Year 4 Term 1

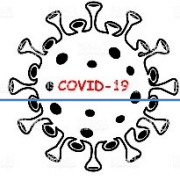

WEEK	TOPIC	CONTENT The learner is able to:	Techniques, activities, resources and process notes
1 - 2	Development of self Goal setting and lifestyle choices	- Explain what goal setting is - Understand and explain what SMART goals are. - Explain how to set goals using the SMART principles	Techniques: Explaining, Discussion, Questions and answer, Designing Activities Learner makes their own mind map of personal goals. Design a magazine cover to reflect the major influences on their personal lifestyle choices. Resource: Paper and coloured pens and – pencils, Old newspapers and magazines, Pair of scissors and glue
3 - 4	Health, social and environmental responsibilities Decision-making about health and safety: HIV and AIDS	- Make informed decisions regarding health and safety - Have knowledge about HIV and AIDS - Discuss management with medication, diet, healthy living, and positive attitude - Have knowledge of prevention and safety issues relating to HIV and AIDS - Care for people living with HIV and AIDS	Techniques: Discussion, Questions and Answers Activities Class discussion on information about management of living with HIV and AIDS. Answer questions. Make a list of prevention and safety issues. Resource: Information on HIV and AIDS, Health magazines, Textbooks, Resources on health and safety
5 - 6	Constitutional rights and responsibilities Constitution values as stated in the SA Constitution	- Identify the core values of the Constitution of South Africa. - Discuss the values of equality, freedom, non-racialism and non-sexism - Identify positive and negative role models - Identify role models for upholding constitutional values: parents and leaders in the community/society - Apply these values in daily life	Techniques: Research Activities Research the history, gender and racial integration of a chosen sport (rugby, cricket, soccer, Olympic team). Poster of role model. Resource: Textbooks, Magazine, South African Constitution
7 - 8	World of work Plan for own life-long learning	- Plan his/her own life-long learning - Investigate suggested courses in life-long learning - Set his/her own goals for life-long learning	Techniques: Research, Questions and Answers Activities Learners research the cost of a course they would like to study at an institution of their choice. Learners answer questions on a case study regarding life-long learning. Learners research lifelong learning study options. Learners set their own goals for lifelong learning. Resource: Internet, Brochures, Newspapers, Magazines
9-10	Formal assessment	The weeks allocated for formal assessment are integrated across the term.	

Activity 1

Design and make: Design a poster which reflects your goals in relation to your personal lifestyle and future career.

Weeks 1- 2: Development of Self

COVID-19

Date: _____

WHAT IS COVID-19?

Coronavirus disease (COVID-19) is a severe acute respiratory infectious disease caused by a newly discovered coronavirus.

WHO IS AT RISK?

People who have been in contact with a confirmed case of COVID-19 are at an increased risk of infection and disease. In addition, health care workers have an increased risk of acquiring infection in the work place. The elderly and individuals with co-morbidities, such as heart disease (including high blood pressure), chronic respiratory diseases (such as asthma), cancer patients, diabetes, have been found to be at a higher risk of severe illness and mortality associated with COVID-19.

HOW IS COVID-19 TRANSMITTED?

When a person infected with COVID-19 coughs or sneezes, they release droplets of infected fluid. Larger droplets fall on nearby surfaces for example, tables, counters, shops, seats in cars/taxi. If you touch these surfaces the virus may transfer to your hands, then your mouth, nose or eyes when you touch your face. People may also be infected by breathing in droplets if standing within 1m of infected person. You can't be infected through your skin.

SIGNS AND SYMPTOMS

Current symptoms reported for patients with COVID-19 have included mild to severe respiratory illness with any or all of the following:

- Fever
- Cough
- Fatigue
- Shortness of breath
- Muscle pain
- Sore joints
- Headache
- Chills
- Sore throat

The severity of illness can range from people who are infected without any illness (asymptomatic infection) to mild respiratory illness, to severe illness requiring admission to hospital or death. The majority of patients (approximately 80%) will have mild respiratory illness.

DIAGNOSIS

A respiratory tract sample (sample from nose, throat or chest) is taken and sent to a laboratory to be tested.

HOW IS COVID-19 TREATED?

Treatment is supportive (e.g. provide oxygen for patients with shortness of breath or treatment for fever). There is no specific antiviral treatment available. Antibiotics do not treat viral infections.

Self-care: If you feel sick you should rest, drink plenty of fluid, and eat nutritious food. Stay in a separate room from other family members and use a dedicated bathroom if possible. Clean and disinfect frequently touched surfaces.

STAY HOME. STAY SAFE. SAVE LIVES.

Currently, there is no vaccine for COVID-19. There are no specific measures currently recommended to prevent COVID-19 but the following can provide protection against infection with coronaviruses and many other viruses that are common in South Africa:

- Practice physical distancing, this means keeping a physical distance of at least 2 metres from all people you interact with, specifically when out in public. This keeps you safe from respiratory droplets.
- Practice social distancing, this means not interacting with people outside of your household unless necessary.
- The use of a cloth mask (not medical masks as these are needed for health care workers) may help protect you and people around you. Please look at the recommendations for these masks.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer (at least 70% alcohol).
- Avoid touching your eyes, nose and mouth with unwashed hands.
- Cover your cough or sneeze with a flexed elbow or a tissue, then throw the tissue in the bin.
- Avoid close contact with people who are sick.
- Stay at home when you are sick and try and keep distance from others at home.
- Clean and disinfect frequently touched objects and surfaces.

Worksheet 1

1. Indicate whether the following statements are **TRUE** or **FALSE** by making a tick (✓).

	TRUE	FALSE
1.1. COVID-19 is a severe acute respiratory infectious disease caused by a newly discovered coronavirus.		

1.2. The elderly and individuals with co-morbidities are at low risk of contracting COVID-19.		
1.3. If you have asthma, you can't get sick with COVID-19.		
1.4. A fever and cough are symptoms of the virus.		
1.5. If you test positive for COVID-19, you WILL die.		

2. Name five (5) symptoms of COVID-19.

2.1 _____

2.2 _____

2.3 _____

2.4 _____

2.5 _____

3. How is COVID-19 transmitted?

4. How do they test for COVID-19?

5. Complete the sentences by filling in missing words.

The following can provide prevention against the virus:

Practice physical  _____. When out in public you must wear a cloth

 _____. Wash your hands with

_____ and water for at least **20** _____ seconds.

Development of self: Goal setting and lifestyle choices.

Date: _____

There is a plan for everything on earth. Before a house is built there is a plan, a factory cannot make anything unless it has a plan, pattern or recipe. Your life should also have a plan to help you reach your dreams.

We all have dreams to become something or to improve our existing life. It is interesting that most people want something special, something better or something more out of life. Maybe you want a

better life and future for you and your children, something better than what you had. The only way you get there is to set goals.

Goal setting

In order to set and reach goals the best way is to use the 'SMART' method.

The following table is an example of how to set goals using the SMART criteria.

S	Specific	Write down what your goals are – give details. Ask: What? Why? How?	"I want to become a chef, welder or personal assistant."
M	Measureable	You must be able to measure your progress. How long will it take, a week, a month? Ask: From where to where?	Make an action plan to track the progress that you make.
A	Attainable	You must be able to reach your goal. Set goals that can be attained.	Don't set goals too high. You can't become a manager in one year.
R	Relevant	You must be able to get there with your qualifications and abilities. Ask: Achievable?	You cannot become something if you are not qualified in that field.
T	Time-Bound	Set dates and a time schedule. Ask: When? By when?	Check whether you are in your time frame you set.

Worksheet 2

Use the information given from the example above and formulate your personal goals for your life.
[10]

S	Write down your goals and give details.	
M	Measure your progress.	
A	Must be able to reach your goals. It must not be too hard to get there.	
R	Must be able to get there with my qualifications.	
T	Set goals with dates and time schedules.	

Lifestyle choices

The way we live our lives can be extended by making better decisions regarding our lives. By living healthier lives, we can live longer and be happier according to research. Things like your diet, exercise and drinking and smoking habits can have a huge impact on the lifestyle that you live.

HEALTHY LIFESTYLE INFOGRAPHICS ELEMENTS

SPORT

FULL SLEEP

HEALTH

RELAXATION

TRAVEL

ACTIVE LIFESTYLE

FRESH WATER & FOOD

GOOD MOOD & POSITIVE

NO SMOKE & ALCOHOL

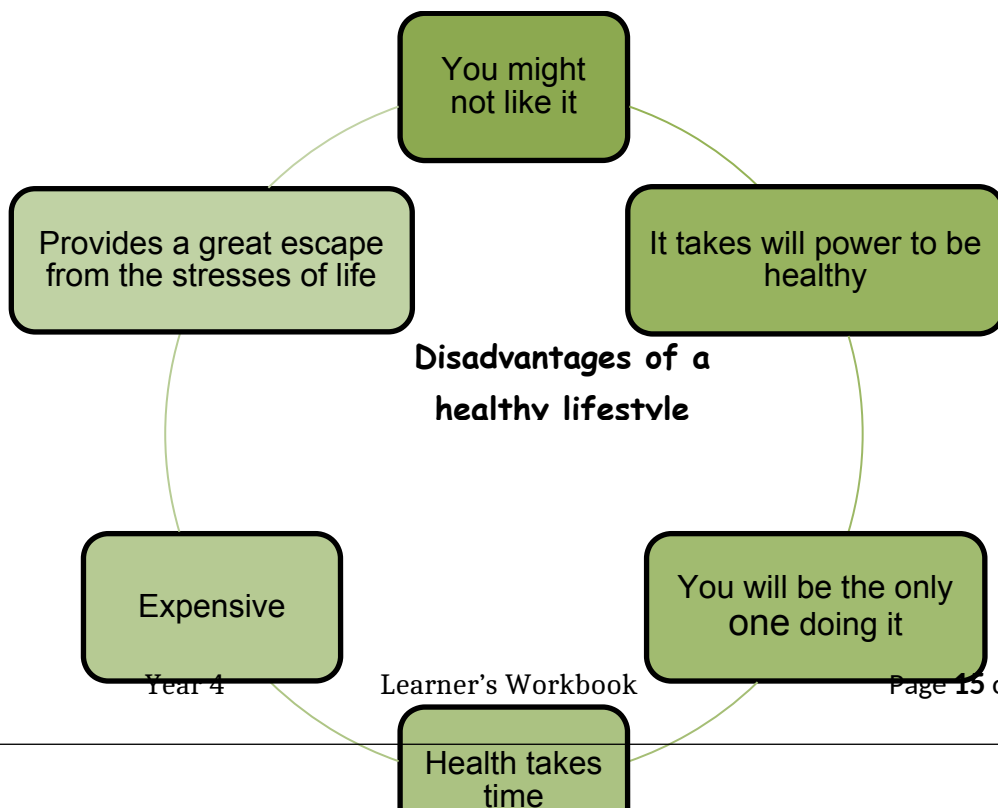

AVOID FATTY FOOD

Healthy lifestyle tips

1. Maintain a healthy diet
2. Stay hydrated
3. Give up smoking and limit the use of alcohol
4. Brush your teeth
5. Get enough sleep
6. Exercise 3-5 times a week
7. Practice self-care
8. Say no
9. Let go of negative thoughts
10. Use protection

Advantages and disadvantages of a healthy lifestyle

Advantages of a healthy lifestyle include disease prevention, prolonged life, increased energy, feeling good, improved looks and an escape from stress. The disadvantages are that it's not convenient, is more expensive, takes time, you'll be alone, it goes against your basic instincts and you won't enjoy it at times. Read more.

Weeks 3 - 4: Health, social and environmental responsibilities

Decision making about health and safety

Date: _____

Definition of HIV and AIDS

Acquired immunodeficiency syndrome (AIDS) is a chronic, potentially life-threatening condition caused by the human immunodeficiency virus (HIV). By damaging your immune system, HIV interferes with your body's ability to fight the organisms that cause disease. HIV is a sexually transmitted infection (STI).

The management of HIV and Aids.

The management of HIV/AIDS normally includes the use of multiple antiretroviral drugs in an attempt to control HIV infection.

You can manage HIV and AIDS through a certain diet. Eating a diet high in vegetables, fruits, whole grains, and legumes. Choosing lean, low-fat sources of protein. Limiting sweets, soft drinks, and foods with added sugar. Including proteins, carbohydrates, and a little good fat in all meals and snacks.

You can manage HIV and AIDS by having a positive attitude. If you spend most of your time thinking about being HIV positive, you might end up developing negative thoughts. As long as you know you are taking your medication and managing HIV, you are alright. Avoid thinking deeply about HIV. Find a hobby or anything to take your mind off the disease.

The prevention of HIV and AIDS

HIV is spread through semen, vaginal fluids, blood, and breast milk. Protect yourself by using condoms every time you have sex, and don't share needles with anyone. You can also ask your doctor about PREP — a daily pill that helps prevent **HIV**.

Worksheet 3

Answer the following questions.

[12]

3.1. What is HIV and what do the letters stand for? _____

3.2. What can the virus do to a person's immune system? _____

3.3. What is AIDS? What do these letters stand for? _____

3.4. What's the difference between being testing positive for HIV and having AIDS?

3.5. What treatments are available for HIV and AIDS? Is there a cure? _____

3.6. How do people get HIV? How can people protect themselves against getting HIV?

 Worksheet 4

[15]

4.1. What kinds of sex can transmit HIV?

- 4.1.1. oral
- 4.1.2. vaginal
- 4.1.3. anal
- 4.1.4. all of the above

4.2. HIV infects and damages:

- 4.2.1. basophils
- 4.2.2. red blood cells
- 4.2.3. CD4 cells
- 4.2.4. Platelets

4.3. Which of these things can transmit HIV?

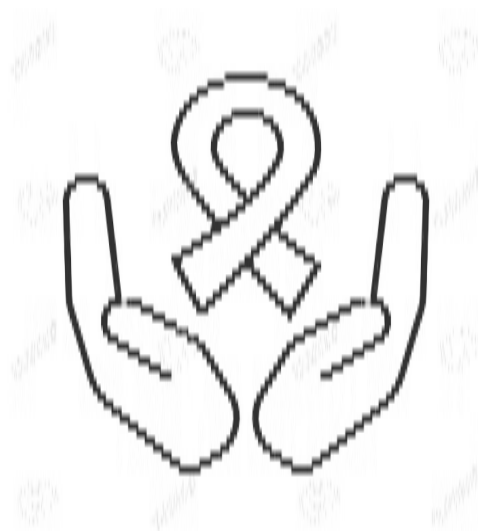

- 4.3.1. shaking hands or hugging
- 4.3.2. kissing
- 4.3.3. sharing needles
- 4.3.4. all of the above

4.4. An HIV test can be:

- 4.4.1. a blood test
- 4.4.2. a swab of the inside of the cheek
- 4.4.3. a urine sample and b.

5. When HIV develops into AIDS, a person's immune system can be overwhelmed. List 5 symptoms of AIDS.

- 5.1. _____
- 5.2. _____
- 5.3. _____
- 5.4. _____
- 5.5. _____

6. Answer the following questions either **True** or **False**.

6.1. When a pregnant woman has HIV, the baby always gets it, too. _____

6.2. People with AIDS are more likely to get infections and even cancer. _____

6.3. You can tell if people have HIV or AIDS by looking at them. _____

6.4. New drugs help people with HIV, but HIV-positive people can still develop AIDS or get deadly infections. _____

6.5. For people who have sex, condoms are the best protection against HIV. _____

Worksheet 5

Date: _____

4.1. Complete the diagram using yourself as an example.

👍	👎

Care and Support Activities

Essential Care

- ✓ Psychosocial support
- ✓ Treatment of common HIV-related infections
- ✓ Nutritional care
- ✓ Prevention of sexually transmitted infections
- ✓ Family planning
- ✓ Prevention of mother-to-child transmission
- ✓ Community activities that reduce the impact of HIV infection

Date: _____

Weeks 5 - 6: Constitutional Rights and responsibilities

Constitution values as stated in the SA Constitution

The Republic of South Africa is one, sovereign, democratic state founded on the following values:

- Human dignity, the achievement of equality and the advancement of human rights and freedoms.
- Non-racialism and non-sexism.
- Supremacy of the constitution and the rule of law.

Human dignity

An individual or group's sense of self-respect and self-worth, physical and psychological integrity and empowerment. Human dignity is inherent to every human being, inalienable and independent of the state.

8 Standards of Dignity and Respect

Honesty

We will work openly and honest with everybody. If mistakes are made you will be able to discuss what went wrong, an apology will be given where appropriate and you will be informed of any action.

Kindness

We will act professionally with everyone and treat you with courtesy, kindness and compassion.

Compassion

We will welcome you and create a safe, calm and clean environment.

Courtesy

We will ask the preferences of gender for your carer and this

Understanding

You will be listened to and support to enable you to express your needs and wishes.

Confidentiality

You will be asked before any of your information is shared with relatives, carers and friends.

Privacy

Your privacy and dignity will be maintained at all times, including for example – whilst being transferred through the hospital, during discussions, when you are being examined and treated.

Communication

We will ask you what you preferred to be called. We will introduce ourselves appropriately by name and job title/role both in person and on the telephone.

Equality

Equality means "the state of being equal." It's one of the ideals a democratic society, and so the fight to attain different kinds of equality, like **racial** equality, **gender** equality, **legal** equality, **natural** equality, **civil** equality, **political** equality, **social** equality, **economic** equality, **International** equality

Types of Equality

- **Equal Human Rights**
Social Equality, Gender Equality, Racial Equality, Religious Rights
- **Equality Of Income**
Affordability and Equal Buying Power, Labor Wage and Taxes
- **Political Equality**
One Man, One Vote
- **Equal Opportunity**
Equality of opportunity in jobs and education

Protected Characteristics under the Equality Act 2010

- Age
- Disability
- Gender reassignment
- Marriage and civil partnership
- Pregnancy & maternity
- Race
- Religion and/or belief
- Sex
- Sexual orientation

Freedom

Freedom, generally, is having the ability to act or change without constraint. Something is "free" if it can change easily and is not constrained in its present state. A person has the

Freedom of association

Freedom of belief

Freedom of the press

Freedom of speech

Freedom of expressing oneself

Freedom of religion

Freedom of bondage and slavery

Non-racialism

Non-racialism is an ideology rejecting racism and racialism while affirming liberal democratic ideals.

Non-sexism

An ideology rejecting sexism. The concept of sexism explains that prejudice and discrimination based on sex or gender, not biological inferiority, are the social barriers to women's and girls' success in various arenas.

Positive and negative role models

A good role model is someone who is always positive, calm, and confident in themselves. Everyone likes a person who is happy with their achievements, but continues to strive for bigger and better objectives

Positive role models

Positive role models influence our actions and motivate us to strive to uncover our true potentials and overcome our weakness. Having them pushes us to make the most of our life.

Negative role models

A negative role model is any person who influences others in a negative way. Negative role models can be public figures, such as celebrities, whose poor behaviour and decisions set a negative example for children.

Negative role model attributes

Personal characteristics

- Making derogatory comments about patients or fellow professionals
- Inappropriate humour directed at patients or colleagues
- Lack of empathy
- Unfriendliness
- Complaining
- Expressing anger or frustration

Clinical skill

- Lack of knowledge

Teaching abilities

- Forgetting names and faces
- Excessive criticism
- Frightening or humiliating students or trainees
- Promoting unnecessary competition between students

Worksheet 6

Date: _____

Answer the following questions

[15]

5.1. Discuss in your own words the following standards of dignity:

5.2. Name the different kinds of equality.

5.2.1. _____

5.2.2. _____

5.2.3. _____

5.2.4. _____

5.2.5. _____

5.2.6. _____

5.2.7. _____

5.2.8. _____

5.2.9. _____

5.3. What characteristics are protected by the Equality Act?

5.3.1. _____

5.3.2. _____

5.3.3. _____

5.3.4. _____

5.3.5. _____

5.3.6. _____

5.3.7. _____

5.3.8. _____

5.3.9. _____

1. Why is it so important that everyone no matter what race or gender is treated the same?

5.4. Match the correct description with the correct picture:

Freedom of association	
Freedom of belief	
Freedom of the press	
Freedom of speech	
Freedom of expressing oneself	
Freedom of bondage and slavery	
Freedom of religion	
Freedom of association	

Worksheet 7

6.1. What is a role model?

6.2. Who can be a role model?

6.3. Explain what you understanding is of the following qualities of a role model:

6.3.1. Successful:

6.3.2. Passionate:

6.3.3. Has values:

6.3.4. Committed:

6.3.5. Aspirational:

6.4. Which of the following attributes are **Positive** and which are **Negative**?

Tick the correct box.

Attributes	Positive	Negative	Attributes	Positive	Negative
Generous			Intelligent		
Powerful			Un co-operative		
Unfriendly			Bitterness		
Lack of empathy			Brave		
Fighter			Uncompromising		
Outspoken			Expresses anger and frustration		
Ambitious			Practical		
Opinionated			Determined		
Unfriendliness			Reliable		
Talented			Making derogatory comments		

6.5. Give an example of a positive and a negative role model in your life.

6.6. Explain what you understand surrounding the concept of freedom.

Weeks 7 - 8: World of Work

Plan for own life-long learning

Lifelong learning is the "ongoing, voluntary, and self-motivated" pursuit of knowledge for either personal or professional reasons. Therefore, it not only enhances social inclusion, active citizenship, and personal development, but also self-sustainability, as well as competitiveness and employability.

Lifelong learners are motivated to learn and develop because they want to: it is a deliberate and voluntary act. Lifelong learning can enhance our understanding of the world around us, provide us with more and better opportunities and improve our quality of life.

Benefits of life-long learning

- Improve your self-confidence.
- Keep your brain healthy and your mind sharp.
- Learn practical life skills.
- Model positive behaviour for your children.
- Learn for leisure.

shutterstock.com • 208952179

10 Ways to engage in life-long learning

- Read widely and often
- Keep smart company
- Teach others
- Keep a list of things you want to explore
- Start your own project
- Use a personal learning environment
- Experiment with new ways to learn
- Join a study group
- Find a job that encourages learning and collaboration
- Make it a priority

Worksheet 8

Research the cost of a course that you would like to study at an institution of your choice.

Institution: _____

Course: _____

Cost: _____

Duration of studies: _____

Worksheet 9

Answer the following questions.

(10)

8.1. How can you improve your self-confidence? _____

8.2. What do you have to do to keep your brain healthy and sharp? _____

8.3. Explain what you understand about the concept of lifelong learning? _____

GENERAL CERTIFICATE IN EDUCATION: TECHNICAL OCCUPATIONAL

PERSONAL AND SOCIAL WELLBEING LEARNER WORKBOOK

YEAR 4 – TERM 2

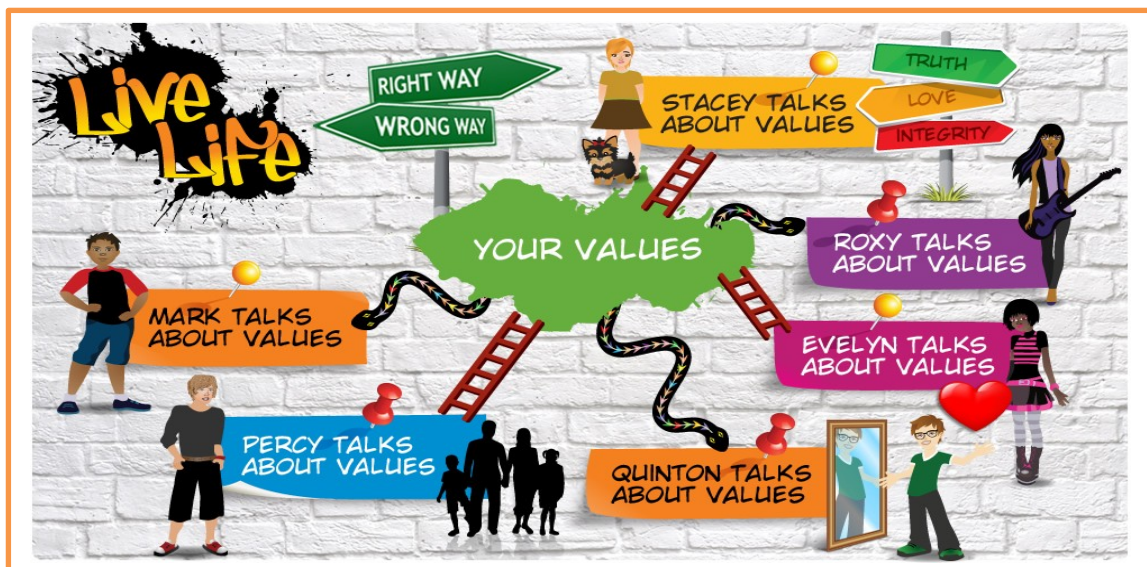

NAME OF SCHOOL: _____

NAME OF LEARNER: _____

CLASS: _____

TEACHER: _____

<https://www.mycyberwall.co.za>

Year 4 Term 2 Overview

WEEK	TOPIC	CONTENT The learner is able to:	Techniques, activities, resources and process notes
1 - 2	World of work Time- management skills: Accountability in carrying out responsibilities	- Discuss and explain time management relating to a task - Prioritise tasks and activities	Techniques: Discussion, Scenario, Case study Activities Role play to practice skills of assertiveness, confidence etc. Discussion on value of time-management and strategies. Learners suggest improvements for time-management in response to a given scenario. Discussion on effective and efficient use of time. Draw up a personal daily and weekly timetable with regards to a case study. Resource Textbook, Scenario, Case study
3 - 4	Development of self Sexual health	- Discuss sexual behaviour and sexual health - Understand and explain risk factors leading to unhealthy sexual behaviour - Discuss unwanted pregnancy as results of unhealthy sexual behaviour, sexually transmitted infections (STIs), HIV and AIDS	Techniques: Group discussion, Group work, Questions and Answers Activities Learners answer statements pertaining to their own sexual health. Group discussion about unhealthy sexual behaviour and the possible reasons behind it. Discussion on the risk factors and results of unhealthy sexual behaviour. Group activity to work out strategies to deal with unhealthy sexual behaviour with regard to given scenarios. Resource: Textbooks, Life Skills books, Magazines, Newspapers
5 - 6	Health, social and environmental responsibilities HIV and AIDS education	- Explain HIV/AIDS - Take responsibility for own decisions - Manage peer pressure - Adverse consequences and implications of teenage pregnancy for teenage parent(s) and the children born to teenagers - Know the children's rights i.e. Sexual offences Act	Techniques Demonstration, Explaining, Questions and Answers Activities Learners discuss questions on the adverse consequences and implications of teenage pregnancy. Discussion on where to find help for teenage pregnancy. Completion of a table of community structures in their area that offer help. Know the constitutional rights in term of sexuality. Resource: SA Constitution, Textbook
7 - 8	Constitutional rights and responsibilities Issues relating to citizen's rights and responsibility	- Respect others' rights: people living with different disabilities - Respect others' rights: people living with HIV and AIDS	Techniques: Discussion Activities Discuss how rights of people with disability and those affected by HIV/AIDS are violated. Learners discuss how people with different disabilities lives are affected by their disability and how learners' school is equipped for people with disability. Resource: Internet, Magazines, Textbook
9-10	Formal assessment		
Activity 1 Controlled test (must include all topics covered in Term 1 and 2)			

Weeks 1- 2: World of Work

COVID-19 Awareness

What Is Coronavirus (COVID-19)?

At the end of 2019, a new type of coronavirus began making people sick with flu-like symptoms. The illness is called coronavirus disease-19 — COVID-19, for short. The virus spreads easily and has now affected people in many countries.

What Are the Signs & Symptoms of Coronavirus (COVID-19)?

COVID-19 causes a [fever](#), [cough](#), and trouble breathing. Some people might have:

- a [sore throat](#)
- chills
- repeated shaking with chills
- muscle pain
- [headache](#)
- a loss of taste or smell

The virus can be more serious in some people.

How Does Coronavirus (COVID-19) Spread?

People can catch coronavirus from others who have the [virus](#). This happens when an infected person sneezes or coughs, sending tiny droplets into the air. These can land in the nose, mouth, or eyes of someone nearby, or be breathed in.

People also can get infected if they touch an infected droplet on a surface and then touch their own nose, mouth, or eyes.

Experts are looking at whether the virus can spread through stool (poop).

Is Coronavirus (COVID-19) Dangerous to Children?

Experts are still learning about COVID-19. There are far fewer cases of the virus reported in children. Most of them caught the infection from someone they lived with or a family member. The virus seems to usually cause a milder infection in children than in adults or older people. But there have been cases of kids developing more serious symptoms, sometimes several weeks after being infected with the virus.

Call your doctor [if your child](#) or someone in your family has a fever, cough, belly pain, vomiting, diarrhoea, rash, dizziness, or is just not feeling well. Tell the doctor if they have been near someone with COVID-19 or lived in or travelled to an area where lots of people have the coronavirus.

Make sure your children have all their [vaccinations](#). Protect them against illnesses like [measles](#) and the [flu](#). Kids who have another infection may have a harder time getting better if they do get COVID-19.

How Is Coronavirus (COVID-19) Treated?

Most people with COVID-19, including children, do not have serious problems. They usually get better with rest and fluids. But it is important to keep kids with COVID-19 [away from others](#) who may have a harder time with the virus.

People who are very ill get care in a hospital with breathing help, [IV](#) fluids, and other treatments.

How Can I Protect Myself From Coronavirus (COVID-19)?

To protect yourself and your family:

- [Keep your family home](#) and away from others as much as possible.
- Avoid other people, especially those who are sick, and busy places until the outbreak is under control. Remember, COVID-19 can spread before a person has symptoms and even when someone has no symptoms.
- If you need to go out, cloth face masks on adults and kids over 2 years old can help slow the spread of the virus:
 - Do not use a face mask meant for a health care worker because they're needed in hospitals and doctor's offices.
 - To see how to put on and remove masks, clean them, or make your own cloth mask, check the [CDC's guide](#).
- Try to stay at least 6 feet (2 meters) away from other people.
- [Wash your hands](#) well and often. Wash for at least 20 seconds with soap and water or use hand sanitizer with at least 60% alcohol. Teach your kids to do the same.
- Try not to touch your eyes, nose, or mouth.
- Use a household cleaner or wipe to clean and disinfect surfaces and objects that people touch a lot.
- Follow recommendations from your local health authority, especially if there are people with coronavirus in your area.

Experts around the world are studying and tracking COVID-19 and are learning how to keep it from spreading.

Worksheet 10

Answer the following questions based on the above written text on the COVID-19 Virus.

1. Explain in your own words what you think is the COVID-19 (Corona Virus)

_____ (3)

2. Name 5 Symptoms of the COVID-19 Virus

_____ (5)

3. Can the COVID-19 Virus be treated? Give a reason for your answer.

_____ (2)

4. List 6 different ways how to protect yourself from getting infected with the Virus.

_____ (6)

5. Explain why the Virus gets spread so easily all over the world.

_____ (4)

Total: 20

TIME MANAGEMENT SKILLS

DATE: _____

TIME MANAGEMENT SKILLS: ACCOUNTABILITY IN CARRYING OUT RESPONSIBILITIES

What is Time Management?

- o It is the process of planning of the amount of time you spend on an activity.
- o It is your ability to identify different priorities and decide when to do them and how much time is needed for each task.

- o The key to good time management is to be able to identify priorities and when they must be done.

If you manage your time well:

- o You will:
 - o Be able to balance your school work with all the other activities that you need to do.
 - o Have enough resting time and get enough sleep on daily basis
 - o Be able to complete your schoolwork on time
 - o Meet all your deadlines

Worksheet 11: Time Management Skills

In your groups, develop a role play on someone who is disorganised in the morning when he/she has to get ready for school. You must portray various problems this learner will encounter because of his/her lack of planning and time management skills.

How can I organise my work?

- o By using a diary or a year / day planner
- o Your diary needs to be checked every morning to see which activities needs to be done, pack the correct books
- o You must always have your diary with you
- o Write your daily homework as it is given by the educator`
- o Work out how much time you have
- o List all the tasks that needs to be done
- o Work out priorities
- o Decide on how long you going to spend on each task

- o Don't try to complete everything at once, set mini goals
- o Do not neglect any subject
- o Stick to your time table or work schedule no matter what.

How to use time effectively

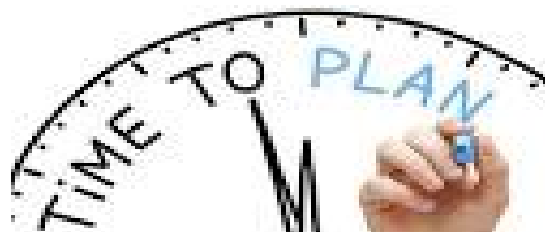

You need to know what is important so that you can plan and be able to use your time effectively

1. Consider the things that have to be done like sleeping and eating
2. Now think of all the activities that you want to do, sports, studying

Worksheet 12: Time Management Skills - : Daily Planner

Complete the daily activity plan below. Decide whether it will work for you in the future or not.

DAILY PLANNER

DATE: _____

What subject do I have today?

_____	_____
_____	_____
_____	_____
_____	_____

Homework!!! (Make a tick next it when you are done)

1. _____ ☐
2. _____ ☐
3. _____ ☐

What plans do I have after school today?

1. _____
2. _____
3. _____

Any test, assessments or projects for today? YES NO

Reminder!!!!

Did I write any test today!!!!

How do I think I did?

Worksheet 13: Creating your own time schedule

Create your own daily time schedule on the template below:

- o Things to consider when creating a time schedule
 - o Plan carefully
 - o Be realistic
 - o When do you study the best (morning, noon or at night) chose the best time
 - o Study for 45- 90 minutes taking 10 – 15 minutes breaks in between
 - o Draw up your own time schedule

[illegible]

	Criteria	Mark allocation
1	Is there evidence that the learner planned carefully?	/3
2	Is this plan realistic?	/4
3	Are the times allocated for activities realistic?	/4
4	Has the learner allocated the recommended study time?	/4
	Total	/15

Worksheet 14: Schedule

Reconsider, rethink, review and reassess your schedule after a week.

- Are there any changes you would like to make?
- Is the time allocated for homework or studying enough?
- Do you need to cut down on some of your extra-curricular activities?
- Are you using your time effectively?

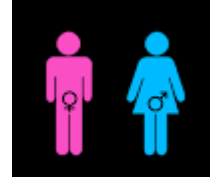

Weeks 3 – 4 Development of Self

Sexual health

DATE: _____

Sexual behaviour and sexual health

Risk factors leading to unhealthy sexual behaviour

- ◊ Sexuality expresses who you are through your thoughts, attitude, values, beliefs, roles, relationships and activities.

desires,

Worksheet 15: SEXUALITY

In groups of 4, discuss the following concepts, and write down the definition of each one:

- Biological sex :

_____(2)

- Gender identity:

_____(2)

- Social gender roles:

_____(3)

- Sexual orientation:

_____(3)

TOTAL: [10]

Healthy and unhealthy sexual behaviour

Healthy sexual behaviour is behaviour that does not harm you or others.

✗ Unhealthy sexual behaviour has to do with:

- having sex when you are too young,
- not ready for the commitments that sex brings,
- having unprotected sex,
- having sex for the wrong reasons or
- being forced to have sex
- casual sex
- Multiple partners
- The risk factors can increase the chances of developing a problem

Worksheet 16: UNHEALTHY SEXUAL RELATIONSHIPS

Discuss possible reasons for engaging in unhealthy sexual relationships and decide whether one should engage in an unhealthy sexual relationship. List and explain 5 unhealthy sexual relationships

1. _____

_____(2)
2. _____

_____(2)
3. _____

_____(2)
4. _____

_____(2)

5. _____

_____(2)

TOTAL: [10]

Risk factors

Many factors can be considered to play a role in your decision to engage in a sexual relationship. These factors can influence your decision negatively or positively.

FACTORS INFLUENCING SEXUAL BEHAVIOUR

The following risk factors may influence you to engage in an unhealthy sexual relationship?

Individual factors

- o Low self esteem
- o Need to fit in with friends
- o Not committed to school
- o No vision for the future
- o Depression or bipolar disease
- o Involved in drinking, drugs, smoking
- o There is a history of sexual abuse
- o sexting

Family factors

- o Poor communication between parents and children
- o Family is not supportive
- o Parents take part in risky behaviour

Environmental factors

- o Negative school environment
- o Negative relationship with adults in the community such as educators
- o Poor neighbourhood

 Worksheet 17: FACTORS INFLUENCING SEXUAL BEHAVIOUR

Explain how these factors can influence your personal behaviour

Family

(3)

Friends

(3)

Community

(3)

Name 2 strategies of dealing with unhealthy sexual behaviour.

(3)

TOTAL: [12]

Unwanted results of unhealthy sexual behaviour

Teenage pregnancy

Sexually active teenagers that do not use contraceptives have a 90% chance of falling pregnant. Taking care of a baby while you still young can affect you in many ways: education, work opportunities, friendship and your relationship with family

Sexual transmitted infections (STIs)

STIs are infections that spread from person to person who are sexually active.

STIs are serious health problems and not treated can cause serious damage and even death. The following illness may be contracted:

- o Bacteria such as syphilis, gonorrhoea and chlamydia
- o Viruses such as HIV, Hepatitis B, Herpes, Simplex Human papilloma virus
- o Protozoa trichomonas (bad smelling vaginal discharge) and
- o Arthropods scabies

HIV/AIDS

- o As soon as HIV enters your body it attacks the immune system.
- o Antibodies are the soldiers in your body that fight off infections
- o Your immune system becomes so weak that it cannot fight of infection.
- o HIV then turns to AIDS
- o HIV can be transmitted from an infected person to another person through direct contacted with their blood, semen, vaginal fluids and breast milk, sharing needles.
- o It is dangerous because one person can have it for a long time without even knowing it. A HIV+ person can spread the virus without knowing.

Results of unhealthy sexual behaviour

Unhealthy sexual behaviour may result in a low self-image and emotional scars. Once a teenager takes part in a sexual act that they are not ready for they tend to feel ashamed and become anxious about pregnancy or STIs. If your self-esteem is low you will keep making wrong decision, this will break down your self-image even more because you keep hurting yourself emotionally. The way to heal emotional scars is to be kind to yourself, love and realise that time heals.

Worksheet 18: RISK FACTORS

In groups of 6

Create a pamphlet illustrating the risk factors as well as the emotional and physical effects of having a child at a young age can have on you. Mention 5 risk factors, 2 emotional factors and 3 physical effects. The pamphlet must be eye catching, easy and clearly written and it must be informative

Factors that influence personal behaviour including family, friends, peers and community norms

In order to live a healthy life, you will always require support and information from close friends, family, community and norms. Your behaviour can be influenced by people around you.

Family

They teach you about your morals and values. Family values shape your behaviour from the word go. Your family is more important to you more than anybody else

Friends and peers

It is important to choose your friends wisely because when you start spending more time with them their character may rub off on you. You can even feel that you trust them and trust them more than your family.

Community

The norms that are raised with in your family and community moulds your behaviour. What is acceptable in your community affect you as well as how you behave.

Worksheet 19: Discuss how your family, friends, peers and the community affect or influence the way in which you behave

Is it in a positive or negative way?

Strategies for dealing with unhealthy sexual behaviour

- o Abstinence
- o Change of behaviour, delay having sex until you are emotionally and physically ready
- o Correct and consistent use of condoms
- o Respect for each other and the choices that they make

Protective factors and where to find help and support: Community structures that offer protection from or resilience against high risk behaviour

There are places where we can turn to, that will assist and safeguard ourselves against risky sexual behaviours or that provides protection if we become involved in unhealthy sexual behaviour. Information is available to us in number of ways such as:

- Pamphlets and booklets
- Media
- Posters
- Helplines
- Internet websites
- Talks by health professionals

Useful numbers

LoveLife – 0800 121 900

Childline - 08000 55555

Suicide line – 0800 567 567

Marie stopes – 0800 117 785

Worksheet 20: Where to find help

What services do these organisation offer to people? Check out their website for the information or go to your local clinic to find out more about them. Name at least 2 services provided by each of the organisations.

CHILDLINE (www.childlinesa.org.za)

(2)

SAVF (www.savf.co.za)

(2)

LOVE LIFE (www.lovelife.org.za)

(2)

MARISTOPES (www.maristopes.org.co.za)

(2)

TOTAL: [10]

Adverse consequences and implications of teenage pregnancy

- o The cost of raising a small baby is very high. The social grant doesn't cover all the needs of the baby.
- o Financial problems
- o Emotional problems
- o Neglect
- o Low educational level
- o The teenage mother may claim maintenance money from the father. This can involve court action
- o Future plans and dreams change once you are a teenage mother

ENRICHMENT ACTIVITY

Worksheet 21: CONSEQUENCES FOR TEENAGE PARENTS AND FOR THE CHILDREN BORN TO TEENAGERS

In groups of 6

Create a collage that shows the consequences of teenage pregnancies. Your collage must be informative. You can use pictures, wording and short stories and these consequences._

Weeks 5 - 6: Health, Social and Environmental Responsibilities

HIV and AIDS

DATE: _____

HIV/AIDS at a Glance

- ☐ HIV is the infection that causes AIDS.
- ☐ HIV has few or no symptoms for up to 10 years or more before symptoms of AIDS develop.
- ☐ There is no cure for HIV/AIDS, but treatment is available.
- ☐ HIV can be spread during sex play.
- ☐ Latex and female condoms offer very good protection against HIV.

What Is HIV/AIDS?

You may have heard about HIV and AIDS, but many people don't know the basic facts about them.

- ☐ HIV causes AIDS.
- ☐ HIV stands for human immunodeficiency virus.
- ☐ It breaks down the immune system - our body's protection against disease.
- ☐ HIV causes people to become sick with infections that normally wouldn't affect them.
- ☐ AIDS is short for acquired immune deficiency syndrome.

What Are the Symptoms of HIV?

- ☐ Some people develop HIV symptoms shortly after being infected.
- ☐ But it usually takes more than 10 years.
- ☐ There are several stages of HIV disease.
- ☐ The first HIV symptoms may include swollen glands in the throat, armpit, or groin.
- ☐ Other early HIV symptoms include slight fever, headaches, fatigue, and muscle aches. These symptoms may last for only a few weeks.
- ☐ Then there are usually no HIV symptoms for many years. That is why it can be hard to know if you have HIV.

What are the Symptoms of AIDS

AIDS symptoms appear in the most advanced stage of HIV disease. In addition to a badly damaged immune system, a person with AIDS may also have:

- ▣ thrush — a thick, whitish coating of the tongue or mouth that is caused by a yeast infection and sometimes accompanied by a sore throat
- ▣ severe or recurring vaginal yeast infections
- ▣ chronic pelvic inflammatory disease
- ▣ severe and frequent infections
- ▣ periods of extreme and unexplained tiredness that may be combined with headaches, lightheadedness, and/or dizziness
- ▣ quick loss of more than 10 pounds of weight that is not due to increased physical exercise or dieting
- ▣ bruising more easily than normal
- ▣ long periods of frequent diarrhea
- ▣ frequent fevers and/or night sweats
- ▣ swelling or hardening of glands located in the throat, armpit, or groin
- ▣ periods of persistent, deep, dry coughing
- ▣ increasing shortness of breath
- ▣ the appearance of discolored or purplish growths on the skin or inside the mouth
- ▣ unexplained bleeding from growths on the skin, from the mouth, nose, anus, or vagina, or from any opening in the body
- ▣ frequent or unusual skin rashes
- ▣ severe numbness or pain in the hands or feet, the loss of muscle control and reflex, paralysis, or loss of muscular strength
- ▣ confusion, personality change, or decreased mental abilities

PREVENTION AND SAFETY ISSUES RELATING TO HIV/ AIDS

Write next to each statement whether it is symptom of HIV or AIDS:

<u>Number</u>	<u>Statement</u>	<u>Answer</u>
1	Unusual skin rashes	
2	Symptoms appear shortly after infection	
3	Swollen glands	
4	Purplish growth on skin	
5	Personality change	
6	Night sweats	
7	Slight fever and headaches	
8	Loss of muscle control	
9	Unexplained bleeding from mouth	
10	Takes more than 10 years	
	TOTAL	10

 Worksheet 23: SOUTH AFRICAN CAMPAIGNS

Read the following passage:

There are many different campaigns that are run in South Africa to both prevent and treat HIV/AIDS. Read about some of these different campaigns and the effect that they have had.

- 'The Soul City Project', which was started in 1994 and educated people about AIDS through radio, print, and television, using dramas and soap operas to promote its message.
- The 'Beyond Awareness' campaign, which ran between 1998 and 2000 and concentrated on informing young people about AIDS through the media.
- The 'Khomani' ('caring together') campaign, run by the Aids Communication Team (ACT), a group that was set up by the government in 2001. The Khomani campaign has used the mass media and celebrity endorsement to get across HIV prevention messages, with a particular emphasis on encouraging HIV testing.

- ‘lovelife’, the most prominent HIV prevention campaign to be carried out in South Africa, which specifically targets young people and attempts to integrate HIV prevention messages into their culture. It was launched in 1999, with the aim of reducing rates of teenage pregnancy, HIV and sexually transmitted infections amongst young South Africans. The campaign attempts to market sexual responsibility through the media as if it were a brand. It also operates a network of telephone lines, clinics and youth centres that provide sexual health facilities, as well as an outreach service that travels to remote rural areas to reach young people who are not in the educational system.

Although these campaigns have probably saved many lives, the actual difference they have made in reducing the number of new HIV infections is very difficult to measure. The prevailing high rates of HIV found across South Africa suggest that either the message isn’t getting through to many people, or that people are receiving information but not acting upon it.

<http://www.avert.org/aidssouthafrica>

Now evaluate these campaigns by answering the questions below. There are no set answers so you will be given marks for the way in which you think about these questions and for your honest evaluation of the campaigns.

Questions:

1. What do you think of the ‘Soul City’ project? Has it made a difference in your life or the lives of your friends?

(2)

2. You probably have not heard of the “Beyond Awareness” campaign because it only ran between 1998 and 2000 – what do you think of the title? Do you think this would appeal to young people? Why do you say so?

(2)

3. What is your knowledge of the Khomanani campaign – do you think it has been successful?

(2)

4. Write your impressions of the lovelife campaign.

(2)

5. Why do you think that the messages of these campaigns are not getting through to young people and getting them to change their lifestyles?

Marking guide

Question number	Possible marks	Solution
1 – 5	10	There are no set answers to these questions as it is the learners' own opinion. Assess learners on their ability to evaluate the campaigns and to put their ideas in writing.

Factors that commonly have an adverse effect on Decision Making

Various factors influence how we behave and which decisions we take, these include:

- peer pressure
- fatigue
- time pressure
- anxiety
- getting back to base at all costs
- allowing a desire to please other people to eclipse other factors
- failure to recognise a new situation
- confused priorities

**Worksheet 24: PEER PRESSURE****Discussion about personal problems (Group activity)**

Divide into workgroups and discuss personal problems that you might experience.

- Do you sometimes have to choose between doing homework and hanging out with friends?
- Do you have to decide to keep a commitment to your family instead of accepting an invitation with friends?
- Do you have to choose between two favourite sports in order to allow more time for studying?
- Are you faced with choices about what to study when you leave school?
- Are you faced with peer pressure choices, such as drinking alcohol and taking drugs?

HIV/AIDS and Workplace Rules

No person with HIV or AIDS shall be unfairly discriminated against within the employment relationship or within any employment policies or practices, including with regard to:

- Recruitment procedures, advertising and selection criteria
- Appointments, and the appointment process, including job placement

- Job classification or grading
- Remuneration, employment benefits and terms and conditions of employment
- Employee assistance programmes
- Job assignments
- The workplace and facilities
- Occupational health and safety
- Training and development
- Performance evaluation systems
- Promotion, transfer and demotion
- Disciplinary measures short of dismissal
- Termination of services

Worksheet 25: CONCEPT MAP ABOUT HIV/AIDS

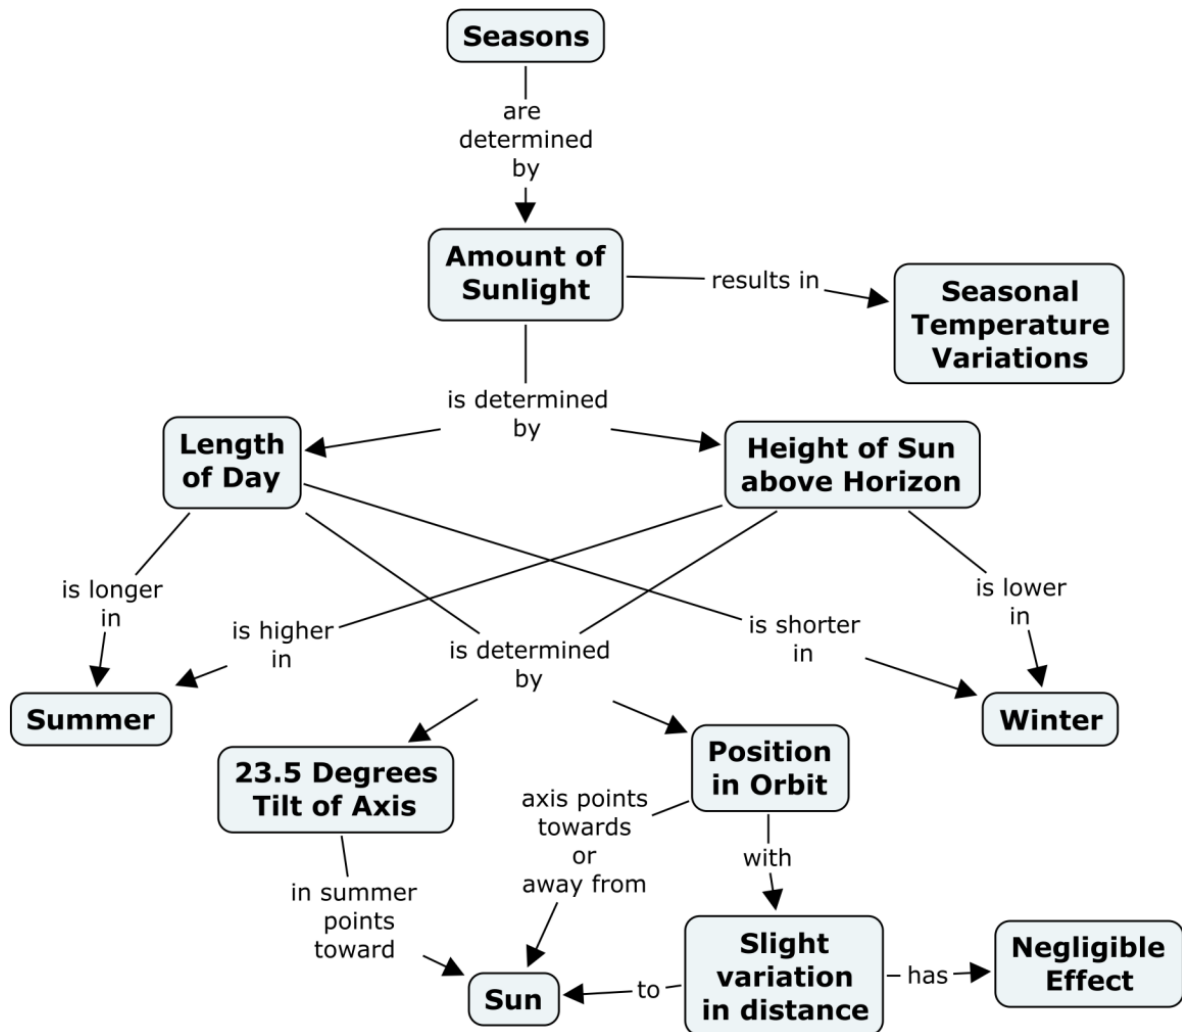

Draw up a concept map around the topic of HIV/AIDS. Use the following types of clauses to join your concepts: 'causes', 'can be prevented by', 'factors' and 'symptoms'. You will add to this list.

GUIDELINES:

Note that a concept map is different to a mind map. A mind map has one main idea or concept and ideas that link to it. A concept map is a list of concepts linked with a preposition. So, with a mind map you start with the main concept in the middle of the page and then throw out ideas. With a concept map, you can start anywhere on the page and move in either a linear or non-linear manner, as is shown in the example below.

Example below of a concept map about seasons. From:
<http://cmap.ihmc.us/Publications/ResearchPapers/TheoryCmaps/TheoryUnderlyingConceptMaps.htm>

When you draw your concept map you may use different coloured pencils to make your concept map more attractive. Your teacher will assess your concept map using the following rubric:

Category	Level 4 5 marks	Level 3 3, 4 marks	Level 2 2 marks	Level 1 1 mark
Required elements [5marks]	The concept map contains all the ideas mentioned.	The concept map contains most of the ideas mentioned.	The concept map contains some of the ideas mentioned.	The concept map shows none of the ideas mentioned.
Relevance [5 marks]	All the concepts are relevant.	Most of the concepts are relevant.	Some of the concepts are relevant.	The concepts do not relate to the topic.
Flow [5 marks]	The concepts flow very well.	There is a fair amount of flow.	The concepts flow a little.	There is no concept flow.
Attractiveness [5 marks]	Very attractive, colours used, very neat.	Fairly attractive in terms of design, layout and neatness.	Acceptably attractive.	Messy and poorly designed.
Total marks available: 20				

Weeks 7-8 : CONSTITUTIONAL RIGHTS AND RESPONSIBILITIES

SUB TOPIC: ISSUES RELATING TO CITIZEN'S RIGHTS AND RESPONSIBILITY

Name: _____

DATE: _____

THE RIGHT TO EDUCATION FOR ALL: DISABLED CHILDREN IN SOUTH AFRICA'S SCHOOL SYSTEM

SHONA GAZIDIS

The right to education for everyone, including people with disabilities, is protected by Section 29 of the South African Constitution. The Constitution also states that no-one may be unfairly discriminated against on the grounds of their disability. The Schools Act 1996 states that schools must admit children without 'discriminating in any way. The government must implement 'all reasonable measures to ensure that the physical facilities at public schools are accessible to disabled persons. South Africa was one of the first countries to ratify the United Nations Convention on the Rights of Persons with Disabilities in 2007, as well as being party to five international treaties and two African treaties protecting and guaranteeing children's rights. In 2006, the Education White Paper 6: Special Needs Education was introduced, which set out the government's strategy for inclusive education, with a goal of 500 mainstream schools being transformed to accommodate disabled learners within 20 years. However, the obligations set out in White Paper 6 are far from being fulfilled.

Despite the rights of disabled learners being protected in the Constitution, legislation and international law, there are still an estimated 50,000 children with disabilities excluded from education in South Africa today. The Legal Resources Centre (LRC) has undertaken litigation that has exposed downfalls in the provision of education of disabled learners.

info@lrc.org.za

Worksheet 26: Catering for learners with disabilities

In your groups, discuss how you could change your school to cater for learners with disabilities. Write down your ideas below on how to better equip your school to cater for these learners.

Worksheet 27: RIGHTS OF PEOPLE WITH DISABILITIES

You already know about the rights of citizens and personal choices.

Now read the passage below. It is by Nivashni Nair and appeared in The Times on Friday 17 July 2009.

Deaf Pupil's Court Battle

Sign language should be a matric subject

A deaf matric pupil at KwaZulu Natal's Westville Boys' High School will not know until a few days before the trial examinations whether he will be allowed to write a sign-language matric paper later this year.

Kyle Springate's efforts to get a matric exemption could be pushed further into limbo if the KwaZulu-Natal High Court, in Pietermaritzburg, reserves judgement in his legal battle with the Department of Education, which in March told him that sign language was not a matric subject.

Springate, 18, intends to study Fine Arts at university next year and had been unconcerned about obtaining his matric exemption.

But the Department of Education told him in March that sign language, which it had allowed him to write as an exam subject since Grade 10, would not be recognised as contributing to qualifying him for a matric exemption.

Supported by his mother, Paige McLennan-Smith, the Durban Legal Resources Centre, the Deaf Federation of SA and the KwaZulu-Natal Blind and Deaf Society, Kyle has taken the Education Department to court. He has applied for an order that would compel the Department to allow him to write his matric examination this year and to declare sign language a school subject.

He cannot write the matric exams because, unless sign language becomes an approved subject, he did not register for the minimum number of subjects.

Answer the questions below, using your own words as far as possible.

1. Who is Kyle Springate?

[2]

2. Who is he taking to court?

[1]

3. What is he asking the court to do?

[2]

4. Why does he need to get a matric exemption?

[2]

5. Why might he not be able to write matric this year?

[2]

6. When will he know whether he can write matric?

[2]

7. Besides Kyle's mother, who else is supporting him?

[2]

8. Why do you think these organisations are supporting him?

[2]

9. What would you do if you were the judge? Explain your reasoning.

[3]

Total marks: [20]

HUMAN RIGHTS AND HIV

- International human rights laws and treaties give every person the right to health and to access HIV and other healthcare services.
- Human rights violations in the context of HIV include the criminalisation and enactment of punitive laws that target people living with and most affected by HIV. It also includes stigma and discrimination in the workplace and in healthcare services, gender inequality, and the denial of access to HIV services.
- Human rights-based HIV programmes should be implemented to avoid inequalities or discrimination, and when countries fail to meet the human rights requirements for people living with HIV they should be held legally accountable.

HIV/AIDS AND HUMAN RIGHTS

The Constitution of the Republic of South Africa, 1996 is the supreme law of the country and it protects the rights of all people in South Africa. Chapter 2 of the Constitution contains the 27 rights that are collectively called the Bill of Rights and are inherent to all human beings. People living with HIV/AIDS and their families are entitled to full and equal enjoyment of all rights and freedoms in the Bill of Rights.

The right to have access to health care services which is guaranteed in Section 27 of the Constitution is but one of the basic human rights to which people living with HIV/AIDS are entitled.

People living with HIV/AIDS are often excluded from full participation in many areas of their lives due to prejudice, stigma and discrimination mainly with regards to:

- Lack of access to information,
- Unequal access to treatment,
- Workplace discrimination and
- Infringement of the right to privacy and dignity.

Website: www.sahrc.org.za

Worksheet 28: VIOLATIONS OF RIGHTS

In groups of 4 discuss how rights of people with disability and those affected by HIV/AIDS are violated. Give ideas on how these challenges can be addressed.

(3)

GENERAL CERTIFICATE IN EDUCATION:

TECHNICAL OCCUPATIONAL

PERSONAL AND SOCIAL WELLBEING LEARNER WORKBOOK

Year 4 Term 3
WORKBOOK

NAME OF SCHOOL: KWA-THEMA SKILLS SOS

NAME OF LEARNER: _____

CLASS: _____

Year 4 Term 3 Overview

WEEK	TOPIC	CONTENT The learner is able to:	Techniques, activities, resources and process notes
1 - 2	Development of self Challenging situations: how to deal with depression, grief, loss, trauma and crisis	- Explain how to deal with challenging situations eg. Depression, grief, loss, trauma and crisis - Know and understand depression and its causes and symptoms. - Understand the grieving process - Have knowledge of the 5 stages of the grieving process	Techniques: Case study, Observing Activities Case studies Write a helpful response to a letter about grieving. Stages: Denial, Anger, Bargaining, Depression, acceptance (DABDA) Resource: Textbooks, Magazines
3 – 4	Health, social and environmental responsibilities Health and safety issues related to violence	- Understand health and safety issues related to violence - Discuss the common acts of violence - Know the impact of violence on individual and community health and safety	Techniques: Discussion, Questions and Answers Activities Discuss common acts of violence related to the text as well as those they have witnessed. Discussion of a newspaper article. Discussion of the impact of violence. Resource: Newspapers, Textbooks, Magazines, Internet, Video Clips
5 – 6	Constitutional rights and responsibilities Population – why do people live where they do (South Africa)	- Understand population - Know why people live where they do in South Africa (climate, rainfall, job opportunities) - Define rural and urban settlements - Explain economic activities in rural and urban settlement	Techniques: Discussion, Questions and Answers, Statistics Activities Discussion on the definition of population. Defining of rural and urban settlements. Discussion on economic activities in rural and urban settlement. Resource: Pictures, Magazines, Newspaper articles, Social Sciences Textbooks, Atlas
7 – 8	World of work Careers and subject choices	- Have knowledge and understanding of careers and career choices and discuss the impact on career path - Compare interests and abilities related to each career category - Identify school subjects related to each career category	Techniques: Discussion, Listing Activities Identifying business people in the community Make a diagram about interests and abilities. Learners link interests and abilities with school subjects. Learners study a table of careers. They identify which careers they are interested in, what subjects are related to the career and whether their choice of career would suit their ability. Resource: Newspapers, Textbook, Resources on careers and career guidance and counseling
9-10	Formal assessment	The weeks allocated for formal assessment are integrated across the term.	
Activity 1 Written Task: Design, make a poster and write paragraphs on 2 different careers			

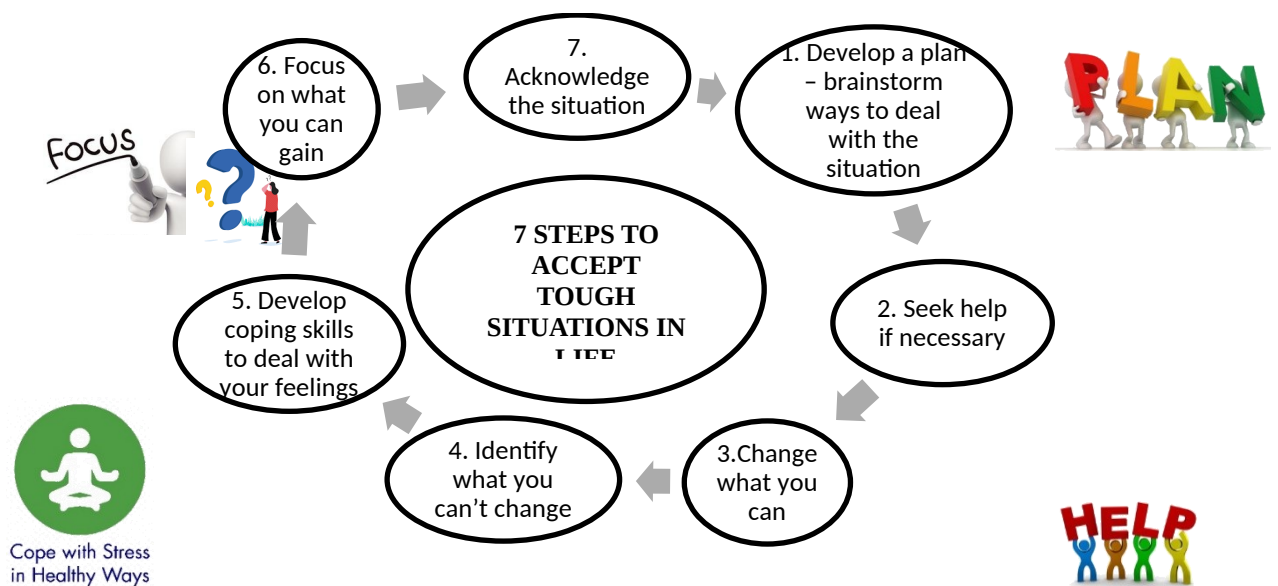

Weeks 1 - 2: DEVELOPMENT OF SELF

Date: _____

Challenging situations: how to deal with depression, grief, loss and trauma

Sometimes in life we experience difficult situations. Grief, trauma, depression, loss and crisis are among the few pains that we can experience on any given day. The key thing to maintain happiness is to overcome these pains when they surface in your life.

7 Steps to Accept Tough Situations in Life

Worksheet 29

Complete the diagram

I CANNOT CONTROL
(So, I can **LET GO** of these things)

I CAN CONTROL
(So, I will **FOCUS** on these things)

COPING SKILLS ASSESSMENT

Color in how often you use each of these positive or negative coping skills to cope with your feelings!

	ALWAYS	SOMETIMES	NEVER
USE MY WORDS TO HURT OTHER PEOPLE'S FEELINGS	☐	☐	☐
TAKE A "TIME-OUT" FROM THE SITUATION	☐	☐	☐

Depression

A mental health disorder characterised by persistently depressed mood or loss of interest in activities, causing significant impairment in daily life.

The persistent feeling of sadness or loss of interest that characterises major depression can lead to a range of behavioural and physical symptoms.

DEPRESSION

THE WARNING SIGNS

Causes of depression

Possible causes include a combination of **biological**, **psychological** and **social sources** of distress. Increasingly, research suggests that these factors may cause changes in brain function, including altered activity of certain neural circuits in the brain.

Problems with fitting into school, the breakdown of family structures, financial problems, unemployment, crime, bullying and the pressure to perform well at school are some of the situations that can trigger depression.

Worksheet 30

Date: _____

1. Complete the questions honestly.

1.1. Thinking about depression makes me feel _____

Because _____

1.2. The time in my life I felt the most down, alone of helpless have been:

1.3. When I feel very sad or empty inside, my first reaction is usually to:

1.4. I think this reaction is healthy/unhealthy (Circle one) Because:

1.5. If I've been feeling sad, or I've stopped enjoying the things that usually make me happy, for more than a few weeks, these are the things I can do to help myself:

1.6. The people I trust most to talk about depression are _____

Because: _____

2.

IF YOU REALLY KNOW ME ...

What would people find out about you if they really know you?

If you really took the time to get to know me you would know that ...

What keeps other people from getting to know these things about me?

What is grief?

Grief is the response to loss, particularly to the loss of someone or something that has died, to which a bond or affection was formed.

- Grief can occur from different types of loss.
- This includes death of a loved one, loss of a friendship, a break-up, a pet dying, or moving away from home

- Some common feelings experienced are sadness, anger, anxiety, shock, and loneliness.
- Some people might also experience a lot of guilt or self-blame depending on the situation

- Other reactions include confusion, forgetfulness and trouble concentrating.
- Your body might experience fatigue, aches and pains or headaches.
- It is important to take care of your physical health while you are coping with grief.
- Try to sleep well, exercise and eat healthy food

- Common stages of grieving people experience are: denial, anger, bargaining, depression and acceptance.
- These stages can come in any order and last for different lengths of time.

- There is no time limit on grieving.
- Everyone goes through this process in their own way. Make sure you take the time you need.
- If you have trouble coping on your own, it might help to speak to someone.

- As you are grieving it is important to find healthy ways to cope.
- Using coping skills can help you get to the point of acceptance.

Worksheet 31

Date: _____

1. Find the answers and place them in the right column:

Types of loss	Feelings experienced	Reactions	Stages of grieving

2. What must you keep in mind when you are grieving?

- 2.1. _____
- 2.2. _____
- 2.3. _____
- 2.4. _____
- 2.5. _____

My Loved One

Use this worksheet to share more about a loved one that you've lost.

_____ was a very _____ and _____
person. The thing that I miss most about them is _____

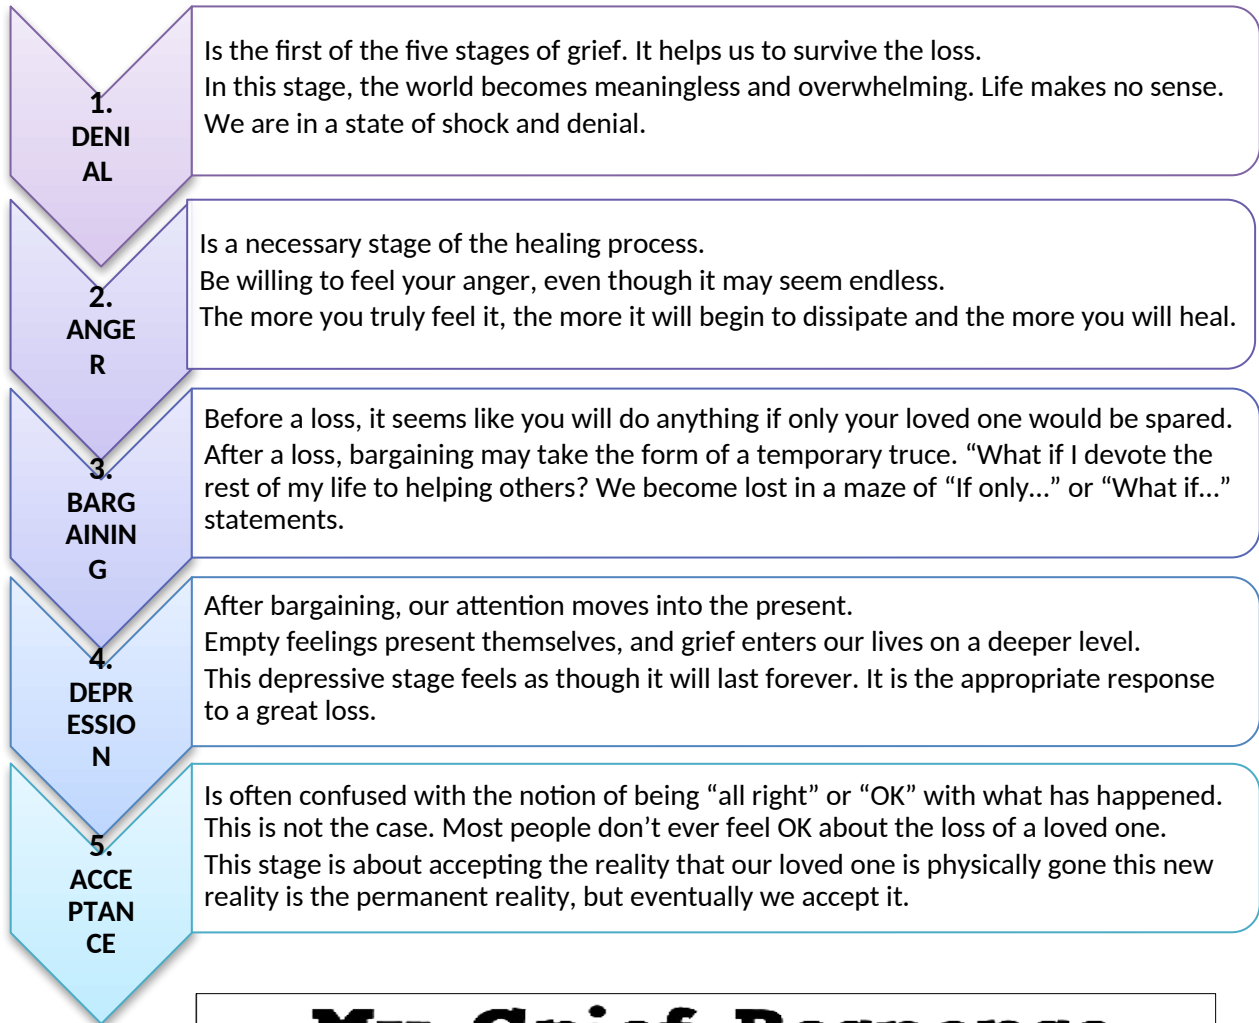

My favorite memory with them is when _____

If I could say something to them right now, I would tell them: " _____

If they could see me right now, they would tell me to _____

When I start to miss this person, I will _____

Stages of grief

My Grief Response

Which of these responses are you experiencing since losing a loved one?

- ☐ Change in appetite
- ☐ Tightness in chest
- ☐ Anxiety or Fear
- ☐ Difficulty sleeping
- ☐ Unmotivated
- ☐ Crying
- ☐ Mood swings
- ☐ Social Withdrawal or Isolation
- ☐ Reckless behavior
- ☐ Blaming self
- ☐ Poor concentration
- ☐ Anger/Irritability
- ☐ Racing thoughts
- ☐ Loneliness
- ☐ Relief or Happiness
- ☐ Sadness/Depression
- ☐ Dreams about deceased
- ☐ Confusion
- ☐ Low energy/fatigue
- ☐ Shock
- ☐ Numbness
- ☐ Questioning beliefs
- ☐ Fear of Death

What are helpful ways of coping?

What do you need from others?

WEEKS 3 -4: Health, social and environmental responsibilities

Date: _____

Health and safety issues related to violence

All violence is harmful to individuals and the community. It creates feelings of **mistrust**, **fear**, **anger** and **depression**.

It is important to understand why some people commit acts of violence so that we can protect ourselves and prevent further acts of violence.

We need to work towards a society that is free from violence.

Types of violence/abuse

Domestic violence:

- ✓ Most common cause of injury in woman aged 18 – 44
- ✓ Associated with:
 - Headaches
 - Chronic pain
 - Heart cramps and chest pain
 - Sexually transmitted disease/HIV
 - Stress and sleeplessness
 - Chronic tummy aches
- ✓ Mental health problems:
 - Severe depression
 - Anxiety disorders
 - Post-traumatic stress disorder
 - Substance abuse
- ✓ Suicide attempts

- ✓ **Associated with:**
 - Embarrass you with bad names and put-downs
 - Look at you or act in ways that scares you
 - Control what you do and where you go
 - Stop you from seeing or talking to friends and family.
 - Take your money, and make you ask for money.
 - Make all the decisions.
 - Tell you, you are a bad parent and threaten to take away your children.
 - Shove, slap or hit you.
 - Force you to drop charges.
 - Threaten to commit suicide.
 - Threaten to kill you.
 - Act like it is your fault or denies doing it.
 - Destroys your property and threaten to kill your pets.
 - Intimidate you with guns, knives or other weapons.

Child Abuse:

✓ Physical Signs

- Unexplained burns, cuts, bruises or welts in the shape of an object
- Bite marks
- Anti-social behaviour
- Problems in school
- Fear of adults

✓ Emotional signs

- Apathy
- Depression
- Hostility or stress
- Lack of concentration
- Eating disorders

✓ Sexual Signs

- Inappropriate interest or knowledge of sexual acts
- Nightmares and bed wetting
- Drastic changes in appetite
- Over compliance or excessive aggression
- Fear of a particular person or family member

✓ Signs of Neglect

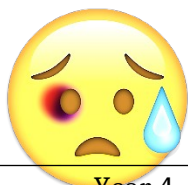

- Unsuitable clothing for weather
- Dirty or unbathed
- Extreme hunger
- Apparent lack of supervision

Physical abuse

✓ What is physical abuse?

- Physical abuse is a physical injury inflicted on a child that is not an accident
- Includes any non-accidental physical injury caused by the child's parent or a non-parental caregiver.
- While the injury is not an accident, neither is it necessarily the intent of the child's parent or caregiver to injure the child
- It may include injuries sustained from being burned, beaten, kicked, punched, bitten, or hit, or from other types of physical attack

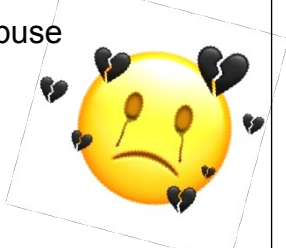

✓ Signs of physical abuse:

- Adult / human bite marks, missing clumps of hair
- Unexplained bruises, welts, loop marks
- Unexplained burns
- Unexplained fractures. Skin lacerations, punctures or abrasions
- Swollen lips / chipped teeth
- Linear / parallel marks on cheeks and temple area
- Crescent-shaped bruising
- Puncture wounds
- Bruising behind the ears
- Head injuries
- Has fading bruises or other marks
- Seems frightened of the parents and doesn't want to go home

	○ Shrinks at the approach of adults ○ Abuses pets or animals ○
--	--

--	--

Sexual Abuse:

✓ Physical indicators ○ Soreness, bleeding, itching in the genital or anal area. ○ STI's ○ Pregnancy ○ Genital injury. ○ Eating disorders. ○ Stomach pains or headaches ○ Pain or urination ○ Bruises on inner thighs or buttocks	✓ Behavioural Indicators: ○ Inappropriate language, sexual knowledge for age group ○ Chronic depression/low self-esteem ○ Inappropriate sexual behaviour ○ Substance/drug abuse ○ Self-harm 
---	--

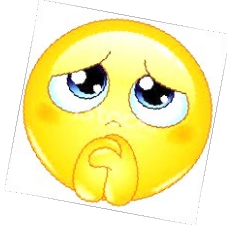

Emotional abuse

✓ What is emotional abuse? ○ It is a form of violence. ○ It's an improper, and unhealthy way to interact with other people ○ It's a problem that involves two or more people ○ It can be prevented and/or solved ○ In some countries, it is considered a crime and it is punished by the law. 	✓ Types of behaviour: ○ Attacks on personal character ○ Blame and accusations ○ Shame and judging ○ Sarcasm and twisting what you say ○ Rewriting history ○ Playing the victim ○ Manipulation, control and coercion ○ Unpredictable explosions ○ Criticism that is harsh and undeserved ○ Swearing ○ Intimidation
--	--

Gender-based violence

✓ Types of Gender Based Violence ○ Intimate partner violence (physical, sexual, psychological, economic) ○ Sexual coercion ○ Rape ○ Trafficking ○ Rape in conflict situations ○ Acid throwing	✓ Causes of Gender Base Violence ○ Lack of gender equality ○ Poverty ○ Low educational level ○ Lack of awareness and knowledge about rights ○ Woman's low position ○ Polygamy
---	---

- Female genital mutilation
- Honour killings
- Dowry deaths

- Dowry
- Fatwa or religious misinterpretation
- Moral degradation
- Weakness of Law
- Economic dependence

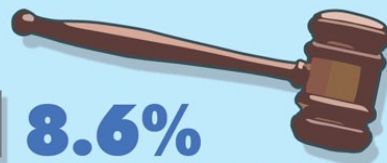

Emotional impact of rape and gender-based violence

- ✓ The trauma of rape and gender-based violence leaves many men and women damaged for life.
- ✓ Rape is not about sexual desire it is about causing harm.
- ✓ This violent act destroys people.
- ✓ Many people live in fear of being victims of a violent attack.
- ✓ This fear can prevent people from living a normal life.
- ✓ Fear may make you avoid certain places or make you terrified to leave your own home.

JUSTICE (OR THE LACK THEREOF) FOR RAPE SURVIVORS IN SOUTH AFRICA

IN THE COURT

1 CHANCES OF CONVICTION 8.6%

Less than one in 10 cases opened by the police will result in someone being found guilty for a sexual offence.

2 CASES GOING TO TRIAL 18.5%

Only about one in five cases reported to the police will make it to trial.
About half the time prosecutors won't prosecute a rape case referred to them.

3 VICTIMS WITHDRAWING FROM A CASE 67.6%

Two out of three cases are declined by prosecutors because of the unwillingness of the victim to pursue the case. Many victims argue that they want to get on with their lives.

4 INSUFFICIENT EVIDENCE 32.4%

In about a third of declined cases, the evidence gathered by the police will be insufficient, resulting in the case being dropped in court.

5 GANG RAPE CASES GOING TO TRIAL 10.5%

If you were gang raped, your case will only go to trial in about one out of 10 cases. Your chance of going to trial is less likely than if you were raped by only one person, even after arrests were made.

6 PRISON SENTENCES 78.4%

About three-quarters of perpetrators who are convicted will get prison sentences.
But only 8.6% of perpetrators in rape cases reported to the police are convicted.

7 AVAILABILITY OF COURT TRANSCRIPTS 20%

If your case went to trial, and you wanted to access the transcript of your case, for instance to appeal the ruling, it will be unavailable in eight out of 10 cases.

Graph by: JOHN McCANN Compiled by: MIA MALAN Data source: SAMRC (2017)

Worksheet 32

Date: _____

1. Look at the different pictures below and identify each type of abuse. Write the answer under the picture. (10)

2. Are the following statements true or false? Tick the correct box. (10)

Statement	True	False
2.1. Domestic violence is only physical attacks.		
2.2. A child that is abused have problems in school.		
2.3. Anti-social behaviour is connected to child abuse.		
2.4. Physical abuse is always accidental.		
2.5. Children that are physical abused, will never have any marks or bruises.		
2.6. Parents that abuse their child, will always try and hide the bruises/wounds		
2.7. Girls that are sexual abused, will low self-esteem is a sign that someone is sexually abused always fall pregnant.		

2.8. Emotional abuse is a form of violence.		
2.9. Gender based violence happens because there is a lack of awareness and knowledge about rights.		
2.10. Polygamy means you have more than one wife.		

3. Use the words in the word box to complete the following sentences. (10)

rape	violence	environmental	harmful	damaged
Increase	anger	medical	avoid	disability

- 6.6. The trauma of _____ and gender-based violence leaves many men and women _____ for life.
- 6.7. Acts of _____ include being hit, punched and pushed around and sexual violence such as rape.
- 6.8. Fear may make you _____ certain places or make you terrified to leave your own home.
- 6.9. Certain situations also _____ the risk of aggression, such as drinking, insults and other provocations and _____ factors like heat and overcrowding.
- 6.10. Physical effects may require _____ treatment and some injuries may result in long term _____.
- 6.11. All violence is _____ to individuals and the community. It creates feelings of mistrust, fear, _____ and depression.
7. Complete the sentences by finding the answers in the information block: (10)
- 7.1. **Less** than one in _____ cases opened by the police will result in someone being found guilty.
- 7.2. Insufficient evidence leads to _____ of cases being dropped.
- 7.3. 67.7% of cases are dropped because _____ the case.
- 7.4. Only _____ of cases will get prison sentences.
- 7.5. Only _____ of perpetrators in rape cases are convicted.
- 7.6. Victims withdraw from cases, because _____
- 7.7. Half the time prosecutors won't prosecute a _____ case.
- 7.8. If you were _____ your chance of going to trial is one out of ten.
- 7.9. Do you think rape victims in South Africa is treated fairly?

WEEKS 5 – 6: Constitutional rights and responsibilities

Date: _____

Population – Why do people live where they do

Population refers to a **collection of humans**. Population, in simpler terms, is the number of people in a city or town, region, country or world; population is usually determined by a process called census (a process of collecting, analysing, compiling and publishing data).

Rural and urban settlements

Settlement is a place where people live and interact through activities such as agriculture, trading and entertainment.

A **rural** settlement is a community involved predominantly primary activities such as farming, lumbering and mining.

An **urban** settlement engages in predominantly in secondary and tertiary activities such as food processing and banking. A rural settlement tends to have a small population and low population density. Urban settlement often has a large population size and high population density.

Factors that help decide where to settle

1. **Water supply** – water is essential for human survival and agricultural activities.
2. **Relief** – the availability of broad flat land such as floodplains promote agricultural activities.
3. **Soils**- fertility of soils also another considerations for agricultural activities.
4. **Shelter**-which are sheltered from natural elements. Windswept highland with harsh cold climate are conducive for settlement.
5. **Defence** - Threat from enemies and predatory animals drove people to live together for protection.

Problems that can occur in Urban settlements

1. **Housing**- lack of house and can't afford of proper housing. Development of squatter settlement.
2. **Water supply**- shortage of water supply due to the demand of water supply and poor piping system.
3. **Transport**- too many cars in major cities. Poor public transport system
4. **Pollution**- domestic and industrial waste contribute to land pollution in urban areas.

Solutions to the Urban Problems

1. Housing

- Provide **high rise flat** since the land is scarce like in Singapore and Hong Kong.

- Provide **low cost housing** to relocate slum dwellers and squatter.
- **Improve** the **living condition** of slum and squatter settlements instead of removing them by providing piped water and sanitation.
- **Control** to reduce the rural **urban migration** by this it can reduce the overcrowding in the city.

- To increase water supply is build **more reservoirs**.
- To improve the quality of water, **more treatment plants** should be built and old rusty pipes must be replaced.
- Educate the public in the virtues of **water conservation**.

- To ease congestion in the developed countries **road and railway networks** have to be **extended**.
- Build extensive **expressways** and **wider roads** to ensure smooth flow of traffic.
- Encourage to **use public transport** to reduce traffic congestion such as MRT.

- Several ways to curb pollution.
 - Impose a **fine** to protect the environment such as littering and emission of excessive exhaust fumes.
 - Land pollution to **collect** the waste **three times a day**
 - Water pollution- **increase** the number of **sewerage pipes** in the city.
 - Noise pollution- piling work should be done in daylight at certain hours and growing trees as a noise buffer in the expressway.

Worksheet 33

Give an example next to each section in the table below.

(12)

	Rural settlement	Urban settlement
Population density		
Types of transport		
Entertainment		
Example of jobs		
Housing		
Types of services		

Worksheet 34

Answer the following statements as **TRUE** or **FALSE**.

(10)

1. A settlement is a place where people live. _____
2. A rural settlement is a community that is not involved in predominantly primary activities such as farming. _____
3. Population refers to as a collection of humans. _____
4. A rural settlement tends not to have small population and low population density. _____
5. Water is essential for human survival and agricultural activities. _____
6. Threat from enemies and predatory animals drove people to live together for protection. _____
7. Domestic and industrial waste contribute to land pollution in urban areas. _____
8. To ease congestion in the developed countries, road and railways network do not have to be extended. _____
9. Provide low cost housing to relocate slum dwellers and squatters. _____
10. Shortage of water supply happens due to high demand of water supply. _____

WEEKS 7 – 8: World of Work

Careers and future study opportunities

Identify and apply your own learning style

Date: _____

All of us can learn in each of the 4 learning styles that we are going to discuss but usually one of these styles makes you a stronger learner.

Visual learning style

- You highlight or underline the main ideas in a textbook or notes where possible.
- You use mind mapping to help make sense of reading assignments.
- To study for a test, you do something you can see like drawing pictures.
- You make flash cards when you study.
- If you are bored with paper you draw or write on a computer.

Kinaesthetic learning style

- Use concrete objects to help you understand mathematics.
- You teach the information you learn to your family members by using something to draw on like a chalkboard.
- Have someone talk through the information with you while you do something active like bouncing a tennis ball or walking around.
- When you sit to study, get up frequently and take breaks.

Reading and writing styles

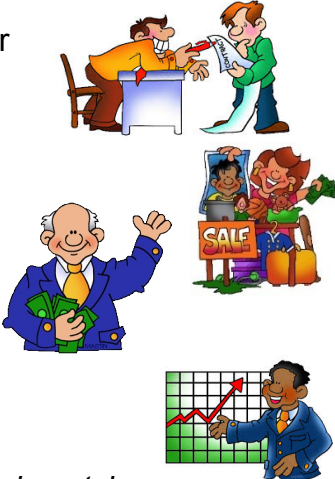

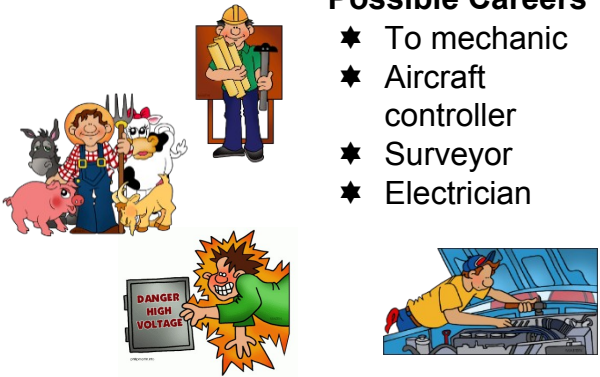

- You read the chapter before it is discussed in class
- In class while the teacher is teaching you take good notes.
- You read your notes and study guides over and over again.
- You read information yourself, instead of having someone read it to you.
- You complete your reading assignments soon after the teacher discusses the material.
- You read difficult passages aloud instead of silently.
- You record the study material for your test and play the recording to yourself to study.
- You have someone quiz you or study with a friend and go over the information aloud.
- You study in a quiet place with no distractions.
- You choose to give a speech rather than a written report.
- If you have trouble spelling a word, you spell it aloud before writing it.
- You look up words you don't know instead of asking someone what they mean

Aural learning style

- You complete your reading assignments soon after the teacher discusses the material.
- You read difficult passages aloud instead of silently.
- You record the study material for your test and play the recording to yourself to study.
- You have someone quiz you or study with a friend and go over the information aloud.
- You study in a quiet place with no distractions.
- You choose to give a speech rather than a written report.
- If you have trouble spelling a word, you spell it aloud before writing it.

Thinking and learning styles associated with each career category.

Career categories

Investigative  Possible Careers ★ Biologist ★ Medical technician ★ Laboratory assistant ★ Anthropologist ★ Geologist ★ Physicist ★ Chemist <i>Reading and writing learning style</i>	• Like to solve complex problems. • Like to study and solve Mathematics and Science problems. • Is good at understanding Mathematics and Science problems. • Is good at searching for facts. • Is precise. • Is scientific. • Is intellectual, likes to think about things. • Generally avoids leading, selling or persuading people. • Prefers to work alone.
Enterprising Possible Careers ★ Buyer ★ Sports promoter ★ TV producer ★ Business executive ★ Sales Person ★ Travel Agent ★ Supervisor ★ Manager  <i>Aural learning style</i>	• Likes to, and is good at, leading and persuading people. • Likes to, and is good at, selling things and ideas. • Likes to see projects through from the beginning to the end. • Enjoy challenges. • Is energetic. • Is ambitious and competitive. • Is sociable – often extroverted. • Generally avoids activities that require careful observation and scientific, analytical thinking. • Values success in politics, leadership or business.
Realistic Possible Careers ★ To mechanic ★ Aircraft controller ★ Surveyor ★ Electrician  <i>Kinaesthetic learning style</i>	• Likes to, and is good at, working with plants, animals, tools or machines. • Is practical and mechanical – likes hands-on problem solving. • Often deals with and values plants, animals and real-world materials like wood, tools and machinery. • Generally avoids social activities like teaching, healing and informing others. • Can work alone or with other people

Artistic

Possible Careers

- ★ Composer
- ★ Musician
- ★ Dancer
- ★ Actor
- ★ Writer
- ★ Stage director
- ★ Interior decorator

Visual learning style
Kinaesthetic learning style

- Likes to do creative subjects like creative arts or creative writing.
- Is expressive, original, and imaginative.
- Is often extroverted.
- Works best independently.
- Is often disorganised and generally avoids highly ordered or repetitive activities.
- Has good artistic abilities.
Values the creative arts like theatre, music, art exhibitions or creative writing works

Conventional

Possible Careers

- ★ Banker
- ★ Bookkeeper
- ★ Financial analyst
- ★ Radio dispatcher
- ★ Secretary
- ★ Tax expert

Reading and writing learning style

- Likes, and is good at, working with numbers, records or machines in a set, orderly way.
- Likes, and is good at, organising things.
- Likes structured tasks.
- Pays attention to detail.
- Prefers to work with data and details more than with ideas.
- Likes to work with a clear line of authority.
- Is good at following a set plan.
- Generally avoids unclear, unstructured activities.
- Values success in business.

Social

Possible Careers

- ★ Teacher
- ★ Nurse
- ★ Psychologist
- ★ Counselor
- ★ Religious worker
- ★ Speech therapist

Kinaesthetic learning style

- Likes to do things to help people – like teaching, nursing, giving first aid or providing information.
- Is good at teaching, counselling, communicating, nursing or giving information.
- Helpful, friendly and trustworthy.
- Generally avoids using machines, tools or animals to achieve a goal.
- Values helping people and solving social problems.

Worksheet 35

Date: _____

1.1. Define personality in your own words. _____

1.2. Give three examples of personality traits you have.

1.2.1. _____

1.2.2. _____

1.2.3. _____

1.3. Choose three categories that you feel you will fit into.

1.3.1. _____

1.3.2. _____

1.3.3. _____

1.4. Explain the important link between personality and work environment.

1.5. Name three careers that you are interested in.

1.5.1. _____

1.5.2. _____

1.5.3. _____

1.6. Name the things you should look for when choosing a work environment.

1.7. Write a paragraph contrasting the abilities and skills of artistic career field and conventional career field.

Artistic Career Field		Conventional Career Field.	
—		—	

1.8. Do you think that someone who prefers an artistic career can do a job that falls in a conventional career category? _____

Why? _____

Worksheet 35

Match column A to column B regarding the different careers categories.

Column A	Column B	Answer
1. Social	A. I am a musician and love expressing myself in my work.	1.
2. Conventional	B. I give advice to clients regarding their rights and obligations on matters relating to the law.	2.
3. Artistic	C. People with my type of personality prefer careers like religious leader or nursing	3.
4. Realistic	D. I like to analyse and figure things out. I describe, analyse and advise on a wide range of economic issues like tax	4.
5. Enterprising	E. According to my personality, I do things “by the book”, which means I get the details just right.	5.
6. Investigative	F. Some of the careers people with my personality enjoy doing is engineering or plumbing	6.
	G. Examples of careers that fall into this category include careers that require you to use your mental muscles	7.

Worksheet 36

Answer the following statements either as TRUE Or False.

- 1.1. Social career category is good at teaching, counselling, communicating, nursing or giving information. _____
- 1.2. Artistic career category likes, and is good at, organising things. _____
- 1.3. Investigative career category generally avoids using machines, tools or animals to achieve a goal. _____
- 1.4. Realistic career category is practical and mechanical – likes hands-on problem solving. _____
- 1.5. Investigative career category generally avoids leading, selling or avoiding people _____

10 major career groups:

Date: _____

1. Managers

- Chief executives, senior officials and legislators
- Administrative and commercial managers
- Production and specialized services managers
- Hospitality, retail and other services managers

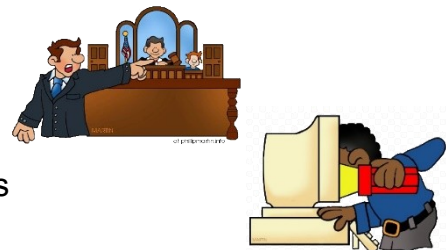

2. Professional

- Science and engineering professionals
- Health professionals
- Teaching professionals
- Business and administration professionals
- Information and communications technology professionals
- Legal, social and cultural professionals

3. Technicians and associate professionals

- Science and engineering associate professionals
- Health associate professionals
- Business and administration associate professionals
- Legal, social, cultural and related associate professionals
- Information and communications technicians

4. Clerical support workers

- General and keyboard clerks
- Customer services clerks
- Numerical and material recording clerks
- Other clerical support workers

5. Service and sales workers

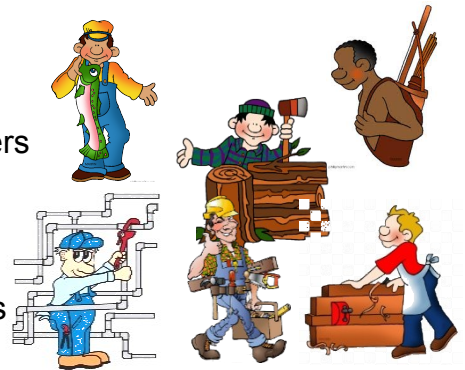

- Personal service workers

- Sales workers
- Personal care workers
- Protective services workers

6. Skilled agricultural, forestry and fishery workers

- Market-oriented skilled agricultural workers
- Market-oriented skilled forestry, fishery and hunting workers
- Subsistence farmers, fishers, hunters and gatherers

7. Craft and related trades workers

- Building and related trades workers, excluding electricians
- Metal, machinery and related trades workers

8. Plant and machine operators, and assemblers

- Stationary plant and machine operators
- Drivers and mobile plant operators
- Assemblers

9. Elementary occupations

- Cleaners and helpers
- Labourers in mining, construction, manufacturing and transport
- Street and related sales and service workers

10. Armed forces occupations

- Commissioned armed forces officers
- Non-commissioned armed forces officers
- Armed forces occupations, other ranks

Worksheet 37

Complete the sentences by using the words provided in the word box

hunting	operators	associate	forestry	cultural	workers	mobile forces
	mining	construction	material	service	engineering	

- Stationary plant and machine _____
- Building and related trades _____, excluding electricians
- Market-oriented skilled _____, fishery and _____ workers
- Non-commissioned armed _____ officers
- Legal, social, _____ and related _____ professionals
- Drivers and _____ plant operators
- Labourers in _____, construction, manufacturing and transport

8. Production and specialized _____ managers
9. Numerical and _____ recording clerks
10. Science and _____ associate professionals

Worksheet 38

Your future is important and every decision you make will determine your path.

1. Answer the questions that follow to guide your choices for future opportunities.

1.1. Name 3 careers that you are interested in.

1.1.1. _____

1.1.2. _____

1.1.3. _____

1.2. Explain in your own words why you have chosen these careers. Do you have a passion for it, have you been training yourself for these directions or do you just think that this will suit you.

Number 1: _____

_____ Number 2:

_____ Number 3:

1.3. Do you need to attend college or a training facility to prepare yourself for these careers. If so, name the institutions you need to attend and what courses you need to take to qualify.

Number 1: _____

Number 2: _____

Number 3: _____

1.4. Do you know what companies offer these careers that you are interested in?

Name them.

Number 1: _____

Number 2: _____

Number 3: _____

Year 4 Term 4 Overview

WEEK	TOPIC	CONTENT The learner is able to:	Techniques, activities, resources and process notes
1 - 2	World of work Entrepreneurship: Starting a business	- Explain the SWOT Analysis (strengths, weaknesses, opportunities and threats) - Prepare a simple SWOT Analysis - Explain what a business plan is and list the components of a business plan - Develop and implement a simple business plan for a trading or service business that could be operated from home	Techniques: Analysis, Role-play Activities Analysis of self on a blank page – paste pictures which show strengths, weaknesses, opportunities and threats. Role-play/scenario of a banker and entrepreneur where he/she presents a business plan. Resource: Textbooks, Magazines
3 - 4	World of work Financial Literacy: Source Documents	- Explain the importance of recording business transactions - Explain the concept: Cash Receipts and the relevant source documents used when an entrepreneur of business receives cash for selling its goods and services - Record Cash Receipts in a Cash Receipt Journal (CRJ) - Explain the concept of Cash Payments and the relevant source documents used by an entrepreneur of business when it pays for the goods and services - Record Cash payments in a Cash Payments Journal (CPJ) *Please note that it is very important for learners to be able to record at least 3 to 4 very simple cash transactions in terms of payments and receipts.	Techniques: Demonstration Activities Explain the importance of keeping records in a business. Paste examples of till slips and receipts in books. Resource: Textbooks, Magazines, Receipt book, Examples of till slips and receipts, Invoice examples, Cash purchase slips
5-10	External examination	External moderation of school assessment over terms 1, 2 and 3 = 75% of qualification Formal external assessment written test or oral = 25% of qualification (tbc)

CLASS: _____

WEEKS 1 - 2: World of work

Entrepreneurship: Starting a business

There are no limits on who can become a great entrepreneur. You don't necessarily need a college degree, a bunch of money in the bank or even business experience to start something that could become the next major success. However, you do need a strong plan and the drive to see it through.

12-Step Guide to Starting a Business

1. Evaluate yourself

Start asking yourself questions to help you figure out the type of business you should start, and if you have what it takes.

What skills do you have?

Where does your passion lie?

Where is your area of expertise?

2. Think of a business idea

Ask yourself what's next

Fix something that bugs you

Apply your skills to an entirely new field

Use the better, cheaper, faster approach

3. Do market research

Is anyone else already doing what you want to start doing? If not, is there a good reason why?

Start researching your potential rivals or partners within the market.

4. Get feedback

Let people interact with your product or service and see what their take is on it. A fresh set of eyes can help point out a problem you might have missed.

5. Make it official

Get all of the legal aspects out of the way early. That way, you don't have to worry about someone taking your big idea, screwing you over in a partnership or suing you for something you never saw coming.

6. Write your business plan

A business plan is a written description of how your business will evolve from when it starts to the finish product.

7. Finance your business

There are different ways to get the resources you need to start your business.

Fund your start up yourself

Pitch your needs to friends and family

Request a small-business grant

Start a crowd funding campaign online

Seek a bank loan

8. Develop your product or service

After all the work you've put into starting your business, it's going to feel awesome to actually see your idea come to life.

9. Start building your team.

To scale your business, you are going to need to hand off responsibilities to other people. You need a team. Whether you need a partner, employee or freelancer.

10. Find a location

This could mean an office or a store.

11. Start getting some sales.

No matter your product or industry, your business's future is going to depend on revenue and sales. Steve Jobs knew this -- it's why, when he was starting Apple, he spent day after day calling investors from his garage.

12. Grow your business.

There are a million different ways to grow. You could acquire another business, start targeting a new market, and expand your offerings and more.

The SWOT analysis

The point of a SWOT analysis is to help you develop a strong business strategy by making sure you've considered all of your business's strengths and weaknesses, as well as the opportunities and threats it faces in the marketplace.

S.W.O.T. is an acronym that stands for Strengths, Weaknesses, Opportunities, and Threats. A SWOT analysis is an organized list of your business's greatest strengths, weaknesses, opportunities, and threats.

How to Do a SWOT Analysis

1. Determine the objective.

Decide on a key project or strategy to analyse and place it at the top of the page.

2. Create a grid.

Draw a large square and then divide it into four smaller squares.

3. Label each box.

Write the word "Strengths" inside the top left box, "Weaknesses" inside the top right box, "Opportunities" within the bottom left box, and "Threats" inside the bottom right box. These are titles, so they should be distinguished from the rest of the text using either colour or font size.

4. Add strengths and weaknesses.

Add factors that affect the project to the applicable boxes. Components of a SWOT analysis may be qualitative and anecdotal as well as quantitative and empirical in nature. Factors are typically listed in a bullet form.

5. Draw conclusions.

Analyse the finished SWOT diagram. Be sure to note if the positive outcomes outweigh the negative. If they do, it may be a good decision to carry out the objective. If they do not, adjustments may need to be made, or else the plan should simply be abandoned.

Worksheet 39

Use the following template to formulate your own SWOT analysis. Decide on your own topic and specify it before starting your SWOT analysis.

Topic: _____

<u>Strengths</u>		

<u>Weaknesses</u>		

<u>Opportunities</u>		

<u>Threats</u>		

Components of a Business Plan

1. Executive Summary

Your executive summary should appear first in your business plan. It should summarize what you expect your business to accomplish.

2. Company Description

The next section that should appear in your business plan is a company description. It's best to include key information about your business, your goals and the customers you plan to serve.

3. Market Analysis

Ideally, your market analysis will show that you know the ins and outs of the industry and the specific market you're planning to enter.

4. Competitive Analysis

A good business plan will present a clear comparison of your business to your direct and indirect competitors.

5. Description of Management and Organization

Following your market analysis, your business plan will outline the way that your organization will be set up. You'll introduce your company managers and summarize their skills and primary job responsibilities.

6. Breakdown of Your Products and Services

If you didn't incorporate enough facts about your products and services into your company description (since that section is meant to be an overview), it might be a good idea to include extra information about them in a separate section.

7. Marketing Plan

In your business plan, it's important to describe how you intend to get your products and services in front of potential clients. That's what marketing is all about. As you pinpoint the steps you're going to take to promote your products, you'll need to mention the budget you'll need to implement your strategies.

8. Sales Strategy

How will you sell the products you're building? That's the most important question you'll answer when you discuss your sales strategy. It's best to be as specific as possible.

9. Request for Funding

If you need funding, you can devote an entire section to talking about the amount of money you need and how you plan to use the capital you're trying to raise.

10. Financial Projections

In the final section of your business plan, you'll reveal the financial goals and expectations that you've set based on market research. You'll report your anticipated revenue for the first 12 months and your annual projected earnings for the second, third, fourth and fifth years of business.

Business Planning Template

Business Plan Company Name

Vision This section should articulate your hopes and dreams for the Business. You can write a vision statement. For example:

What is your grand plan and what do you see this business becoming?

Business Overview (or Mission)

The business overview or mission should describe how you intend to achieve your vision. For example:

- What products will you be selling?
- What is your target market—who will buy your products?
- How will your product offerings address the needs of customers?
- How will you sell your products—online or storefront?
- How will you deliver your products? For example, will they be shipped, sold over the counter, or delivered personally?

Pricing Strategy

Demonstrate how your business will be profitable by summarizing your projected revenue from product sales minus your expenses:

- How much will you charge for your products?

Briefly describe how your product quality and competitive pricing will lure customers from rival businesses but be sufficient to generate a profit after subtracting manufacturing costs and expenses.

Advertising and Promotion

Briefly outline the marketing plan for your products:

How will you advertise your products to attract customers? For example through a storefront, business website, email, social media, or newspapers.

Objectives

List your objectives and metrics for success by time frame, as well as potential questions or challenges. For example:

- Sell 500 units of product by year end.
- Gain two major customers within the first six months of operation.
- Have an average 50% occupancy rate in your restaurant within three months of opening.

List any obstacles that may prevent you from achieving your objectives, for example:

- Suppliers not able to deliver sufficient product
- Construction delays involving renovations on the premises

Action Plans

Briefly describe the action items needed to achieve your objectives, using milestone dates. For example:

- By "date" business premises chosen and lease signed
- By "date" renovations to business premises completed
- By "date" contracts with suppliers and wholesalers negotiated and signed
- By "date" qualified employee hired

Worksheet 40

Use the example given and formulate your own business plan to take to the bank for funding. Your business plan must contain the following with appropriate examples.

Business plan	Company name:
Vision	
Mission	
Pricing strategy	
Advertising and promotion	
Objectives	
Action plans	

WEEKS 3 - 4: World of work

Financial Literacy: Source Documents

- 📁 Business records can be maintained manually, computerised on a spreadsheet or kept online.
- 📁 Make sure the system you use is easy to operate, and complements your business.
Alternatively keep hold of your receipts, bank statements and invoices and outsource the work.
- 📁 Keeping business records can be daunting at first. The key is to break things down into a series of straightforward, manageable tasks. Then you can access and update them on a regular basis, rather than letting the paperwork pile up.
- 📁 Every business must keep records for as long as required by the law. It is important to do so as HMRC may request to see past records if there is any issue regarding your tax. The minimum period for which you must keep records is six years for VAT or five years from the latest date for filing your tax return.
- 📁 Make sure you keep all documents that contain details of payments, receipts, credit purchases and sales, assets and liabilities. If you're not able to obtain a receipt for an expense, make a note then record the details.

Benefits of good bookkeeping

- 📄 Helps to maximise all the expenses you claim and reduce your tax obligations.
- 📄 Will help out, should you be investigated by SARS.
- 📄 Makes it quicker to prepare your accounts at year-end.
- 📄 Gives you the information you need to run your business and help it grow.
- 📄 Helps you plan for tax payments.
- 📄 Helps identify the strengths and weaknesses in your business.
- 📄 Helps manage changes and improvements in your business.
- 📄 Will help you plan to meet financial commitments such as paying creditors or employees.
- 📄 Makes it easier to get a loan or sell your business.
- 📄 Avoids over/under tax payments.
- 📄 Helps identify if your business is liable for paying VAT to SARS.
- 📄 Makes it easier to distribute profits to shareholders as dividends or for partnerships where both profits and losses have to be shared.

Cash Receipt Journal

The cash receipts journal manages all cash inflows of a business organization. In other words, this journal is used to record all cash coming into the business.

For making entries in a cash receipts journal, the receipt of cash is usually divided into the following categories:

- ✓ Receipt of cash from cash sales
- ✓ Receipt of cash from credit customers or receivables and
- ✓ Receipt of cash from other sources

Format

A cash receipts journal usually looks like the following:

CASH RECEIPT JOURNAL									
Date	Account credited	PR	Explanation	Cash Dr.	Sales discount Dr.	Accounts receivable Cr.	Sales Cr.	Other accounts Cr.	Cost of goods sold Dr. Inventory Cr.
Total									

Explanation of the columns used in cash receipts journal

1. **Date:**
The date at which the cash is received is entered in date column.
2. **Account credited:**
The account credited column is used to enter the title or name of the account that is credited in ledger as a result of cash inflow. For every inflow of cash, one or more accounts are essentially credited in accounts receivable subsidiary ledger or in general ledger or in both.
3. **Post reference:**
The post reference column is used to enter the account number of subsidiary or general ledger account to which the entry belongs.
4. **Explanation:**
The explanation or reason of the cash inflow is briefly explained in this column.
5. **Cash:**
In cash column the amount of cash received is entered. The cash account in general ledger is debited by the total of this column.
6. **Sales discount:**
Sellers allow discount to customers that make payment within discount period. The amount of discount allowed to customers is entered in sales discount column. The sales account maintained in general ledger is debited by the total of this column.
7. **Accounts receivable:**
When a credit customer makes the payment, his account is credited in accounts receivable subsidiary ledger. The amount by which a customer's account is credited is entered in this column.

8. **Sales:**

This column is used to record cash sales. Every time a cash sale is made, the amount received is entered in this sales column

9. **Other accounts:**

This column is used to record the receipt of cash from sources other than cash sales or credit customers. Examples include the receipt of cash for interest, rent and the sale of old assets etc.

10. **Cost of goods sold/inventory:**

In cash receipt journal, this column is used to record the cost of merchandise sold for cash. This column is also found in sales journal where it is used to enter the cost of goods sold on credit. The total of this column is debited to cost of goods sold account and credited to inventory account in general ledger.

Example

The following example illustrates how a cash receipt journal is written and how entries from this journal are posted to relevant subsidiary and general ledger accounts.

CASH RECEIPT JOURNAL									Page 2
Date	Account credited	PR	Explanation	Cash Dr.	Sales discount Dr.	Accounts receivable Cr.	Sales Cr.	Other accounts Cr.	Cost of goods sold Dr. Inventory Cr.
2018									
Feb.07	Sales	-	Cash sales	4,450			4,450		3,150

				(101)	(415)	(106)	(412)	(×)	(502/119)

Cash payments journal is a special journal that is used by a business to manage all cash outflows. In other words, a cash payments journal is used to record any transaction that includes a credit to cash.

The usual examples of cash outflows in a business are given below:

- Payment of cash for cash purchases.
- Payment of cash for previous credit purchases i.e. payment to accounts payable or creditors.
- Payment of cash for various expenses like rent, advertisement, carriage, wages and salaries etc.

- Payment of cash for the purchase of a tangible or intangible asset.
- Cash refunds for goods returned by customers.
- Payment of cash for donations and charities.

Format of Cash Payments Journal

In cash payments journal, the cash payments are usually categorized as payments to accounts payable and payments for other purposes.

The format of a cash payments journal and explanation of all the columns provided there in is given below:

CASH DISBURSEMENTS JOURNAL								Page
Date	Check No.	Payee	Account debited	PR	Cash-Cr.	Inventory-Cr.	Other Accounts-Dr.	Accounts Payable-Dr.
2018								
	Total							

Explanation of the columns used in cash disbursements journal

1. **Date column:**

The date at which a payment is made to someone is entered in date column.

2. **Check number column:**

In large businesses, the payments are mostly made by checks.

If the payment is made by a check, this column is used to enter the check number belonging to the payment.

3. **Payee column:**

The payee name (the person or entity to whom the payment is being made) is entered in this column.

4. **Account debited column:**

Every cash transaction results in a credit to cash account and a debit to some other account. Account debited column is used to enter the title of the account to be debited in the accounts payable subsidiary ledger or general ledger as a result of the payment of cash.

5. **Posting reference (PR) column:**

All accounts in subsidiary and general ledger are properly numbered.

Posting reference (abbreviated as PR) column is used to write the number of the account mentioned in account debited column.

6. **Cash column:**

The amount of cash paid is entered in cash column.

This amount must be net of any purchases discount received from suppliers of inventory.

7. **Inventory column:**

Inventory column is used to enter the purchases discount allowed by suppliers of inventory.

As the discount taken from suppliers reduces our inventory cost, the inventory account in the general ledger is credited by the total of this column at the end of the period.

8. **Other accounts column:**

The cash paid for any purpose other than credit purchases is recorded in this column.

Examples include payment for inventory purchased on cash, payment for purchase of assets and payment of salaries, carriage and other expenses.

9. **Accounts payable column:**

The amount by which a supplier's account is debited is written in this column.

Example

Consider the following example for a better understanding of how entries in a cash payment journal are made and how the posting to accounts payable subsidiary ledger and general ledger is performed.

CASH DISBURSEMENTS JOURNAL								Page 2

Worksheet 41

Date: _____

Use the information given below to draw up the following in the books of Colours Cleaners.

Transactions for March 2020:

01/03/2020

- ☞ P. Colours won R150 000 on the family game show “Win n Spin”.
- ☞ He decided to invest 2/3 of his winnings in a Dry Cleaning business, Colour Cleaners.
- ☞ The amount was **deposited** into the **current** banking account of the business.
- ☞ Receipt 001 was issued.
- ☞

03/03/2020

- ☞ **Paid** R130 to the City Council by cheque 001 for the trading licence.
- ☞ Bought 5 washing machines at R1 200 each and 3 tumble driers at R500 each from Runny Traders, and paid by cheque.

04/03/2020

- ☞ **Bought** cleaning materials from Pink Stores, R350 and paid by cheque.

07/03/2020

- ☞ Cash **received** for services rendered, R750.

08/03/2020

- ☞ **Received** a cheque from No Clean for the following services rendered:
- ☞ 10 Shirts washed and dried at R3 each.
- ☞ 20 Blankets dry-cleaned at R7 each.
- ☞ 7 towels washed and dried R2 each.

11/03/2020

- ☞ **Bought** pens, pencils and receipt books from Green Stationers and paid by cheque R85.

14/03/2020

- ☞ **Paid** the weekly wages by cheque.

15/03/2020

- ☞ The owner increased his capital contribution by 10%, by **depositing** a cheque in the current account of the business.
- ☞ Cash **received** for services rendered, R1 365.

17/03/2020

- ☞ The owner P. Colours **sent** a business cheque to Telkom for the following:
 - R150 for the business telephone account.
 - R100 for his personal telephone account.
 - R25 for stamps.

22/03/2020

- ☞ **Paid** the weekly wages of the three employees by cheque. Each of the employees received an increase of R5 per week.

23/03/2020

- ☞ **Sent** a cheque for R300 to Pong Traders for the following:
 - Materials, R220.
 - Stationery, R80.
