

Creative Arts

Year 4

Term 2

Teacher Book

Architectural Structures

Name and Surname: _____

Class: _____

Elements of Art

Color

The hue that is produced when light reflects off an object.
An example of a hue is red, green or yellow.

Line

A continuous mark used in a work of art.

Shape

An outlined area.

Texture

The way a surface feels or how it looks like it would feel.

Value

The quality of lightness or darkness of a color.

space

- 1) The illusion of depth on a flat surface.
- 2) An area that has height and width (2D).
- 3) An area that has height, width and depth (3D).

Form

A 3-Dimensional shape (having width, height and depth).
Some examples are a cylinder, cube and sphere.

Principles of design cheat sheet

Balance 	Balance is the visual weight of objects in your image. If the design was a scale, these elements should be balanced to make the design feel stable. • In symmetrical balance, the elements used on one side of the design are like those on the other side. • in asymmetrical balance, the sides are different but still look balanced. • In radial balance, the elements are arranged around a central point and may be similar.
Pattern 	Pattern is the organised/ uniform repeating of an object or symbol all over the work of art. Repeating the elements of art.
Proportion 	Proportion is the feeling of unity created when all parts (sizes, amounts, or number) relate well with each other. When drawing the human figure, proportion can refer to the size of the head compared to the rest of the body.
Emphasis and Contrast 	Emphasis is the part of the design that catches the viewer's attention. Usually the artist will make one area stand out by contrasting it with other areas. The area could be different in size, colour, texture, shape, etc.
Unity and Variety 	Unity is the feeling of harmony between all parts of the work of art, which creates a sense of completeness. Variety is the use of several elements of design to hold the viewer's attention and to guide the viewer's eye through and around the work of art. Too much unity is boring and too much variety is chaos, you need balance.
Rhythm 	Rhythm is created when one or more elements of design are used repeatedly to create a feeling of organized, but not uniform, movement. Rhythm creates a mood like music or dancing. To keep rhythm exciting and active, variety is essential.
Movement 	Movement is the path the viewer's eye takes through the work of art, often to focal areas. Such movement can be directed along lines, edges, shape, and colour within the work of art.

Visual Arts

Visual Literacy

Art Elements and Design Principles

By now you should be well versed in the elements and principles of art and design.

The elements are the building blocks of art.

Line, colour, shape, texture, form, value and space.

The principles of design use the elements of art to create beautiful art.

Balance, contrast, emphasis, movement, pattern, rhythm and unity and variety.

Teachers Notes:

Lead the class discussion.

Do we remember the elements of art and design principles?

Ask the students to bring visual stimuli from home regarding architectural structures.

They must bring examples of their favourite, or the structures they think is interesting or beautiful.

You will decide how this activity is structured, students must work in their visual diaries during this activity but how they will go about the discussion and note taking is up to you, the teacher.

Students must name and discuss ALL principles and elements that are present in each structure and image.

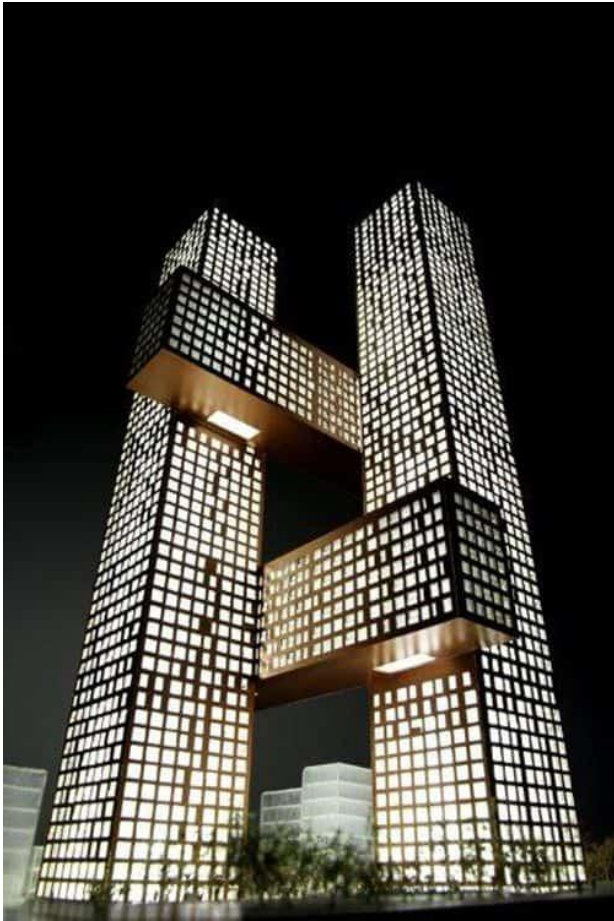

Architectural Structures

By the end of this activity learners will be able to:

- Give expression to your own personal interpretation of architecture.
- Identify art elements and design principles in interesting/ alternative architectural structures.

- Have a look at the following 8 alternative architectural structures.
- Discuss each structure.
- Why do you think it looks that way, do you like it, what does it represent etc.?
- Give expression to your own interpretation.
- Your teacher will take lead and you will as a class name and identify all elements and principles of art and design in each of these image/ structures.
- Use your visual diary for this activity.

Create in 2D

Architectural Structures

Assessment 1 Formal activity

Start Date: _____

End date: _____

By the end of this activity learners will be able to:

- Do printing of buildings as a design principal.
- Use art elements: Shape (geometric), line, tone, texture and use of complementary or monochrome colours in pattern making as a surface decoration.
- Use design principles: balance, contrast, unity and proportion.

Teachers Notes:

Students should be given the freedom to interpret the brief however they see fit, BUT some ideas for the teacher to think about:

House or building plans (that show the house rooms etc. from above)

Blueprints

Design renders (landscaping - front view)

One-point perspective drawings (Technical occupation drawings)

Recourses

A3 black (sugar) paper (availability)

Stamps made with recycled materials in different forms and shapes

White paint, white chalk - variant

Instructions

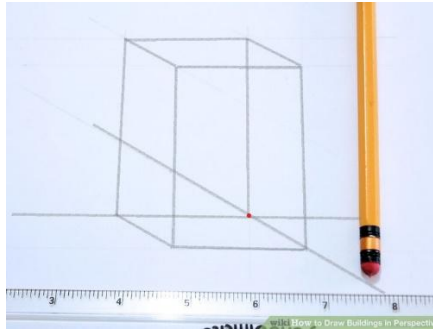

Draw or trace a group or single building onto the black paper.

Use different stamp techniques to create a building on black paper.

Example only

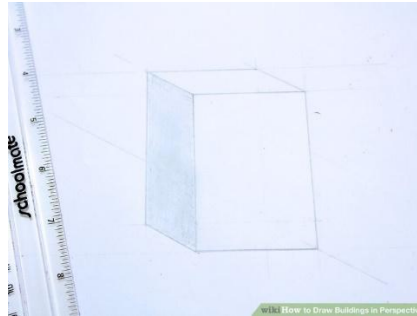

Step 1

- Draw a standing rectangle.
- Then draw another rectangle, behind and at an angle to the front rectangle.
- The bottom right corner of both should be connected.
- i.e. make a drawing of a 3D rectangular prism.

Step 2

- Note where the second rectangle crosses the first.
- Erase those lines and shade in the rest of the remaining rectangle.

Step 3

Draw into the first rectangle as if it were a normal sketch and now your masterpiece can begin!

Floor plan by Template.net

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Used monochrome or complementary colours, used it effectively.	2	
2. Used geometric shapes, line, tone and texture effectively and correct.	4	
Design Principle:		
1. Attention was given to balance, contrast, unity and proportion.	4	
Subject choice: Architectural subject that fits with the brief.	3	
The drawing medium is used effectively and fits with the style of the image.	3	
Building/s are clearly recognizable and drawn well.	3	
Orientation of paper and placement fits the subject/ object.	3	
Attitude: Lesson was completed in a timely manner and time was used effectively.	3	
TOTAL	25	

Reflection (Use visual diary for reflection)

1. Did you learn something from this lesson that will make future drawings easier or better?
2. Motivate your answer.
3. Is this a skill that you see yourself using or needing again in the future?
4. Motivate your answer?

Create in 3D

Architectural Structures

Assessment 2 Formal activity

Start Date: _____

End date: _____

By the end of this activity learners will be able to:

- Use skills and techniques like pasting, cutting, wrapping, tying, joining various recycled materials.
- Art elements: Use all (Year 1-3).
- Design principles: Use balance.
- Spatial awareness: use shallow and deeper space in own construction e.g. some areas are extending further into space than others.

Recourses

Materials the learner has experimented with through Year 1- 3

Instructions

Learner need to create a deconstructed architectural structure using skills that were developed (Year 1- 3). The learner must follow a step by step instruction sheet that is developed by the teacher in conjunction with the learners in a group.

Teachers Notes:

This is purely and example.

The brief requires the teacher to develop step by step instructions together with the class.

Research deconstructive objects to inform the students.

This is only an example

Teachers Notes:

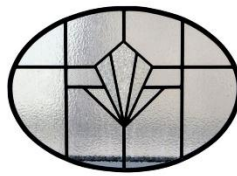

For this specific activity the students need to bring recycled materials from home to aid them in completing the activity.

Milk cartons or any similar boxes, coloured see-through paper e.g. candy papers.

Teachers should provide students with materials where needed.

Stained-glass by Derek Diedricksen

Plain art deco stained glass panel by
Period Home Style

Bespoke stained glass, commissioned
design by Holme Valley Stained Glass

Instructions

Above is an image of a stained-glass window, you might have seen them at your church, or you might even have them at your house. This window is made up of multiple pieces of coloured glass that can be arranged into beautiful pictures or just random colours.

In this activity you are going to make your own deconstructed stained-glass window.

Resources

Black paper/ cardboard (ridged material that will hold its shape but easy to cut)

Coloured film, sweet papers, tissue paper (any paper that will shine through when light shines from behind, like glass)

Glue (for connecting pieces of cardboard (like a structure)

Glue, Self-adhesive tape (for making and pasting your “glass”)

Step 1

- Take your piece of black cardboard and draw an interesting design onto it.
- You will have to keep in mind that the design will only be in pieces and shapes, it will look like a stencil.
(black connections everywhere)
- Look at the picture of what stained-glass windows look like.

Step 2

- Cut out all the “holes” in your paper.
- Take care not to cut the wrong parts.

Step 3

- Cut the self-adhesive take to the size of your window. The exact size that your entire page is covered with no hang over.
- Take the self-adhesive tape and place your over your window, ensure all the black parts of your window is stuck down.
- Your page will look like a clear window, one side is sticky.

Step 4

- Now, take your coloured film and place it onto the sticky side op the film.
- You will now create your design in the colours and pattern that you want.

Step 5

- Next, you will build the window frame, make your flat image a standing 3D sculpture.
- Cut out strips of black cardboard that will serve as the sides of your window. It will be ass if you want to make a box.
- Only cut out strips for the sides, bottom and back, you will leave the top open.

Step 6

- You should now have a box with the top open and the front showing a window.
- Takes extra pieces of coloured film and place them inside the box, as if they are starting to float out, boiling over the top of the box.

Step 7

- Done!

Alternatives to this activity

1. Use a milk carton to create your window instead of back cardboard.

Teachers should then ask students to bring from home.

✓ **Rubric**

Assessment criteria	Marks allocated	Marks received
Elements of Art:		
1. Multiple art elements present in work (1 mark per 2 elements used)	3	
Design Principle:		
1. Construction is balanced and well presented.	3	
Skills: Cutting, pasting, wrapping, tying, joining – skills needed for activity are well developed and learner is skilled enough to do a good job.	4	
Subject choice: Architectural subject that fits with the brief.	3	
Deconstruction is clearly evident in the finished product.	3	
All the steps were followed and executed.	3	
When developing the steps: Attitude was conducive and works well with others.	3	
Lesson was completed in a timely manner and time was used effectively.	3	
TOTAL	25	

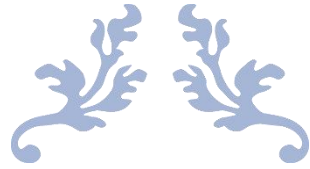

Reflection (Use visual diary for reflection)

1. Did you enjoy this activity?
2. Motivate your answer.
3. Do you feel this activity was appropriate for multiple skill levels?
4. Motivate your answer.

PERFORMING ARTS

Year 4 Term 4

CREATIVE ARTS: PERFORMING ARTS -YEAR 4

TOPIC: WARM UP & PLAY

20 minutes

The purpose of this activity is to help learners to understand how to do body warmups focussing on coordination and control and for the voice since the focus this term is dance and music

Activity 1

Warm ups: The teacher must instruct learners to do the following:

Standing Balance with Ball Tosses which develops eye and hand coordination.
Contralateral and Ipsilateral Marching which are best for hand and foot coordination,
Walk, Toss and Catch, Squats with Focal Point Challenges, Reaction Side Squats.
Do tightrope walk or use a low wall. The tightrope walk is a highly-recommended **exercise** for boosting **balance**, posture, and core strength. It's also a pretty simple activity for seniors. This **exercise** requires no equipment at all.

Play the following linked videos for learners so they understand body warm ups

<https://youtu.be/Eh6Y9hLG9i4>

<https://youtu.be/xpt20bbsnmA>

<https://youtu.be/g9SviewJSJQ>

Activity 2

Vocal warmups: The teacher is to direct and request learners to do breathing exercises to prepare the body for singing following these instructions:

Breathing Exercises 1 – Find Your Diaphragm

Place your hand over the soft part between the bottom of your rib cage (just above your tummy). Now feel your hand gently being pushed outwards as you breathe in. (Watch you don't use your stomach muscles to help you push your tummy out, or that you are lifting your shoulders!). This is the diaphragm, the muscle we use when breathing and for singing. Just to feel the difference (keeping your hand over your tummy) – now try breathing in as if you are sipping through a very large straw (imagine it to be about 2cms in diameter). Gently suck that breath in, and feel it filling the bottom of your lungs. Then feel it filling the sides and back of your lungs. You should feel your hand being gently pushed outwards. You should also feel your chest expanding. Gently exhale the air in a long and steady breath.

Pant like a dog. You will feel your diaphragm pushing against your hand each time you pant.

Breathing Exercises 2

Now try breathing in (as if you are sipping in through that big straw) but control it over the

counts of four:

Inhale 2 3 4

Hold 2 3 4

Exhale 2 3 4

Inhale 2 3 4

Hold 2 3 4

Exhale 2 3 4

Inhale 2 3 4

Hold 2 3 4

Exhale 2 3 4 and relax.

Breathing Exercises 3

Take a deep breath in, then exhale gently in a SSSSSS breathe (hissing like a snake). Try to keep your exhalation as a steady and constant stream for as long as you are able. When you start to get the urge to breathe, try and exhale just a little bit more before you have to breathe in.

Some people can manage just a few seconds, others can manage a minute or more. Do what is right for you to begin with. Try timing yourself e.g. this week you managed 10 seconds, next week try for 11 seconds etc.

Warning: Don't do too many of these exercises in straight succession as you will start to feel dizzy and lightheaded. If you do, please sit quietly until the feeling passes.

Breathing Exercises 4 Breathing in-time with music

This exercise is breathing to music over 8 counts

Gently breathe in as if you are sipping the air through a big straw.

Breathe in 2 3 4 5 6 7 8 Breathe out 2 3 4 5 6 7 8

Watch that you don't hold your breath during the exercise. You should aim to continually draw air over the 8 counts, then exhale over the 8 counts.

<https://www.successfulsinging.com/singing-guides/breathing-exercises-for-singing/>

Use the following video to aid learner understanding of breathing with music

https://youtu.be/-6_18I-YZWI

<https://youtu.be/flSd0UypVGI>

Activity 3

Tongue twisters: The teacher is to define and explain the concept of tongue twisters in vocal warmups in terms of them being largely articulation exercises. Give learners tongue twisters in different languages e.g.

TONGUE TWISTERS

- Irish Wristwatch, Swiss Wristwatch.
- I wish to wash my Irish wristwatch
- Which wristwatches are Swiss wristwatches?

- She sells sea-shells on the sea-shore.
- The shells she sells are sea-shells, I'm sure.
- For if she sells sea-shells on the sea-shore
- Then I'm sure she sells sea-shore shells.

- Betty Botter bought some butter
- But she said the butter's bitter
- If I put it in my batter, it will make my batter bitter
- But a bit of better butter will make my batter better

- How much wood would a woodchuck chuck if a woodchuck could chuck wood?
- He would chuck, he would, as much as he could, and chuck as much wood
- As a woodchuck would if a woodchuck could chuck wood

- Betty Botter bought a bit of butter.
- The butter Betty Botter bought was a bit bitter
- And made her batter bitter.
- But a bit of better butter makes better batter.
- So Betty Botter bought a bit of better butter
- Making Betty Botter's bitter batter better

- Peter Piper picked a peck of pickled peppers
- A peck of pickled peppers Peter Piper picked
- If Peter Piper picked a peck of pickled peppers
- Where's the peck of pickled peppers Peter Piper picked?

- Six sick hicks nick six slick bricks with picks and sticks.
- The sixth sick sheik's sixth sheep's sick.
- The sixth sitting sheet-slit six sheets.

- Old Mother Hunt had a rough cut punt
- Not a punt cut rough,
- But a rough cut punt.
- Pad kid poured curd pulled cold.

<https://youtu.be/KZlp-croVYw>

<https://youtu.be/LOvR6K78pBc>

Play the following videos for Sotho tongue twisters:

https://youtu.be/SSa_KO0guYg

Paqama ke o qoqele moqoqo o qabolang.

Ke tla o qalla qalong ke o qetelle qetellong.

Ke tla o qalla ka Qabane oa Quthing ke o qetelle ka Nqoko oa Qoqolosing.

Lie back and let me tell you a funny story.

I'll start from the beginning and stop at the end.

I'll start with Qabane of Quthing and finish with Nqoko of Qoqolosing.

Zulu tongue twisters

Ingqegebulane yaqaqela uqhoqhoqho, uqhoqhoqho waqaqela iqaqa, iqaqa laqalaza.

The expert talker loosened up for the trachea, the trachea loosened up for the polecat, and the zorilla (polecat) looked around in amazement.

Zaka zulu buka baju nampak bulu

The guy opens the shirt (so that you) can see hair

Amaxoxo ayaxokozela exoxa ngoxamu exhibeni.

The frogs are talking loudly about the monitor lizard.

UShabalala washabalala neshumi losheleni emshinini kashukela eshashalazini laseShowe.

Mr. Shabalala disappeared with one Rand at the sugar factory in the valley of eShowe.

uCele ucambalele ocansini ucabanga icebo lokucebha icetshwayo ngomcibilishono.

Cele is resting on a mat thinking of a plan to stab Cetshwayo with a spear.

Play these videos for Zulu tongue twisters:

<https://youtu.be/nI77baLheAA>

Activity 4

Cool downs: These are to be done at the end of a performance or practice session

Cool-down Exercises

- Start your cool-downs with 2-3 minutes easy walking, either in one place or around the room
- Hold each stretch 15-30 seconds
- Stretch only to the point of "mild discomfort". Stretches should never be painful
- Maintain excellent posture, always keeping chest lifted and head looking straight forward
- Muscles should be warm before stretching; be sure to precede with warm-ups and/or other activity
- Maintain rhythmic breathing
- Use pursed lips breathing if you have a lung limitation. See instructions on *Warm-up Exercises*

1. Side stretch

Gently extend one arm up, pushing the palm toward the ceiling. Slowly lift rib cage and shoulder blade to feel a pain-free stretch through the torso. Hold 15-30 seconds.

2. Chest stretch

Clasp hands behind your back. Gently push both shoulders back, squeezing the shoulder blades together for a pain-free stretch across chest and front of shoulders. Hold 15-30 seconds.

3. Calf stretch

Rest hands on back of chair with one foot behind you in a lunge position. Point toes of both feet straight forward. Push gently on heel of back foot, letting hips fall lightly forward for a pain-free stretch through calf muscle. Keep back foot flat. Hold 15-30 seconds.

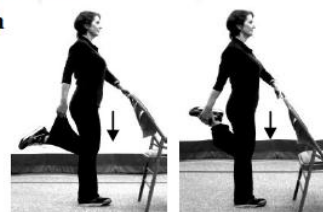

4. Hamstring Stretch (back of thigh)

Sit with hips on the edge of chair. Extend one leg with toes pointing toward ceiling. Gently push the chest forward, bending from hips and keeping the chest upright for a pain-free stretch in back of thigh, behind knee, and in calf. Hold 15-30 seconds.

5. Quadriceps Stretch (front of thigh)

Start by grabbing pant leg; progress to ankle or foot if comfortable

Stand behind chair. Grasp ankle, foot or pant leg behind you, keeping knee pointing straight down & standing upright for a pain-free stretch in front of thigh. Hold 15-30 seconds.

Alternative: If the above is difficult, sit with hips on the edge of chair. Turn both knees to one side with outside hip off chair. Holding onto back of chair, drop outside knee toward floor with thigh pointing straight down. Keep torso upright, and try to gently "push" your hip forward for a stretch along front of hip & thigh. Hold 15-30 seconds. When switching, bring knees together before turning.

Alternative

6. Backscratch

Put one hand behind head with elbow pointing toward ceiling. Reach behind you with your other hand, slowly move hand up the back toward shoulder blades for a pain-free stretch in the shoulders. Hold 15-30 seconds. To modify this stretch, use one arm at a time as shown.

<http://wadepage.org/files/file/BEING%20ACTIVE/cool%20down%20exercises.pdf>

IMPROVISE AND CREATE:

Activity 5

 2hrs

The teacher is to play the following linked videos for learners so as to guide them on how choreography works.

<https://youtu.be/aGhVekAy9kE>

<https://youtu.be/WeLX-eotMLU>

Ask learners to define choreography.

In **dance**, **choreography** is the act of designing **dance**. **Choreography** may also refer to the design itself, which is sometimes expressed by means of **dance** notation.

A **choreographer** is one who creates **dances**. **Dance choreography** is sometimes called **dance** composition.

[https://en.wikipedia.org/wiki/Choreography_\(dance\)](https://en.wikipedia.org/wiki/Choreography_(dance))

List six steps critical steps for developing movement sequences.

1. Purpose of the dance (Why and for who? Then you choose the song, length and types of movements)
2. Pick a song and edit it if needs be.
3. Map out your routine.
4. Use old known moves and then add new
5. Embellish and edit old and new moves
6. Practice is very important when it comes to performance in general.

Place each of the following choreographic devices into the correct places in the table:

repetition (repeat a movement/action)
rewind (do the movement/action in reverse)
resize (do the movement/action bigger or smaller)
tempo (speed movement/action up or slow it down)
rhythm (change the beat of the movement/action)
quality (add an emotion/feeling to the movement/action)
impact (use more or less force in the movement/action)
change planes (change to horizontal/vertical/diagonal plane)
change levels (change to low/medium/high)

Space	Time	Force
rewind	repetition	quality
resize	tempo	impact
quality	rhythm	
change planes	quality	
change levels		

TOPIC: INTERPRET & PERFORM

 2 hrs

Activity 6

The teacher must select a variety of cultural dances and request learners to observe, discuss and review the steps of those dances. Learners must divide into two groups and choose one dance to rehearse and present in class. While the other group is performing, the other must write a review of the performance of the other group and later swap the roles. Let learners watch these linked videos containing a variety of South African cultural dances so they can choose and rehearse their own choice. Learners must pay attention to the songs to learn them and practice and perform them in unison, harmony and call and response. Please ask learners to use a variety of instruments such as drums, tins, various shakers etc.

Remind learners that they need to always do warmups and cool downs as directed and practised previously before and after dancing. They must do freeze games, swings, stretches etc.

<https://youtu.be/wcajK5farZ0>
<https://youtu.be/9isqBozTSE4>
<https://youtu.be/HVldGe68Pal>
<https://youtu.be/CE6p2jlcWZk>
<https://youtu.be/QP9tfb4WTpw>
https://youtu.be/dt6uRc_T8S4

FORMAL TASK

2 hrs

Learners are to divide into groups of 5 and develop a short cultural dance presentation of their choice. Learners will be assessed on the following:

Movement, Choreography, Fluency and discipline.

NB: 10 Marks will be allocated for learner participation in practicing and final performance

Rubric to assess dance sequence

Criteria	Level 4 10 marks	Level 3 8 marks	Level 2 6 marks	Level 1 4 marks
Movement sequence is clear.	Four distinct movements incorporated into the	Three distinct movements incorporated into the	Fewer than three distinct movements incorporated	Separate movements cannot be

	sequence.	sequence.	into the sequence.	distinguished.
Choreographic devices.	Four choreographic devices added to the sequence.	Three choreographic devices added to the sequence.	Two choreographic devices added to the sequence.	One choreographic device added to the sequence.
Quality of dance sequence.	Sequence flows well and is confidently executed.	Sequence flows and is well executed.	Sequence does not flow very well and is not well executed.	Sequence does not flow at all and is poorly executed.
Learner discipline.	Able to work independently and concentrate and focus on own development.	Mostly able to work independently and concentrate fairly well on own development.	Unable to work independently and cannot focus on own development.	Unable to work independently and is easily distracted from the task.

PERFORMING ARTS

TOPIC: WARM UP & PLAY

30 minutes

The purpose of this section is to help learners understand and do vocal warmups using voiced consonants and vowels.

These kinds of warmups help with clarity of voice and diction.

Play the following videos on how to improve diction using consonants and challenge learners to do the same exercises as demonstrated in the videos and with increasing speeds. Learners need to importantly, note that making clear articulation of consonants requires them to say them *louder or longer*. Saying your consonants clearly help with both style and technique when you sing or speak. They act as a spring board for the voice and help you to keep the momentum.

<https://youtu.be/uOoYURjPB2k>

<https://youtu.be/gNPTV09L-rQ>

<https://youtu.be/HXLZPvGWNeE>

Activity 1

Why do we need to warm up our voices?

We warm up our voices so we can keep them healthy, sound our best and protect against damage. Warming up your voice will allow you to sing better and extend your range comfortably. It is absolutely necessary to always warm up before singing.

<https://www.schoolofrock.com/resources/vocals/9-best-vocal-warm-ups-for-singers>

What are some of the ways one can warmup their voices? Mention at least 9.

1. Yawn-sigh technique

For this quick vocal exercise, simply yawn (take in air) with your mouth closed. Then, exhale through your nose as if you are sighing. This will help relax your voice and improve its range.

2. Humming warm-ups

Humming is one of the best vocal warm-ups because it doesn't put a lot of strain on your vocal cords. Place the tip of your tongue behind your bottom front teeth and hum up and down the major scale while keeping your mouth closed. Each note should sound like "hmmm" — including the "h" sound is less taxing on your voice.

3. Vocal straw exercise

To perform the vocal straw exercise (also known as straw phonation), take a straw and hum through it. Start at the bottom of your range and slide up to the top slowly and evenly.

Then, hum your favourite song through the straw. You can also place the straw in a partially full glass of liquid and blow controlled bubbles in the glass.

4. Lip buzz vocal warm-up

As far as vocal warm-ups go, lip buzz (or lip trill, as it is sometimes called) is very simple. The goal is to make a motorboat sound by making your lips vibrate as you blow air through your mouth and nose. You can incorporate pitch slides as well.

5. Tongue trill exercise

The tongue trill vocal exercise is difficult for some singers. It involves curling your tongue and rolling your R's as you go through your range from low to high.

6. Jaw loosening exercises

When singing, you want to drop your jaw lower than when you are just talking. With your finger, trace back along your jawline from your chin to your ear. That curved space between your jaw and your ear is where you want to drop your jaw.

Pretend you are yawning with your mouth closed and feel where your jaw drops. Avoid just dropping your chin.

7. Two-octave pitch glide warm-up

For this easy vocal warm-up, make an “eeee” or “ohhhh” sound and gradually glide through the chromatic notes of a two-octave range. Glide up and then back down. This will transition from your chest voice to your head voice.

8. Vocal sirens exercise

Much like the pitch glide, the siren exercise takes an “oooo” sound and gradually goes from the lowest note of your range to the highest and back down, like a siren for an emergency vehicle. The sound is continuous and covers the tones between the notes.

9. Vocal slides technique

This technique is also known as a portamento, which is Italian for “the act of carrying.” Much like the siren exercise, you slide from one note to the next in your range, but you don't sing the in-between notes.

<https://www.schoolofrock.com/resources/vocals/9-best-vocal-warm-ups-for-singers>

What does diction mean?

Refers “to the style of enunciation in speaking or singing. It is the accent, inflection, intonation, and speech-sound quality manifested by an individual speaker or singer, usually judged in terms of prevailing standards of acceptability; enunciation”.

Activity 2

Learners need to be cognisant of the fact that vocal warmups go hand in hand with breathing warmups.

What breathing techniques do you know?

1. Flower and candle technique

This technique starts by one picking up a flower and must then smell it and then blow out a candle gently. See the video below for guidance

<https://youtu.be/Wc9pBYI1-Mk>

2. Bubble breathing technique

This kind of breathing technique helps with focusing and controlling the breathing out airflow. This is done by having the learner to blow bubbles or imagining to do so.

3. Amygdala breathing technique

This technique is done by breathing to the head and thus calming you down and thus you relax and sing comfortable.

4. Diaphragmic breathing

This technique is focused on the learner breathing into the diaphragm and fill up the lungs from the bottom

TOPIC: INTERPRET & PERFORM

Play the following videos on how to improve your singing using vowels. Challenge learners to do the same exercises as demonstrated in the videos and with increasing speeds.

Learners must be made aware that vowel placement is important as it aids resonance, flexibility, accuracy, pitch and extension of the vocal range. The mouth must not move a lot when one does vocal exercises with a focus on vowels.

<https://youtu.be/QREIsiCVWWI>

<https://youtu.be/q4UT7D4kieY?list=RDQREIsiCVWWI>

<https://youtu.be/QREIsiCVWWI?list=RDQREIsiCVWWI>

Activity 3

The learners need to review their term 1&2 for physical and body warmups and must combine them with vocal warmups as in the attached video below. These exercises can be done in groups and as individuals. Emphasise for learners that by now you hope they have learnt that warming up is a ritual for performers in all the arts.

They must note that it is important to realise that though the warmup rituals may seem boring and a waste of time; they are important for growth of all muscles needed for dance, speaking and singing as oxygen is for breathing. Their effect is noticeable only in the long run and only if one is consistent with them just as brushing your teeth may seem unhelpful in one instance, but critical to keep your teeth healthy over the long haul. Thus, warming up your body and voice should be done even if one is not in class.

<https://youtu.be/tnJW-8a26OA>

<https://youtu.be/8-gcnRZYxx4>

TOPIC: INTERPRET & PERFORM

2 hrs

The teacher must show learners the following linked video to use as inspiration to develop their own music and dance presentation using the knowledge of body percussion learnt in term 1 to create ambience and story.

<https://youtu.be/dGxg3aoJxQ0>

Activity 4

The learners must choose a theme, choreograph dance moves and create different sounds using body percussion using at least two traditional songs. Learners need to use dynamics in singing as in the video linked below:

<https://youtu.be/wXqV47Fsxg0>

Learners can choose two cultural songs such as “Nguban’obethe sizolala” using dynamics, call and response and harmony. Also look at songs such as “AsipheleInga” performed recently by Vusi Nova https://www.youtube.com/watch?v=g8a0_j1Gle4.

Another song having all these elements is “Plea for Africa” by John Knox Bokwe as attached in this following link: <https://youtu.be/d2q9X4Z9oOo>

Learners can even do a medley of the above-mentioned songs. You may also look at a Capella groups such as Soil for inspiration as in these linked videos:

<https://youtu.be/8UJEH4GbtQk>

<https://www.youtube.com/watch?v=FrAsP6tZLYA>

2 hrs

Learners must divide into groups of 8 or more to plan their dance routines while practicing their two cultural songs of choice to present in class. The following criteria will be used for assessment: Choreography, Fluency and discipline in terms of dance routines and rhythm and musicality, creativity and South African authenticity and fluency in music. Two marks will be added as a bonus for all participating learners

Rubric to assess dance sequence

Criteria	Level 4	Level 3	Level 2	Level 1
	8 marks	6 marks	4 marks	2 marks

Choreographic devices.	Four choreographic devices added to the sequence.	Three choreographic devices added to the sequence.	Two choreographic devices added to the sequence.	One choreographic device added to the sequence.
Quality of dance sequence.	Sequence flows well and is confidently executed.	Sequence flows and is well executed.	Sequence does not flow very well and is not well executed.	Sequence does not flow at all and is poorly executed.
Learner discipline.	Able to work independently and concentrate and focus on own development.	Mostly able to work independently and concentrate fairly well on own development.	Unable to work independently and cannot focus on own development.	Unable to work independently and is easily distracted from the task.
TOTAL MARKS				24 MARKS

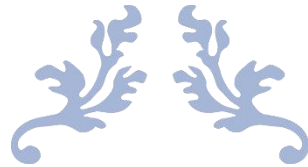

Rubric to assess the music presentation

Criteria	Level 4 – 8 marks	Level 3 – 6 marks	Level 2 – 4 marks	Level 1 – 2 mark
The Songs are delivered with rhythm and sense of musicality.	Outstanding and creative use of the songs and musicality.	Good use of the songs and musicality.	Satisfactory use of the songs and musicality.	The songs and musicality not used well.
Presentation is creative and traditionally South African.	Creative use of traditional SA elements in the songs.	Good use of traditional SA elements in the songs.	Satisfactory use of traditional SA elements in the songs.	Poor use of traditional SA elements in the songs.
Presentation is polished and well prepared.	Polished and well prepared.	Fairly well rehearsed and prepared.	Satisfactory rehearsal and preparation.	Poor rehearsal and preparation.

PERFORMING ARTS

Year 4 Term 4

TOPIC: WARM UP & PLAY

30 minutes

The purpose of this section is to help learners understand and do vocal warmups using voiced consonants and vowels.

These kinds of warmups help with clarity of voice and diction.

Play the following videos on how to improve diction using consonants and challenge learners to do the same exercises as demonstrated in the videos and with increasing speeds. Learners need to importantly, note that making clear articulation of consonants requires them to say them *louder or longer*. Saying your consonants clearly help with both style and technique when you sing or speak. They act as a spring board for the voice and help you to keep the momentum.

<https://youtu.be/uOoYURjPB2k>

<https://youtu.be/gNPTV09L-rQ>

https://youtu.be/Hs8-5q_L8T0

<https://youtu.be/PhRKGxqG7Oo>

<https://youtu.be/HXLZPvGWNeE>

Activity 1

Why do we need to warm up our voices?

We warm up our voices so we can keep them healthy, sound our best and protect against damage. Warming up your voice will allow you to sing better and extend your range comfortably. It is absolutely necessary to always warm up before singing.

<https://www.schoolofrock.com/resources/vocals/9-best-vocal-warm-ups-for-singers>

What are some of the ways one can warmup their voices? Mention at least 9.

1. Yawn-sigh technique

For this quick vocal exercise, simply yawn (take in air) with your mouth closed. Then, exhale through your nose as if you are sighing. This will help relax your voice and improve its range.

2. Humming warm-ups

Humming is one of the best vocal warm-ups because it doesn't put a lot of strain on your vocal cords. Place the tip of your tongue behind your bottom front teeth and hum up and down the major scale while keeping your mouth closed. Each note should sound like "hmmm" — including the "h" sound is less taxing on your voice.

3. Vocal straw exercise

To perform the vocal straw exercise (also known as straw phonation), take a straw and hum through it. Start at the bottom of your range and slide up to the top slowly and evenly.

Then, hum your favourite song through the straw. You can also place the straw in a partially full glass of liquid and blow controlled bubbles in the glass.

4. Lip buzz vocal warm-up

As far as vocal warm-ups go, lip buzz (or lip trill, as it is sometimes called) is very simple. The goal is to make a motorboat sound by making your lips vibrate as you blow air through your mouth and nose. You can incorporate pitch slides as well.

5. Tongue trill exercise

The tongue trill vocal exercise is difficult for some singers. It involves curling your tongue and rolling your R's as you go through your range from low to high.

PERFORMING ARTS

Year 4 Term 4

TOPIC: WARM UP & PLAY, IMPROVISE & CREATE, INTERPRETE & PERFORM

5 hrs

Dear Learners

The purpose of this task is to assess your understanding and handling of the concepts of warmup, both physical and vocal routines as in the videos herein linked <https://youtu.be/PagwNegZ-70> Stretches

<https://youtu.be/1XHXezdnL0A> Warmup and warm down

https://youtu.be/vZVv_ecG5OM Social distancing warmup

https://youtu.be/VlklGmtN_1Q Havana vocal workout

<https://youtu.be/lB0q2fx6kGo> Handwashing vocal workout

Learners are to practice and do all the warmups in the videos linked above and the teacher is to challenge learners to compose similar routines subsequently.

This task is also designed to assess your dance choreography and performance skills using cultural songs and rituals. Your drama performance skills will also be assessed including your story development and script writing skills that you learnt over the course of the year.

Request learners to divide into groups of 8 or more to plan for their end of year integrated performance which must comprise of a 10-minute warmup routine integrating physical and vocal warmups as guided by the videos linked herein above.

The actual performance must be comprised of an integrated 10-minute stage play with dance routines and cultural songs. Learners can choose from a variety of rituals such as weddings, graduations, funerals, imbeleko, initiations, reed dance, intonjane, umemulo, intlombe, birthday parties, baby showers, engagement parties, bridal showers etc. and write out a story and a script and submit to the teacher for marking.

The following criteria will be used for mark allocation:

Rubric to assess warmup and dance sequence

Criteria	Level 4 10 marks	Level 3 8 marks	Level 2 6 marks	Level 1 4 marks
Choreographic devices.	Four choreographic devices added to the sequence.	Three choreographic devices added to the sequence.	Two choreographic devices added to the sequence.	One choreographic device added to the sequence.
