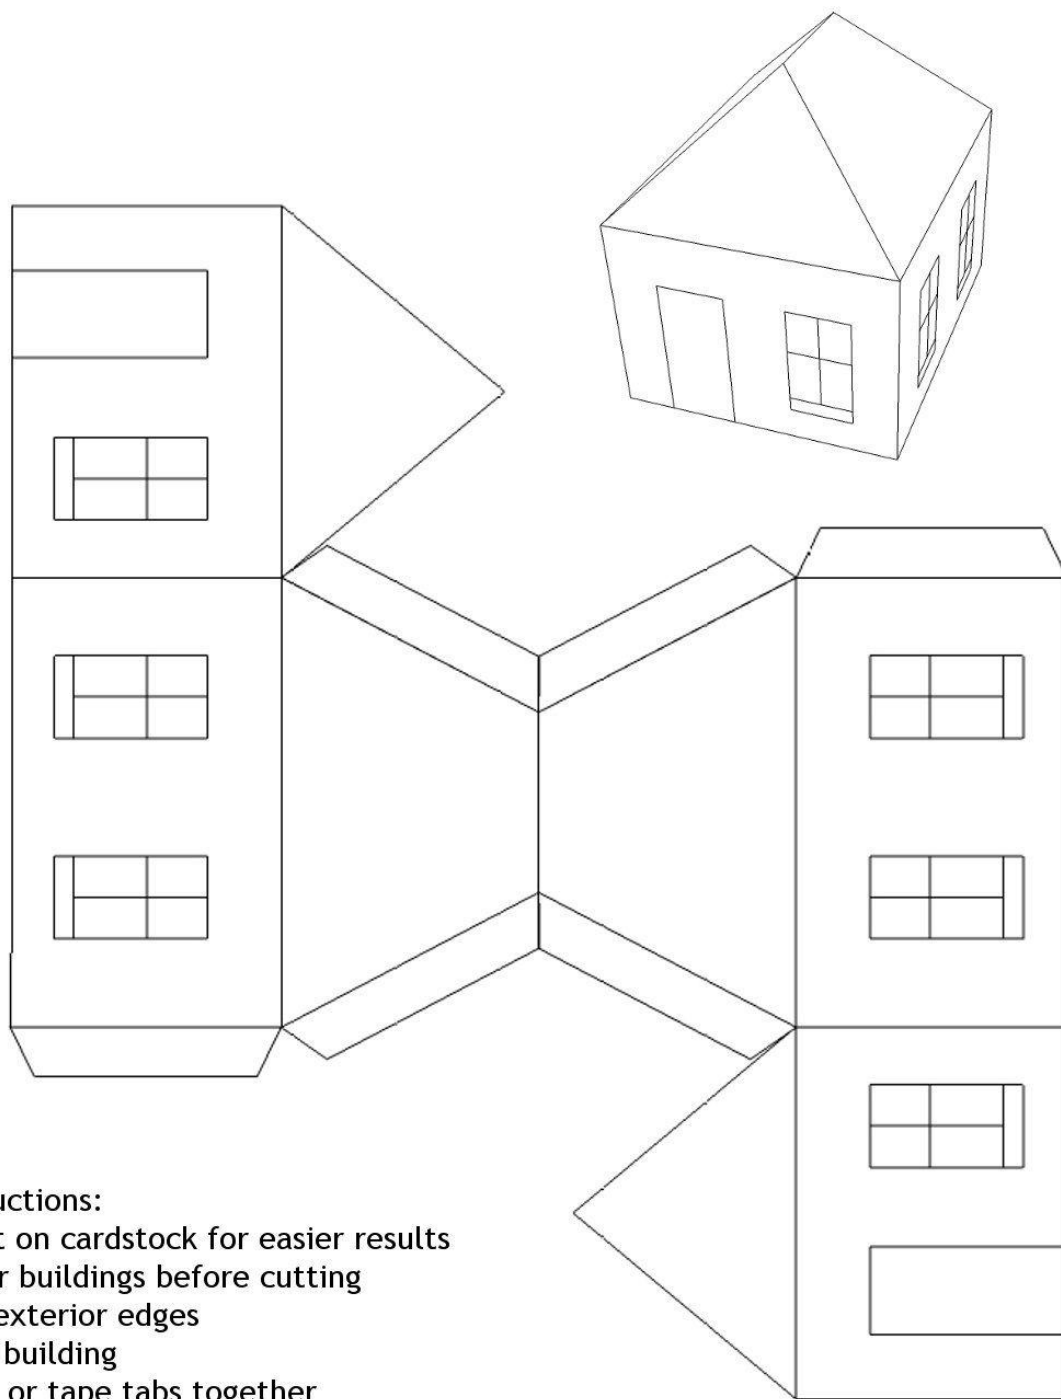

Step 5

- You should now have a 3D building.
- Decorate it however you want to.

Alternatives

1. Use all white paper to make your building, cut out windows and doors, then when the building is assembled place a small light on the inside.
2. Instead of using cardboard and a cut out template, take empty milk boxes, tea boxes etc. and make your building. Cut out windows and doors and decorate with paint.
3. After you built your house, place it onto a fat piece of cardboard and build the surrounding garden.

Instructions:

- print on cardstock for easier results
 - color buildings before cutting
 - cut exterior edges
 - fold building
 - glue or tape tabs together
 - take a picture & tag us
- happybungalow (facebook + instagram)
ahappybungalow (twitter)

PERFORMING ARTS

Year 4 Term 4

TOPIC: WARM UP & PLAY

Dear Teacher

By the end of this section, learners should have a good handle and understanding of the concepts of both physical and vocal warmups, cool downs and body percussion. They should be able to both perform and analyse African folktales and be able to prepare and present a short drama based on a folktale

The purpose of the following activities is to help learners warm up the body to specifically develop coordination and control in the use of the spine and the various body parts with emphasis on joints such as knees and ankles.

Activity 1

Instruct learners to do the following: Brisk walking, Jumping jacks or small jumps in place, Light jogging, marching, prancing, skipping (around the room or in place), Lunges across the floor or a large Charleston step, Push Ups, Walking Knee to Chest. This dynamic stretch is a great way to slowly get your body moving while stretching main muscle groups, Partner Calf Stretch, Partner, Quad Stretch, Forward Bend.

Examples of stretches:

SPINAL FLEXIBILITY & STRETCHING EXERCISES

Helps to build strong muscles to support your neck and back. STRETCHING EXERCISES increase flexibility and movement of the joints of the body and spine. Do exercises 5 to 10 times, 3 times a week, and don't do any that cause pain.

LYING

Bend knees, lie on back, take a deep breath, place your hands on your thighs and relax.

Tighten your abdomen and buttocks. Press your lower back onto the floor. ACTION - Stretches and strengthens stomach and back muscles.

Turn both knees to one side while rotating your head to the opposite side. ACTION - stretches lower back, mid back, muscles, and joints.

Pull both knees to your chest. ACTION - stretches lower back, buttocks and abdominal muscles.

Slowly raise hips upward. Keep a straight line from the knees to the shoulders. Do not arch your back. ACTION - stretches buttocks and stretches upper leg muscles.

Cross your arms, tuck your chin in, tighten abdomen, and curl halfway up. Use hands behind head for support only. (Do not pull). ACTION - strengthens abdominal muscles.

LYING

Lie on your back with one leg bent and the foot flat on the floor. Extend the opposite leg straight out. Relax and allow your back to feel the floor.

With knee bent, pull it to your chest, keeping the opposite leg straight, press your knee and lower back to the floor. ACTION - buttocks muscles, back muscles and stretches hip.

Press your lower back against the floor, raise the straight leg until it is level with the bent knee. ACTION - strengthens and stretches quadriceps muscles, hamstring muscles and stretches hip joints.

PRONE

Lie on your stomach, raise one leg off the floor, while keeping the knee straight. ACTION - strengthens lower back, abdominal and leg muscles, stretches hamstrings and quadriceps.

Keep your neck in a normal position, push yourself up on your forearms. Keep hips and abdomen against floor. ACTION - strengthens posterior back muscles, attains normal low back curve.

HANDS & KNEES

While on your hands and knees, keep your knees directly under your hips, your hands under your shoulders, keep abdominal muscles firm, keep your neck relaxed and in its normal position, that is, with your ears in line with your shoulders.

Drop your head down and press your back upwards by tightening your abdominal and buttocks muscles. ACTION - to strengthen abdominal and buttocks muscles and to stretch your lower and mid back.

Relax your stomach and buttocks muscles and allow your back to sag. Do not sit back on your hips. ACTION - to stretch back and abdominal muscles and help maintain lower back curve.

Stretch one arm straight out in front of you while maintaining your back and head position while keeping support arm straight. ACTION - strengthens and stretches your shoulder, upper back muscles and joints.

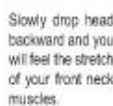

Extend your straight leg behind you while holding it parallel to the floor. Maintain your normal back and neck position. ACTION - strengthens buttocks, abdomen and leg muscles.

NECK FLEX

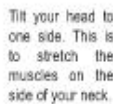

Drop head forward, slowly. You will feel the stretch of your neck muscles.

Slowly drop head backward and you will feel the stretch of your front neck muscles.

Slowly turn your head from side to side. Feel the stretch of the muscles on the side of your neck. Do not strain.

Tilt your head to one side. This is to stretch the muscles on the side of your neck.

NECK STRENGTH

Press forehead to palm. Resist forward motion.

Clasp hands behind head, press your head back, resist motion.

Turn head to one side, resist side motion with your hand.

Tilt head to other side, resist motion with hand.

F0016

Play the linked videos for learners so they understand physical warm ups

<https://youtu.be/KJaWIBg15n0>

<https://youtu.be/ifzRKFXaaB8?t=45>

20 minutes

Request learners to do a variety of sounds as contained in the list in activity 2 below

20 minutes

Activity 2

i

Possible Body Percussion Sounds – varying the volume Clapping Hands – loudly Clapping hands – quietly Tapping palm with two fingers Clapping cupped hands Clapping flat hands Rubbing hands together cupped Rubbing arms or legs Rubbing backs of hands together Slapping knees Clicking fingers Tapping finger nails Tapping finger tips together Tapping knuckles Tapping backs of hands together Flicking fingers in the air Flicking on the other palm Rubbing backs of hands Stroking arm or legs Popping air filled cheeks gently Popping inside of cheek Tapping feet Stamping feet Tapping toes on floor Clicking heels On table or floor Tapping fingertips on table or floor Tapping fingernails on table or floor Tapping knuckles on table or floor Tapping whole fingers on table or floor Tapping whole hands on table or floor Rubbing fingers on table or floor Rubbing hands on table or floor Slapping fingers on table or floor Slapping hands on table or floor Banging fists on table or floor Knocking knees together

TOPIC: IMPROVISE AND CREATE

Challenge learners to compose their own Body Percussion Rhythms using the template below. Increase the number of blocks for more elaborate compositions. Learners can perform their compositions in groups in both unison and canon singing a variety of traditional songs known to them. They must also practice and perform the rest of the exercises given below using varying speeds and add lyrics on top of the rhythmic patterns exploring music elements such as dynamics, tempo and pitch.

30 minutes

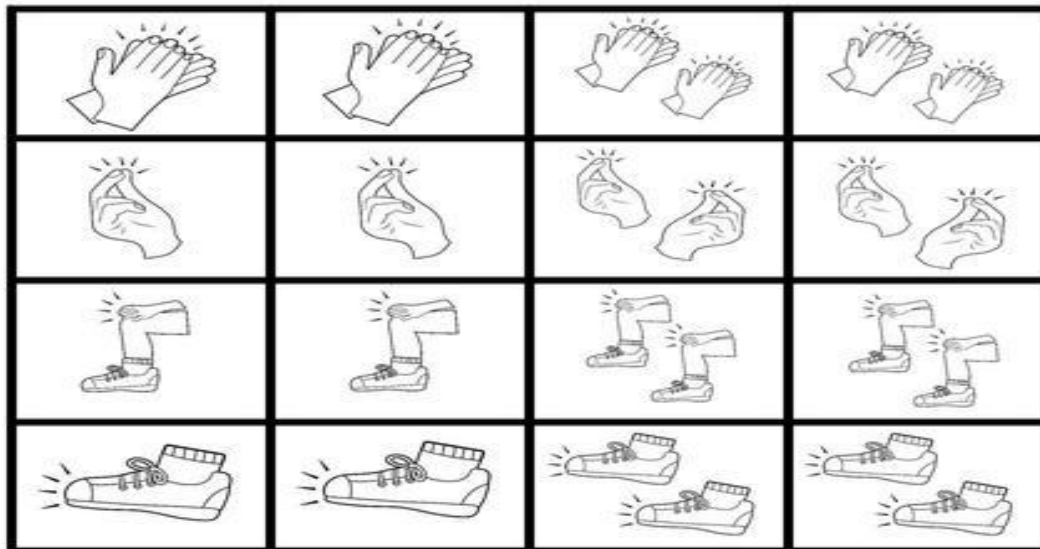

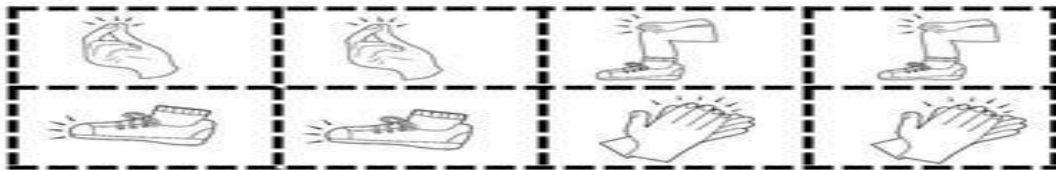

Name: _____

Directions: Cut out the body percussion pictures at the bottom of the page. Glue them to the boxes below to create your own body percussion song. Perform your new song.

My Body Percussion Song

Copyright 2014 Tracy King. All rights reserved.

Copyright 2014 Tracy King. All rights reserved.

Activity 3

10 minutes

Sounds in a circle – yours and mine

Learners to sit in a circle; the first learner makes a body percussion sound. The next learner imitates that sound and adds their own. The third learner imitates learner number two's body percussion sound and adds their own sound. This continues around the circle until the teacher brings it to a stop e.g.

I have...			
 Stomp	 Stomp	 (rest)	 clap clap
Who has...			
 stomp stomp	 Clap	 stomp stomp	 Clap
I have...			
 stomp stomp	 Clap	 stomp stomp	 Clap
Who has...			
 stomp stomp	 (rest)	 Stomp	 Clap

Activity 4

|

Slap

|

Hips

|

Hips

|

Shout!

Activity 5

30 minutes

Body Percussion Grid

Learners to draw a 4 X 4 grid on a piece of paper and put one or two body percussion sounds in each square. They can use a word, picture or symbol to represent each sound. Practice and perform their body percussion sequence for the rest of the class e.g.

clap	slap,slap	stamp	stamp
flick, flick	pop	tap,tap	pop
slap	knock	rub rub	(rest)
click,click	tap	stamp	clap

Variations

- Rhythm grids can be extended
- Rhythm grids can be swapped so the groups perform each others grids

Activity 6

30 minutes

Ask learners to do cool downs and explain the importance of cooling down and what constitutes it. Play the linked video to aid learner understanding.

There are three key components, or parts, which **should** be included to ensure an effective and complete **cool down**. They are; Exercising at a very reduced intensity and diaphragmatic breathing exercises; Low-intensity, long-hold static stretching (very gentle self-massage or foam rolling is also helpful); and Re-hydrate and re-fuel.

Assists your body in the repair process. Reduces the heart rate and returns it to normal breathing and assists in avoiding injuries, also increases flexibility and thus aids free movement.

<https://youtu.be/TcOVpNaAyP0>

Activity 7

TOPIC: INTERPRET AND PERFORM

1 hr

The teacher is to define a folktale and give various examples. Mention the purpose and importance of this artform. Ask learners to mention and briefly tell short folktales from their cultures.

Give learners the story of Jackal and Monkey to read in class. It is important that learners read the folktale aloud varying their vocal tones as the characters change.

JACKAL AND MONKEY

EVERY evening Jackal went to the Boer's kraal. He crept through the sliding door and stole a fat young lamb. This, clever Jackal did several times in succession. Boer set a wip² for him at the door. Jackal went again and zip- there he was caught around the body by the noose. He swung and swayed high in the air and couldn't touch ground. The day began to dawn and Jackal became uneasy.

On a stone kopje, Monkey sat. When it became light he could see the whole affair, and descended hastily for the purpose of mocking Jackal. He went and sat on the wall. "Ha, ha, good morning. So there you are hanging now, eventually caught."

"What? I caught? I am simply swinging for my pleasure; it is enjoyable."

"You fibber. You are caught in the wip."

"If you but realized how nice it was to swing and sway like this, you wouldn't hesitate. Come, try it a little. You feel so healthy and strong for the day, and you never tire afterwards."

"No, I won't. You are caught."

After a while Jackal convinced Monkey. He sprang from the kraal wall, and freeing Jackal, adjusted the noose around his own body. Jackal quickly let go and began to laugh, as Monkey was now swinging high in the air.

"Ha, ha, ha," he laughed. "Now Monkey is in the wip."

"Jackal, free me," he screamed.

"There, Boer is coming," shouted Jackal.

"Jackal, free me of this, or I'll break your playthings."

"No, there Boer is coming with his gun; you rest a while in the noose."

"Jackal, quickly make me free."

"No, here's Boer already, and he's got his gun. Good morning." And with these parting words he ran away as fast as he could. Boer came and saw Monkey in the wip.

"So, so, Monkey, now you are caught. You are the fellow who has been stealing my lambs, hey? "

"No, Boer, no," screamed Monkey, " not I, but Jackal."

"No, I know you; you aren't too good for that."

"No, Boer, no, not I, but Jackal," Monkey stammered.

"Oh, I know you. Just wait a little," and Boer, raising his gun, aimed and shot poor Monkey dead.

It is important that before analysis of the story learners need to understand that storytelling is a shared event with people sitting together, listening, and participating in accounts of past deeds, beliefs, taboos, and myths. Repetition of the language and rhythm are two important characteristics of oral storytelling in Africa. <https://study.com/academy/lesson/african-folktales-importance-commonalities-changes.html>)

Folktales "allow students to experience one of the ways a society develops a sense of moral behaviour in its children."³ Children today can learn from this rich literary heritage, which provides both a window into other cultures, and a mirror that allows viewers to reflect more clearly on aspects of their own culture. (<http://www.socialstudies.org/sites/default/files/publications/yl/1101/110104.html>).

Learners must answer the following questions:

Why is African story telling important?

They help people make sense of the world and are used to teach children and adults about **important** aspects of their culture. There is a rich tradition throughout **Africa** of oral **storytelling**. ... **Storytelling** provides entertainment, develops the imagination, and teaches **important** lessons about every- day life.

<https://static1.squarespace.com/static/53cfd0e5e4b057663ea1bc61/t/57b1e0b746c3c406dd172afd/1471275383444/Oral+Traditions+of+West+Africa.pdf>

How does folklore reflect a culture?

Folklore reflects culture because it relates to the way of life of the people who produce it: their ceremonies, their institutions, their crafts and so on. It also expresses their beliefs, customs, attitudes and their way of thinking.

http://wiredspace.wits.ac.za/bitstream/handle/10539/1570/Diss_C_Chap1.pdf?sequence=3

What is the importance of folklore?

Folklore is oral history that is preserved by the people of the culture, consisting of traditions belonging to a specific culture. The real purpose of folkloric tales, though, is to provide historical information regarding the origins of a group of people. <https://study.com/academy/lesson/what-is-folklore-definition-legends-myths.html>

What are the characteristics of African folktales?

African folktales, also known as **myths**, are believed to have the power to hold the community together: the **ancestors**, the living, and those not yet born. They serve to communicate **traditions, customs, lessons** and **morals** to the young in preparation of life's obstacles. Traditionally, adults passed these stories down by word of mouth to the children while gathered around a village fire, under moonlight. This practice is known as **Tales by Moonlight**. In most cases, the story line goes like this: The **protagonist**, or main character, is overzealous, jovial, and kind, but has a major flaw such as greed, pride and naivety. These shortcomings soon become weaknesses and are exploited by the **antagonist**, or main adversary, a trickster, who more often than not leads the protagonist to his demise.

Along with a clear **moral of the story**, African folktales also commonly use **personification**, which is when an author gives inanimate things, animals, and nature human characteristics. In African folktales, there are many diverse types of animals specific to each culture, demonstrating such virtues as generosity, tolerance, honesty and many others. The last major commonality among African folktales that we will cover is **setting**, where the story takes place. Instead of a particular location, African folktales take place in a very general location that exposes readers to the climate and various land forms in Africa, often making reference to the seasons, dry and rainy, and the effect on vegetation. Now let's take a look at an example of an African folktale.

In analysing folktale learners need to consider the following criteria and use it to analyse the story of Jackal and Monkey:

What are characteristics of a folktale?
Story Elements

- Characters are flat.
- Usually very good or very bad with most characteristics exaggerated.

- The hero and heroine are usually young.
 - The heroine is usually fair, kind, charitable, and caring.
 - The hero is usually honourable, courageous, unselfish, and caring.
 - Both usually have special abilities or powers.
- <http://www.homeofbob.com/literature/genrefiction/folktales/elements.html>

Folk Tale - description of story elements and quality characteristics

Traditional *folk tales* were the oral tradition of adults. Stories about peoples' lives and imaginations as they struggled with their fears and anxieties by telling tales. Probably helped them to better be able to struggle with them in real life. While many of these tales weren't told specifically for children it is almost certain that they too would listen and enjoy as well as develop respect for certain elements described in the stories.

Characters, plot, setting, theme, events, real life all ages problems based on real life events, setting is every time.

Story Elements

Characterization

- Characters are flat.
- Usually very good or very bad with most characteristics exaggerated.
- The hero and heroine are usually young.
- The heroine is usually fair, kind, charitable, and caring.
- The hero is usually honourable, courageous, unselfish, and caring.
- Both usually have special abilities or powers.

Setting

- Place is described easily and briefly (humble cottage, magic kingdom) that fits the typical geography of the culture or it is not mentioned but assumed.
- Time is in the past (usually long-ago) imbedded within the history of the culture.
- Time is fantasy time (Once upon a time sets the stage and They lived happily ever after closes the tale.) any time or any place, timeless or placeless, or long long ago.

Plot

- Very simple, though interesting.
- Thought provoking to didactic.
- Is full of action and follows specific and simple patterns. The plot starts right out with fast moving action that grabs the listeners interest and keeps it. Conflicts are usually resolved with great deeds or acts of human kindness related to good and bad/evil.

Theme

- Usually universal truths, lessons, and values related to people, their actions, and/or material goods that is valued by the group that creates the folktale.
- Often the tales tell what happens to those who do not obey the groups traditions.

1. Problems of young adults

2. Security
3. Fear of leaving home
4. Fear of not having children
5. Fear of not being loved or giving love
6. Reflect basic values and concerns of different cultures
7. Good and evil
8. Right and wrong
9. Justice and injustice
10. Happiness, kindness, friendship, loyalty
11. Good triumphant over evil
12. Love and loyalty
13. Love and loyalty can transform ...
14. Discuss basic values of people

Style

- Descriptions are quick and to the point with little description and detail.
- Plausibility story is possible but not probable.
- A promise father promises to send one daughter, if set free; promises first son, if spin gold;
- Number three father has three daughters and three sons, and three weeks to return
- Magic Supernatural beings Objects (mirror, beans, golden objects) Spells, Enchantments,
- Magical transformations, Character transformed by a spell and only the love or loyalty of another character can break the spell Ugly person casts a spell on ... Spell is broken and turns into a ...
- Run away from home Gingerbread Boy - English, The Bun - Russian, The Pancake -
- Norwegian Cumulative Henny Penny, sequence of events or characters that accumulate.
- Repeat phrases, develop logic and sequential thinking (for preoperational children), and understanding for more sophisticated literature. The House that Jack Built, The Old Lady that Swallowed a Fly.
- Extraordinary animals, monster, or other animated things. Three Little Pigs, Shrek
- Explain a natural phenomena or custom. How Rabbit Stole Fire, Why Mosquitoes Buzz in people's Ears, Tikki Tikki Temkbo.

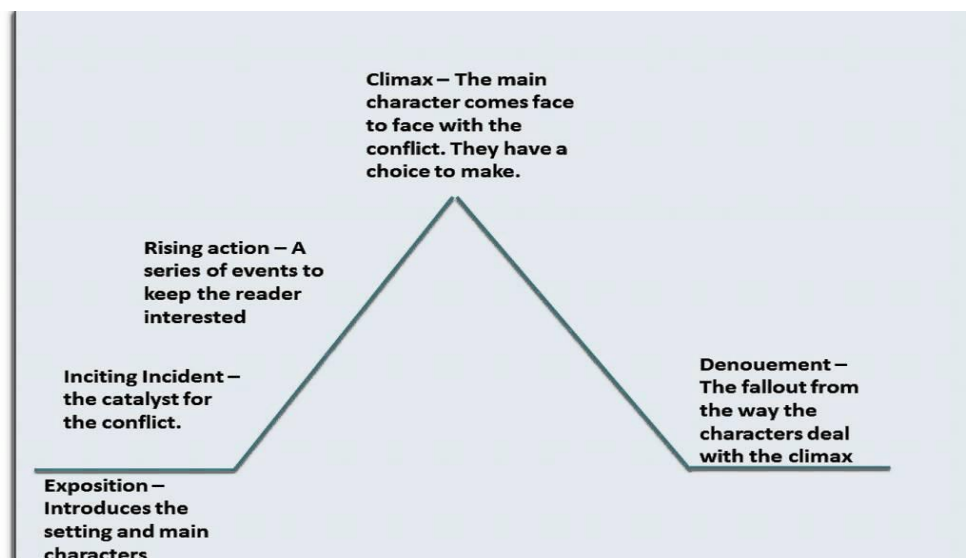

Tone

- Good versus bad/evil
- Reflection of human strengths, frailties, weaknesses, or imperfections.
- Reader is lead to new insights and/or understandings.

Point of View

- Often third person narrative. Could be first.
<http://www.homeofbob.com/literature/genre/fiction/folktales/elements.html>

Learners can use the dramatic structure to do interpretation of stories e.g.

(The main event between the protagonist and the antagonist or the moment for which the reader has been waiting.) ⑤

RISING ACTION ⑥
(The major events that lead to the turning point.)

FALLING ACTION ⑦
(The major events that lead to the resolution.)

RESOLUTION ④
(How was the conflict solved?)

THEME ⑧
(The lesson or message the author is trying to help us understand.)

① _____

② _____

③ **CONFLICT***
(What's the problem between the protagonist and the antagonist?)

④ _____

How To Figure Out the Theme

1. Actively read the text.
2. Fill out the Plot Structure Diagram (follow the circled numbers).
3. Examine the conflict, resolution and turning points.
4. Ask yourself, "What is the lesson the protagonist learned?"
5. Rework #4 so that it can apply to anyone who reads the story.

*Characters, Setting, Conflict and Mood (how the story makes you feel) combine to create the EXPOSITION which helps you "get into" the story, novel or movie from the very beginning.

TOPIC: INTERPRET AND PERFORM

Activity 8

2 hrs

It is critical that learners follow the following steps in analysis of a folktale:

1. Comprehend or understand what the story is about.
2. Interpret by digging deeper into the details of the story
3. Draw conclusions and make value judgements about the story

Play the following videos for learners to understand the basics of plot and character analysis:

<https://youtu.be/KoierBkgYzE>

<https://youtu.be/3daaB08DhmE>

<https://youtu.be/XsO2P-Db05g>

Informal activity

30 minutes

Write down your understanding of what a story is.

A narrative of events arranged in time or an account of imaginary or real people and events told for entertainment. <https://www.lexico.com/en/definition/story>

What are the basic characteristics of a story?

“A **story** has five basic but important elements. These five components are: the characters, the setting, the plot, the conflict, and the resolution. These essential elements keep the **story** running smoothly and allow the action to develop in a logical way that the reader can follow”.

http://www.katiekazoo.com/pdf/KK_FiveEssentialElements.pdf

What do you understand by the term plot in a story?

The arrangement of events in a story which includes the following:

- Exposition
- Conflict
- Rising action
- Climax

- Falling action
- Resolution

How do authors bring characters to life?

This is done through characterization (used to describe the character), character traits (helps readers or audience to understand the characters) and character motives (reasons for his or her actions)

List 4 types of characters authors usually use in a story and define each type?

1. **Flat characters** are two-dimensional in that they are relatively uncomplicated and do not change throughout the course of a work.
2. By contrast, round **characters** are complex and undergo development, sometimes sufficiently to surprise the reader.
3. A **static character** is one who doesn't undergo any significant change in **character**, personality or perspective over the course of a story.
4. A **dynamic character**, in contrast, undergoes a major transition in one or more of personality or perspective over the course of a story.

Static vs. Dynamic Characters

Static Character

Dynamic Character

static character the character that stays the same throughout the story 	dynamic character a character that changes due to events in the story 
flat character a character which we know very limited information about 	round character a character which we know a lot of information about 

FORMAL TASK

2 hrs

Learners are to divide into groups of 5 and develop a short drama presentation using the following folktale:

Tortoise and the Bullying Giraffe African Folktale

Tortoise and the Bullying Giraffe African Folktale

Tortoise and giraffe met one day. Giraffe began teasing tortoise and said, "At once I could trample you to death." Tortoise, being afraid, remained silent. Then giraffe said, "At once I could swallow you." Tortoise said nothing to this.

Giraffe became upset with tortoise silence and giraffe swallowed Tortoise; but tortoise stuck in giraffe's throat and he choked to death. When giraffe was dead, tortoise crawled out went home to his family and shouted, "Giraffe is dead!" Then they went and fed for a whole year on the remains of giraffe.

Learners are to follow the following process to develop the drama presentation:

- The script has already been chosen for the class
- Each group should decide on the casting, costuming, 2 part and call and response music chosen from their own cultural songs.
- Decide on rehearsal times or calendar and submit it to your teacher

Pre-production	Casting, rehearsal calendar and staging details or design and ideas, props, costumes, script.	15 Marks
Production	Warmups, Performance of dance, music, characterization etc.	20 Marks
Post-Production Review/ Reflection	Learners to write a one-page review focusing on the introduction, plot summary, performance, design elements and reaction. They must also focus on the who, what, where and when of the story	15 Marks

Pre-production planning						
Rehearsal calendar submitted	Not achieved 0	Below standard 1	Average 2	Good 3	Very good 4	Excellent 5
Script submitted	Not done	Little attempt on structure of the script	Some attempt on structure of the script	Script shows good understanding of the characters	Capturing of characters done well	Excellent performance handle of characters
Staging details	Not done	Little attempt shown on details of the plan	Average attempt on details of stage sequences	Just enough attempt on the details of the sequence of performance	A good handle on stage sequences	An excellent plan of stage sequences
Originality	Not done	Unoriginal	Borders on plagiarism	Original but average	Original idea	Very original and above average idea

15

Performing your story

20

Beginning Date: _____ End Date: _____

Name your folktale: _____

Group members: _____

Group performance						
	Not achieved 0	Below standard 1	Average 2	Good 3	Very good 4	Excellent 5
Personal performance	Not done	Almost no emotion / personality shown	Some attempt at emotion / personality	Very little emotion / personality	Capturing of character done well	Excellent performance
Performance as group member	Not done	Does not work well with group	Very little participation and group spirit shown	Just enough participation and group spirit shown	Works well with rest of group	Team player
Originality	Not done	Unoriginal	Borders on plagiarism	Original but average	Original idea	Very original and above average idea

Professionalism	Not done	Unprofessional and untidy	Some attempt at professional presentation of project made	Professionally done, but still a little untidy	Professionally done	Worthy of Prime Time
Tension in the play	No tension	Almost no tension was created in the play	Some tension was notable	Tension was detected in the play	Tension was very good and the audience was captured by it	Excellent tension in the play. It kept the audience on the edge of their seats
Assignment achieved	Not done	Sloppy and not well planned	More effort can be put in	On an acceptable standard	Professionally done	Lots of effort and hard work put into project

2. Post Production review/Reflection

Answer the following questions about the improvisational play you preformed in class

1. What process did you go through to produce the play'? (3)

2. Describe your own performance. (3)

3. Describe the performances of the other cast members in your group. (3)

4. What do you think you could improve on your own performance? (3)

5. What resources did you use during the performance?

(3)
