

Term 2

KWA THEMA SKILLS SC

Week 1 – 2

OFFICE PRACTICE

FILING

Identify filing systems:

- horizontal vs vertical

A filing system comprises the people procedures, equipment and methods employed to do filing. The way in which a system is organized, depends on the nature of the records, available office space and equipment.

Horizontal filing

Records are placed chronologically into a file folder or box file and the file folders or boxes are stacked one on top of the other. Applications for using this system:

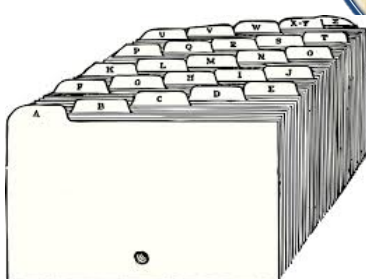

- temporary filing of certain records in the office before they are placed in file folders and in the filing cabinets.
- architects' offices for drawings of buildings and plans where these records are placed in wide, flat drawers.

This method takes up a lot of space and a record is not easy to locate.

Vertical filing

Records are placed chronologically into file folders and the file folders are placed one behind the other in an upright position. They are standing on the long folded edge (or hang on a cradle in the drawer of a cabinet). They are suspended folders that are joined together with the face side of the file folder facing forward.

- alphabetical vs numerical

Alphabetical arrangement

According to this arrangement, file folders are placed in the filing space in strict alphabetical order like the words in a dictionary or the names in a telephone directory.

The filing rules for alphabetical arrangement are quite simple. They are as follows:

- Sort the file folders according to the **first letter of the surname or subject**.
- Use the second letter, if the first letters are the same.
Use the third letter if the second letters are the same and so forth.
- If the surnames are the same, sort according to the first letter of the initials, then the second and so forth.
- Ignore hyphens in surnames and sort as one word.
- Sort prefixes in surnames starting with Mac and MC or Saint or St separately – that is MacDonald A comes before McDonald A and Saint John B before St John B.
- Sort names of organisations strictly alphabetically.
- 'The' at the beginning of a name may be sorted under 'T' The rule 'it may be ignored', using the next word or name.
- The rule 'nothing comes before something' applies in all cases.
Brown J comes before Brown J A; Brown P comes before Brown Paul.

Activity 2

Work with a partner. Use a telephone directory and see if you can find 10 names of 'correspondents' for each of the above rules and arrange or sort them correctly. Your choice of surnames and initials must clearly show how each rule is applied. You may make up names where necessary.

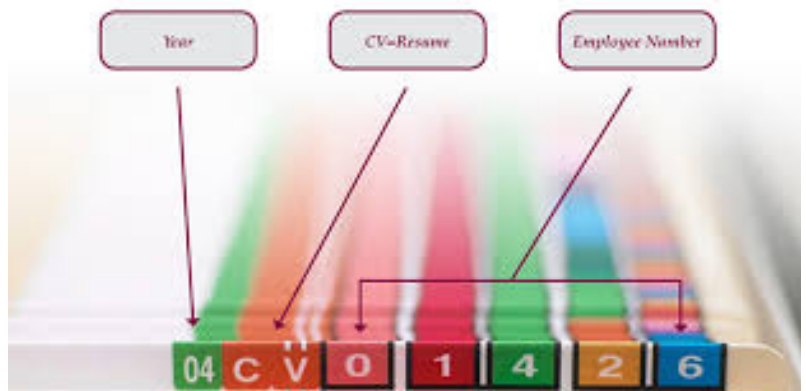

Numerical arrangement

According to this arrangement, every correspondent, subject or geographical area will be given a number then filed in the filing system in numerical order. To facilitate access, numerical guide cards are placed in between the folders, for example 10, 20, 30 etc.

Volgens hierdie reëling sal elke korrespondent, vak of geografiese gebied 'n nommer kry wat dan in die liasingstelsel in numeriese volgorde ingedien word. Om toegang te fasiliteer, word numeriese gidskaarte tussen die gidse geplaas, byvoorbeeld 10, 20, 30 ens.

RUBRIC (Formal / Informal assessment)

Criteria: Understanding the various filing systems:	Score
1. perform the necessary preparation at the required standard of performance for the practical assessment.	
2. develop an acceptable dummy file, folder and guide cards.	

3. create either an alphabetical or numerical style filing system.	
4. learner is able to use the filing system created.	
5. learner is able to answers questions regarding the characteristics of the filing system created .	
6. show an understanding of the eight rules for alphabetical arrangement of files using a telephone directory.	
TOTAL	

RATING CODE	DESCRIPTION OF COMPETENCE	PERCENTAGE
7	Outstanding	80-100
6	Meritorious achieved	70-79
5	Substantial achievement	60-69
4	Adequate achievement	50-59
3	Moderate achievement	40-49
2	Elementary achievement	30-39
1	Not achieved	0-29

INSTRUCTIONS

Type the following activity on A4 landscape with all margins = 2 cm. This document must fit on one page.

Why choose SuperSaver when planning your next holiday?

First-class touring on a budget
Superb sightseeing and excursions included
Professional tour directors and qualified guides
Quality transport Delightful dining experiences
Prices quoted in SA Rand

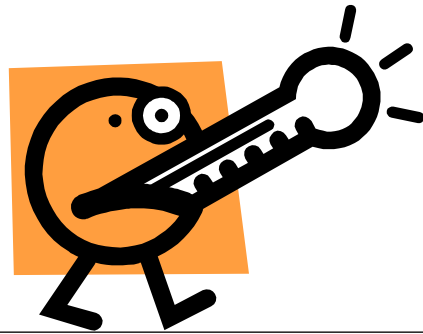

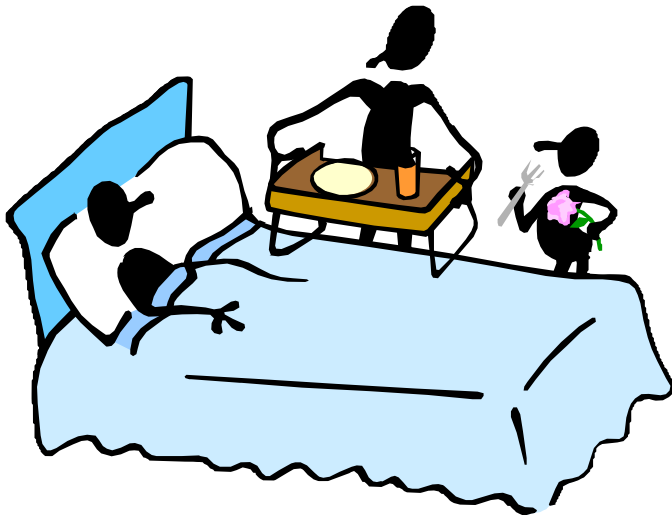

Diseases and precautions

Disease	Area of risk	How it is caught	
Tetanus	Places with poor/no medical facilities	Any wound that penetrates the skin	Safe and long-lasting injection
Hepatitis A	Most parts of the world	Contaminated water	Injection shortly before departure
Cholera	Africa, Asia, Middle East	Contaminated water	Two injections
Yellow fever	Africa and South America	Mosquito bite	Injection 10 days before departure
Typhoid	Everywhere except Australia, New Zealand, Europe, North America	Contaminated water	Two injections four weeks apart
Malaria	Africa, Asia, Central and South America	Mosquito bite	Anti-malarial tablets advised

Instructions

- Change the font to Verdana.
- Use the first line of text [Why choose SuperSaver when planning your next holiday?] to create a WordArt graphic, any font/style, 28 pt. Centre.
- Format the introductory section, from [First-class...] to [Prices quoted...] in a bulleted list. The text [Delightful dining experiences] must be a separate bullet item.
- Use an aeroplane symbol for the bullets in the bulleted list.
- The table heading and the column headings must be in capital letters.
- The heading of the last column is [VACCINATION].
- Delete extra open lines/paragraphs in the text between the WordArt and table.
- Arrange the table in alphabetical order according to the [DISEASE] column.
- Insert 6 pt of space before and after the text in each row.
- Find [water] and replace with [food or water].
- Use the 'AutoFit window' function for the table.
- Insert a thick, 2¼ pt border around the outside of the table.
- Insert one of the pictures below as a watermark behind the text of the bulleted list. Format the other picture so that you can move it to the right hand margin in line with the bulleted items. Resize the pictures, if necessary.
- Centre this text in the footer in bold sentence case:

PARTIES-FOR-YOU
MEMORANDUM

TO: ALL PARTY ORGANISERS
FROM: ALICE WHITE
CHIEF PARTY ORGANISER
DATE: 14 September 2003

✓ AS
✓ M 1.27 cm
(0.5")

✓ Hor. line

This is just a reminder of what you should do the day before or on the morning of any children's party for which you are responsible:

✓ Bullets + esp

- ⌚ Collect the birthday cake.
- ⌚ Arrange for cupcakes from the Bakery.
- ⌚ Buy the food and cold drinks.
- ⌚ Arrange a time to decorate the room.
- ⌚ Check that everything is safe at the venue.
- ⌚ Arrange the food on covered plates.
- ⌚ Make sure there are enough refreshments.
- ⌚ Put a sign on the door of the toilet.
- ⌚ Tie a bunch of balloons to the front door. ✓ del

Remember that balloons can be hazardous to young children, who may choke on them. Some party gifts, such as little plastic toys or whistles, can also cause choking.

Week 3-4

Office Practice

Types of Filing Equipment

Individuals and businesses have a variety of choices when it comes to filing equipment. Some options offer high levels of security while others can accommodate a high density of files. The amount of space you have, the sensitivity of the files and your preference for physical or electronic records all influence your choice of filing equipment.

Physical Filing Equipment

Filing Cabinets

The **filing cabinet** is an office staple. Four drawers allowing files to be stored laterally is standard. Filing cabinets are beneficial if you need to keep records secure. Because these cabinets can be locked, a company can **limit access to sensitive files** while still allowing employees and visitors to enter the room.

Out of all the physical filing equipment options, cabinets tend to be the **most expensive** and have the most **limited capacity**.

Open Shelving

An alternative to filing cabinets is **open shelving**. Units are similar to open bookcases and are specifically designed for folder height and width. The design allows users **easy access to files** and can be either **stationary** or be **mobile** if rollers are attached to the bottom.

Open shelving saves on space and money. Shelf filing equipment typically is **three times** less expensive than filing cabinets. Compared to a four-drawer filing cabinet, a seven-tier open shelving system has 80 percent **more capacity**. Mobile shelving can be placed in higher density and offers 405 percent more capacity than cabinets.

Digital Filing Equipment

Individuals and businesses that want to take advantage of technology can store files digitally rather than physically. Electronic documents are saved directly into the system, and physical documents can be

scanned and converted into a digital format. Digital filing systems allow users to **search information quickly** and keep data secure.

As with physical filing, users have a choice of systems and equipment for a digital system. Files can be organized and stored locally on a laptop's or PC's **internal hard drive**.

External Devices

It's convenient to use a computer's internal hard drive to store files, but you risk losing your information if the hard drive is corrupted or physically damaged. To mitigate this risk, users may want to back up data to an external device. [PC World](#) recommends backing up critical files to an **external hard drive** and using a **thumb drive** to transfer files as needed.

Servers

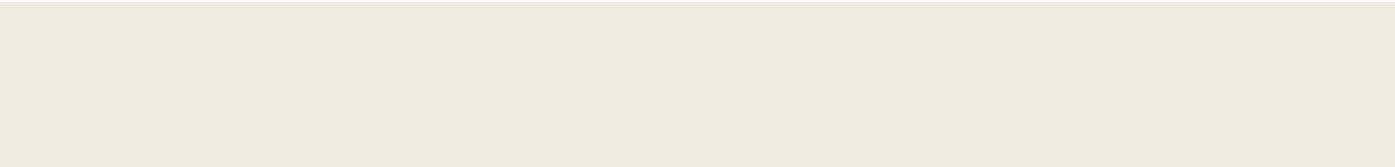

Businesses that want multiple parties to have access to the same data may want to invest in a server. Servers act as a **central repository** for many users' files. [PC World](#) notes that businesses can host multiuser applications -- like databases and enterprise resource planning systems -- on the server. This makes it easy for a large number of individuals to **have access** to the same files. Server data can be backed up to an external device or the cloud for extra security.

Physical servers look similar to a high-end PC. Alternatively, businesses can choose a **cloud-based hosting service** -- Amazon Web Services, Windows Azure and Rackspace Cloud Services are all options -- which doesn't require a physical server.

It's convenient to use a computer's internal hard drive to store files, but you risk losing your information if the hard drive is corrupted or physically damaged. To mitigate this risk, users may want to back up data to an external device. [PC World](#) recommends backing up critical files to an **external hard drive** and using a **thumb drive** to transfer files as needed.

Box file

concertina file

guide cards

Hanging file

Out cards

Class activity

1. Create dummy files, folders and guide cards in Alphabetical or Numerical order for the Office Admin class.
2. Find other types of files used in offices worldwide. Use the internet to research and make posters where applicable.
3. Pupils must also use internet or any other resources to find out how old or redundant files are stored.

Few things are more important to a smooth-running office than a filing system that works. Whether you are the only one accessing files or you share with a staff, the filing system you choose must be organized so everyone can find what they're looking for. If the filing system is difficult to use, you will hang onto papers for fear of losing them in the files, and you'll soon have piles of papers covering your desk.

Concept and Purposes of Filing

Concept of Filing

A file is the memory of office. Filing is a systematic process of classifying, storing and preserving written records for future reference. It is essential for office management.

An office generates, receives and sends many documents every day. They can be in the form of letters, contracts, vouchers, bills, and reports. They should be properly recorded and stored. They should be easily available as and when needed. Filing provides safe storage and quick location of records. Filing is the basis of record management.

Purposes of Filing

There are various purposes to maintain filing system in the office. Some of them are described as follows:

1. Collect documents

An office generates, receives and sends many documents every day. The purpose of filing is to collect all such documents. Those needing filing are carefully stored out. Documents not needing filing are destroyed.

2. Classify documents

The purpose of filing is to classify documents needing filing. They are systematically arranged by one of the following methods:

- * Alphabetical
- * Numerical
- * Subject-wise
- * Chronological

3. Store documents

The purpose of filing is to store classified documents in files. Related documents are kept in one file. The files serve as memory of the office.

4. Preserve documents

The other purpose of filing is to safely preserve filed documents. The files are kept in drawers and filing cabinets. They are protected from dust, insects, rats, water, fire and theft. Confidential documents are locked up.

5. Locate documents

The purpose of filing is to locate filed documents easily. They are readily available for use as and when needed. Documents are needed for reference purposes. They are also needed to provide legal evidence in case of disputes.

6. Provide information

The purpose of filing is to provide information for decision making, planning and control. It also helps to formulate policies.

7. Fulfil legal requirements

The other purpose of filing is to fulfil legal requirements. Laws may require preservation of documents till the life of organization or for a specified period.

- Accurate method of filing
- It is flexible
- Separate index can be easily developed using numbers.

Disadvantages

- It is expensive
- It is time consuming
- Not suitable for small organization
- It is not easy to operate
- Separate alphabetical index is required.

3. Subjective classification

In this filing method, records are classified according to their subject; letters and documents are classified and arranged in files and folders into subject or sub-subject wise. In this filing, subject must be arranged alphabetically. It is widely used in those cases where subject is more important than the name of the person or organization. All documents relating to same subject are filed together in one file.

Advantages

- Simple to operate
- Flexible
- Convenient
- Easy to locate

Disadvantages

- Not applicable for filing miscellaneous subject
- Time consuming
- Difficult to locate when subject matter is not properly understood

4. Chronological classification

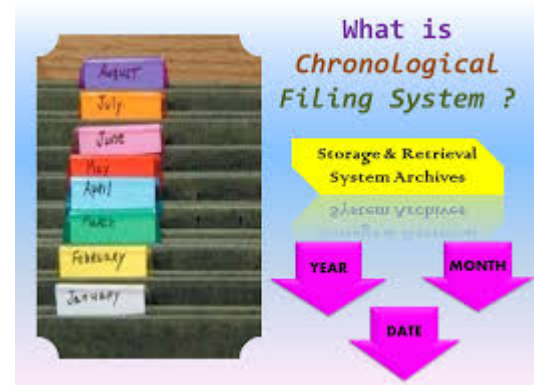

In this method, files and folders of documents are arranged in an order of their date, day, and time. In an office, several letters and documents may be received and dispatched. They all are arranged according to time and date when they were received and dispatched

Advantages

- Simple to understand and easy to operate
- Quickly located if their dates are known.
- Less expensive

Disadvantages

- Not suitable for large offices
- When clear dates are not mentioned then there can be difficulty.

Computer Application

MEETING DOCUMENTS

Type the documents below in ARIAL 12. Insert tables and borders as shown.

Racqueteers Badminton Club Annual General Body Meeting

Date: 23 July 2011

Time: 04:00 to 05:00 PM

At : Colchester Leisure World

Minutes

Present:	Dhanraj	Ramanathan
	Narayanan	Shiva
	Satyamurthy	Baskar, Adarsh (on phone)
Apologies:	Nagendra	Satya Annapu Reddy
	Harsha Gopiseti	Pravin Valmikam
	Hari Challa	Vivek Agarwal
	Pugal	

	<u>Agenda Item</u>	<u>Action</u>
1.	Adopt The Racqueteers Badminton Club's Constitution - Ramanathan (Ram) and Dhanraj explained the salient features of the constitution and asked the members present to vote for adopting the constitution. - All six members present voted unanimously to adopt the constitution.	Dhanraj to circulate the constitution copy to all members.
2.	Elect Office Bearers - Following Office bearers were elected unanimously by the members present: - Dhanraj Mani – General Secretary - Ramanathan Elayaperumal – Treasurer - Baskar Kuppuswamy – Social Secretary - Ramanathan Elayaperumal – Match Secretary The current office bearers will resign in the next AGM.	Dhanraj to circulate the job descriptions of the office bearers to all members.
3.	Club Membership Fee - It was agreed to set the club membership fee for the year 2011 as £105. This membership cost covers the below: ● Colchester federation membership fee ● Essex Badminton federation membership fee ● All England badminton club membership fee ● Feather shuttles for all games	Dhanraj to circulate the membership cost break down figures to all

15 min	Trainings	
	Step 1: Review the Training tab	
	Step 2: Schedule all Trainings	Make sure to mention if there are certain times or days when you will be unavailable.
3 hours	Overview	

MICROSOFT EXCEL FORMULAS

A formula is an expression which calculates the value of a cell. Functions are predefined formulas and are already available in Excel.

For example, cell A3 below contains a formula which adds the value of cell A2 to the value of cell A1.

A3						
	A	B	C	D	E	F
1	2					
2	3					
3	5					
4						

For example, cell A3 below contains the SUM function which calculates the sum of the range A1:A2.

A3						
	A	B	C	D	E	F
1	2					
2	3					
3	5					
4						

Enter a Formula

To enter a formula, execute the following steps.

1. Select a cell.
2. To let Excel know that you want to enter a formula, type an equal sign (=).
3. For example, type the formula A1+A2.

A3						
	A	B	C	D	E	F
1	2					
2	3					
3	5					
4						

Tip: instead of typing A1 and A2, simply select cell A1 and cell A2.

4. Change the value of cell A1 to 3.

A1						
	A	B	C	D	E	F
1	3					
2	3					
3	6					
4						

Excel automatically recalculates the value of cell A3. This is one of Excel's most powerful features!

Edit a Formula

When you select a cell, Excel shows the value or formula of the cell in the formula bar.

A3						
	A	B	C	D	E	F
1	2					
2	3					
3	5					
4						

1. To edit a formula, click in the formula bar and change the formula.

SUMIF						
	A	B	C	D	E	F
1	2					
2	3					
3	=A1-A2					
4						

2. Press Enter.

	A4					
	A	B	C	D	E	F
1	2					
2	3					
3	-1					
4						
5						

AUTO FILL IN EXCEL

AUTO VUL IN

AutoFill

Use AutoFill in Excel to automatically fill a series of cells. This page contains many easy to follow AutoFill examples. The sky is the limit!

	A	B	C	D	E	F	G	H	I
1	10								
2	20								
3									

1. For example, enter the value 10 into cell A1 and the value 20 into cell A2.

2. Select cell A1 and cell A2 and drag the fill handle down. The fill handle is the little green box at the lower right of a selected cell or selected range of cells.

	A	B	C	D	E	F	G	H	I
1	10								
2	20								
3	30								
4	40								
5	50								
6	60								
7									
8									

Note: AutoFill automatically fills in the numbers based on the pattern of the first two numbers.

3. Enter Jan into cell A1.

	A	B	C	D	E	F	G	H	I
1	Jan								
2									

4. Select cell A1 and drag the fill handle down. AutoFill automatically fills in the month names.

4. Kies sel A1 en sleep die vulhandvatsel af. AutoFill vul outomaties die maandname in.

	A	B	C	D	E	F	G	H	I
1	Jan								
2	Feb								
3	Mar								
4	Apr								
5	May								
6	Jun								
7									
8									

5. Enter Product 1 into cell A1.

	A	B	C	D	E	F	G	H	I
1	Product 1								
2									

6. Select cell A1 and drag the fill handle down. AutoFill automatically fills in the product name.

6. Kies sel A1 en sleep die vulhandvatsel af. AutoFill vul outomaties die produkname in.

	A	B	C	D	E	F	G	H	I
1	Product 1								
2	Product 2								
3	Product 3								
4	Product 4								
5	Product 5								
6	Product 6								
7									
8									

7. Enter Friday into cell A1.

	A	B	C	D	E	F	G	H	I
1	Friday								
2									

8. Select cell A1 and drag the fill handle down. AutoFill automatically fills in the day names.

	A	B	C	D	E	F	G	H	I
1	Friday								
2	Saturday								
3	Sunday								
4	Monday								
5	Tuesday								
6									
7									

9. Enter the date 1/14/2019 into cell A1.

	A	B	C	D	E	F	G	H	I
1	1/14/2019								
2									

10. Select cell A1 and drag the fill handle down. AutoFill automatically fills in the days.

	A	B	C	D	E	F	G	H	I
1	1/14/2019								
2	1/15/2019								
3	1/16/2019								
4	1/17/2019								
5	1/18/2019								
6	1/19/2019								
7									
8									

11. Instead of filling in days, use the AutoFill options to fill in weekdays (ignoring weekend days), months (see example below) or years.

	A	B	C	D	E	F	G	H	I
1	1/14/2019								
2	2/14/2019

Print one or several worksheets

1. [Select the worksheets](#) that you want to print.
2. Click **File > Print**, or press CTRL+P.
3. Click the **Print** button or adjust **Settings** before you click the **Print** button.

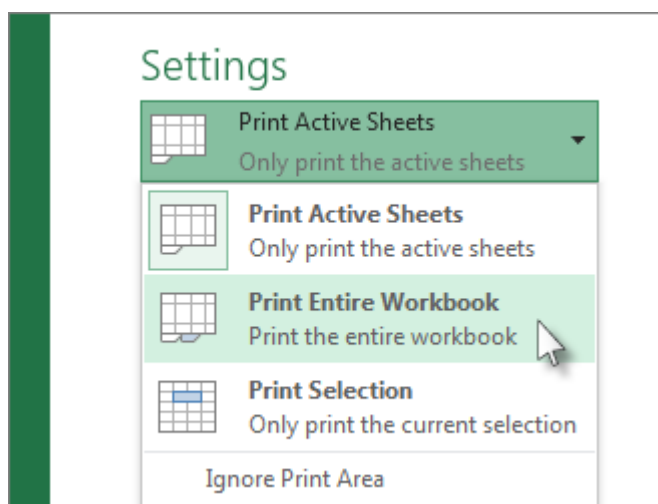

Print one or several workbooks

All workbook files that you want to print must be in the same folder.

1. Click **File > Open**.
2. Hold down CTRL click the name of each workbook to print, and then click **Print**.

Print all or part of a worksheet

1. Click the worksheet, and then select the range of data that you want to print.
2. Click **File**, and then click **Print**.
3. Under **Settings**, click the arrow next to **Print Active Sheets** and select the appropriate option.

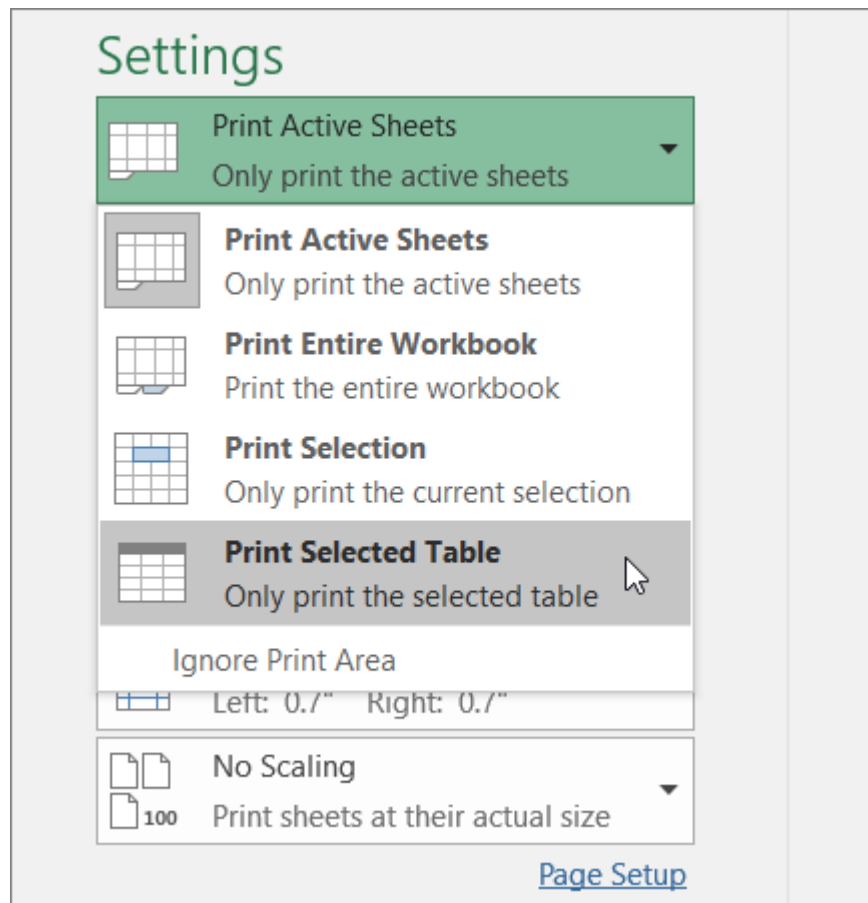

4. Click **Print**.

Note: If a worksheet has defined print areas, Excel will print only those print areas. If you don't want to print only the defined print area, select the **Ignore print area** check box. Learn more on [setting or clearing a print area](#).

Print an Excel table

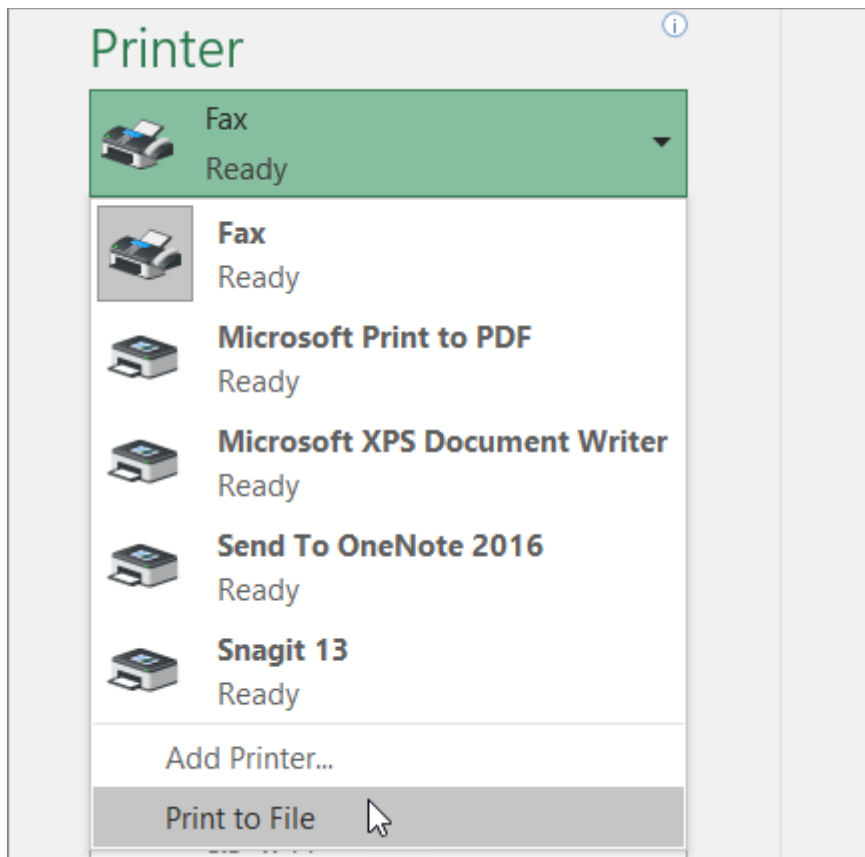

1. Click a cell within the table to enable the table.
2. Click **File**, and then click **Print**.
3. Under **Settings**, click the arrow next to **Print Active Sheets** and select **Print Selected Table**.

4. Click **Print**.

Print a workbook to a file

1. Click **File**, and then click **Print**, or press Ctrl+P.
2. Under **Printer**, select **Print to File**.

3. Click **Print**.
4. In the **Save Print Output As** dialog box, enter a file name and then click **OK**. The file will be saved in your *Documents* folder

Week 5-6

Office Practice

Demonstrate a knowledge of acceptable work ethics:

- Define work ethics
- Code of conduct
- Personal and professional attitude
- Examples of good and poor work ethics

- Persoonlike en professionele houding
- Voorbeelde van goeie en swak werksetiek

Define work ethics

A **work ethic** is a set of moral principles a person uses in their **job**. People who possess a strong **work ethic** embody certain principles that guide their **work** behaviour, leading them to produce high-quality **work** consistently and the output motivates them to stay on track.

Work ethic can refer to how you feel about your job or career, so it covers your attitude and behaviour. It also pertains to how you do your job, or the responsibilities that come attached with

it. The level of respect you show your co-workers and people you come into contact with at work, and how you communicate and interact with them, also defines your work ethic.

Work ethic is used to refer to key characteristics and include honesty, integrity, [humility](#) and accountability, among others.

Obviously, work ethic is important in defining your identity. It becomes part of who you are, and there is no doubt that a huge part of how people will view and know you will come from what they perceive to be your work ethic.

What is work ethic?

- The way a person approaches their work
- The way a person delegates their work to other people
- The way a person tries to avoid difficult projects
- The way a person looks for a job

Code of Conduct

Employers want to work with people who have a strong work ethic. Those who possess this trait are better employees who get the job done, no matter what. They often require less oversight on daily activities and managers are able to rely upon them to complete bigger tasks. Here are five factors to look for that demonstrate a strong work ethic.

Always Behaves Professionally

Professionalism is something observed from the moment an employee walks in the office door to when he leaves. He is professionally dressed with clean, pressed clothes. He arrives a few minutes early to settle in and get his coffee, so that he will be ready to start his shift on time. He is courteous to other employees and doesn't take random breaks or change lunch schedules without authorization. He understands his job and is prepared to do it. Work ethics set the tone to develop the habits needed to be professional and consistent all day long.

Organization and High Productivity

Employees with strong work ethics tend to follow or develop daily tasks. These are often ordered and organized so that he/she knows he/she is able to devote the required time to any one task. She might organize her day in blocks.

For example, the first two hours might be to respond to customer calls and new orders. Then, the next two hours might be devoted to sales calls. She could then use the afternoon to prepare new proposals and do administrative work that is required, so her desk is cleared before she leaves for the night. Having a routine and being organized increases productivity. Employees with this trait simply get more done.

Teamwork and Cooperation

Part of having a strong work ethic is understanding that you are part of a bigger team and that everyone has a role. This understanding fosters teamwork and cooperation to ensure that everyone is getting the right information to properly do their jobs. And since those with strong work ethics tend to be more productive and efficient with their time, it frees up time to help others to get more done.

The person with a strong work ethic isn't looking at what he needs to get done; he is looking at what needs to get done for the company to succeed. He is a team player.

Determined to Succeed

Those with a strong work ethic have an internal motivation to succeed. They will happily take money and reward incentives. But beyond that, a manager will see a determination to succeed in everything the employee does. It could be a simple computer issue that is causing frustration.

An employee with a strong work ethic won't wait for someone else to deal with the problem. He will call the right resources, search online for remedies and work the problem until it is resolved. This determination to success permeates everything an employee with a strong work ethic does.

Consistent and High-Quality Work

Because of proper scheduling, a determination to succeed and a high standard of professionalism, the work produced by an employee with a strong work ethic is good. Not only is work presented in a neat and professional manner, but it often goes above and beyond what was required initially.

For example, you might ask an employee to fold the new inventory of sweaters. Someone with a strong work ethic not only folds them but organizes them by size or colour and asks what is needed next. She will clean the area where they are to be displayed so everything is orderly and neat for customers to view.

Integrity

It means doing the right things, at all times, even if no one is watching, much less your boss. Its greatest impact is seen in your relationships with the people around you, which is why integrity is seen as one of the most important ingredients of

Trust

You can earn a certain level of trust if you are able to achieve results while demonstrating concern for others and acting with integrity the whole time.

Hence, the formula:

Results + Integrity + Concern = Level of Trust

Acting with integrity also means behaving in a consistent manner. For example, if you are part of a team, your behaviour should be in tune with everyone, in accordance with a clear set of guidelines in working together toward a clear purpose.

Emphasis on Quality of Work

If you show dedication and commitment to coming up with very good results in your work, then your work ethic will definitely shine. While some employees do only the barest minimum, or what is expected of them, there are those who go beyond that.

They do more, they perform better, and they definitely go the extra mile to come up with results that surpass expectations. Clearly, these employees are those who belong to the group with a solid work ethic.

Professionalism

It is so broad and seemingly all-encompassing that many even go so far as to say that professionalism equates having a solid work ethic.

Discipline

Discipline involves focus, dedication and determination on your part to do what you should.

Sense of Responsibility

If you have a strong work ethic, you will be concerned with ensuring that you are able to fulfill your duties and responsibilities. You will also feel inclined to do your best if you want to get the best results.

Sense of Teamwork

Work ethic is also continuously shaped by relationships, specifically on how you are able to handle them in achieving goals, whether shared or individual.

HOW TO DEMONSTRATE A STRONG WORK ETHIC TO YOUR EMPLOYER

So what are the things that you can do in order to convince your employer that you have a strong work ethic as you claim?

1. Put the company first
2. Manage your time wisely.
 - Be punctual.

- Maintain a good attendance record
- Observe deadlines.

3. Be honest.

- Give honest feedback.
- Own up to your mistakes.

4. Maintain a balanced and consistent performance in performing your work.

- Do quality work
- Be organized
- Be consistent
- You have to continue working at your peak, getting the best results, even when no one is watching.

5. Always show respect.

- Stay calm and poised.
- Be diplomatic.
- Listen to others' opinions.
- Avoid gossiping and harmful talk about, and against, others.
- Show fair treatment to others.

6. Follow the rules.

How can you show that you are a law-abiding employee?

- Be aware of company policies.
- Follow the dress code.

7. Work with others.

- Cooperate.
- Socialize.

9. Stay fit and healthy.

What is poor work ethics?

The most obvious sign of a negative **work ethic** is a lack of productivity. Procrastination is at the top of its list of bad **work** habits; an employee who rushes through assignments or waits until the last minute to complete them often turns in lower quality **work**, as well as running the risk of missing a deadline.

GOOD WORK ETHICS

Value	Behavior	Outcome	Business Result
Reliability	Attendance	Employees show up when scheduled	Decreased employee absenteeism
Professionalism	Appearance	Present consistent brand image	Increased average sale
Positivity	Attitude	Display enthusiasm and passion	Increased employee morale
Initiative	Ambition	Go beyond basic expectations	Improved productivity
Respect	Acceptance	Adhere to policies and rules	Decreased involuntary turnover
Integrity	Accountability	Be trustworthy	Less employee theft and shrinkage
Gratitude	Appreciation	Give authentic service	Improved customer satisfaction

SOCIAL SERVICES - GAUTENG

MINUTES of the monthly meeting of the Managers of offices of Social Services held at 09:00 on Wednesday, 20 October 2019 in the Board Room, 13 King Street, Parktown, Johannesburg.

PRESENT

Dr K Williams (Chairman) Mr S Pillay (Secretary)

Dr A Bolton Mrs M Makaza Mr P Malan

Mr V Kumalo

} Left
justification

1. Minutes u/c → all main headings / minutes of the previous meeting were read, accepted and signed.

ACTION

2. Symposium

The chairperson notified the meeting of the important symposium on AIDS that will be held in Pretoria on 12 November 2019. Managers should see to it that at least two delegates from their offices attend the symposium. Documentation and forms for bookings will be faxed to each office within the next week.

4. Extension of services

Mr Kumalo suggested that Social Services should become involved in more than the usual services. The following examples to be followed up were discussed by the meeting:

3. Epilepsy

Dr Bolton briefly reported on / conference on Epilepsy that she recently attended in Cape Town. She suggested that Service offices definitely participate in the international Epilepsy campaign that has been planned.

4.1 Feeding program of the Basket organisation PM

4.1.1 Identifying voluntary suppliers

4.1.2 Identifying voluntary workers

4.1.3 Central distribution venues in every area

4.2 Projects for generating funds MM

4.2.1 Seeking the co-operation of other organisations

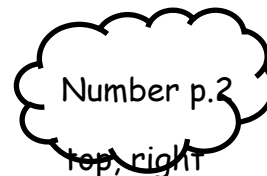

4.2.2 Seeking sponsors in all areas

5. NEXT MEETING

The next meeting will be held on 24 November 2019 in Pretoria.

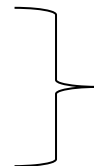

6. CLOSURE

The meeting adjourned at 12:00.

Office Application

Understanding the Occupational Health and Safety Act - OHS Act**Who does the Occupational Health and Safety Act Protect?**

This guide was written in the interest of the health and safety of workers in South Africa. It is not intended as a substitute for the Occupational Health and Safety Act, 1993. It is intended to explain the Act in simple, non-legal terms to all the role players in the South African occupational health and safety field.

What does the act entail?

The Occupational Health and Safety Act, 1993, requires the employer to bring about and maintain, as far as reasonably practicable, a work environment that is safe and without risk to the health of the workers.

This means that the employer must ensure that the workplace is free of hazardous substances, such as benzene, chlorine and micro organisms, articles, equipment, processes, etc. that may cause injury, damage or disease. Where this is not possible, the employer must inform workers of these dangers, how they may be prevented, and how to work safely, and provide other protective measures for a safe workplace.

Does the employee have any say in the matter?

The Act is based on the principle that dangers in the workplace must be addressed by communication and cooperation between the workers and the employer. The workers and the employer must share the responsibility for health and safety in the workplace. Both parties must pro-actively identify dangers and develop control measures to make the workplace safe. In this way, the employer and the workers are involved in a system where health and safety representatives may inspect the workplace regularly and then report to a health and safety committee, who in turn may submit recommendations to the employer.

What is a Safety Inspection?

Inspections are usually planned on the basis of accident statistics, the presence of hazardous substances, such as the use of benzene in laundries, or the use of dangerous machinery in the workplace.

Unplanned inspections, on the other hand, usually arise from requests or complaints by workers, employers, or members of the public. These complaints or requests are treated confidentially.

What power do safety inspectors have?

If an inspector finds dangerous or adverse conditions at the workplace, they may issue the employer with a prohibition notice (prohibit a particular action, process, or the use of a machine or equipment), a contravention notice (immediate prosecution, but in the case of a contravention of a regulation, the employer may be given the opportunity to correct the contravention within a time

limit specified in the notice which is usually 60 days), or an improvement notice (require the employer to bring about more effective measures).

The inspector may also enter any workplace or premises where machinery or hazardous substances are being used and question or serve a summons on persons to appear before them.

The inspector may request that any documents be submitted, investigate and make copies of the documents, and demand an explanation about any entries in such documents. The inspector may also inspect any condition or article and take samples of it, and seize any article that may serve as evidence.

What must the employer do to ensure that the work environment is safe and without risk to the health of his or her workers?

The employer must provide and maintain all the equipment that is necessary to do the work, and all the systems according to which work must be done, in a condition that will not affect the health and safety of workers.

Before personal protective equipment may be used, the employer must first try to remove or reduce any danger to the health and safety of his workers. Only when this is not practicable, should personal protective equipment be used. The employer must take measures to protect his or her workers' health and safety against hazards that may result from the production, processing, use, handling, storage or transportation of articles or substances, in other words, anything that workers may come into contact with at work.

To ensure that these duties are complied with, the employer must:

-  Identify potential hazards.
-  Establish the precautionary measures.
-  Provide the necessary information, instructions, training and supervision
-  Not permit anyone to carry on with any task unless the necessary precautionary measures have been taken.
-  Take steps to ensure that every person under his or her control complies with the requirements of the Act.
-  Enforce the necessary control measures in the interest of health and safety.
-  See to it that the work being done and the equipment used, is under the general supervision of a worker who has been trained to understand the hazards associated with the work.
-  Such a worker must ensure that the precautionary measures are implemented and maintained.

Activity

You are a health & safety officer that needs to complete an inspection for the school. Complete the inspection form in full.

8.	Alarm system working?			

Sexual Harassment in the Workplace: Examples and Ways to Handle

It doesn't matter who makes the offense. It could be a manager, co-worker, or even a non-employee like a client, contractor, or vendor. If the person's conduct creates a hostile work environment or interrupts an employee's success, it is considered unlawful sexual harassment.

Sexual harassment isn't limited to making inappropriate advances. In fact, sexual harassment includes any unwelcome verbal or physical behaviour that creates a [hostile work environment](#).

Here are some examples of sexual harassment in the workplace and information on how to handle it if you have been harassed at work.

- Sharing sexually inappropriate images or videos, such as pornography or salacious gifs, with co-workers
- Sending suggestive letters, notes, or e-mails
- Displaying inappropriate sexual images or posters in the workplace
- Telling lewd jokes, or sharing sexual anecdotes
- Making inappropriate sexual gestures
- Staring in a sexually suggestive or offensive manner, or whistling
- Making sexual comments about appearance, clothing, or body parts
- Inappropriate touching, including pinching, patting, rubbing, or purposefully brushing up against another person
- Asking sexual questions, such as inquiries about someone's sexual history or their sexual orientation
- Making offensive comments about someone's sexual orientation or gender identity

These are just a few examples of sexual harassment.

Bottom line: Any actions or words with a sexual connotation that interfere with an employee's ability to work or create an uncomfortable atmosphere are considered sexual harassment.

Should you feel like you have been harmed by sexual harassment in the workplace, it is vital that you first report the harassment to your employer's human resources department as well as taking detailed notes of the dates, times, and nature of the incidents.

Activity:

1. Give 2 examples of physical sexual harassment.
2. Give 2 examples of verbal sexual harassment.
3. Give 2 examples of non-verbal sexual harassment.

Verbal Sexual Harassment

19	XVIII	787	1389
20	XIX	886	1513

3. The numbers of the games are in column A. It is in Roman numerals because that is how the Olympics number their games. Column B contains the number of female athletes in each game.

Marking assessment tool

1. Was excel opened correctly and without help. (1)
2. Was the table copied correctly. (10)
3. Was the document saved correctly?(1)

Total: 12

Spreadsheet activity 2

1. Log in and click on **Windows**.

2. Open a spreadsheet page in excel - **select START, EXCEL, SPREADSHEET.** "START,EXCEL,SPREADSHEET."

3. Enter the following information based on a geography traffic survey:

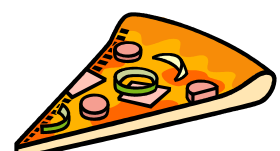

Form of Traffic	Frequency
Car	29
Van/Bus	11
Motorcycle	18
Bike	8
HGV/LGV	3
TOTAL	

Marking assessment tool

1. Was excel opened correctly and without help. (1)
2. Was the table copied correctly. (6)
3. Was the document saved correctly?(1)

Total: 8**Spreadsheet activity 3**

1. Open a new spreadsheet file.

2. Ms. McKenzie recently surveyed the students in her computer classes. She asked them several questions. One question was, “What is your favorite after school treat?” Their choices included candy, chips, cookies, or pizza.
3. Widen columns A and B.
 - Place the cursor on the line to the right of the column to be resized.
 - The cursor will have a horizontal arrow through it; drag the line left to widen the width of the column.

OR

- Place the cursor on the column to be sized.
 - Click on **format** and choose **Column Width** from the menu; enter the column width from 0 to 225.
 - Click **OK**
4. **Center-align** the contents of all cells. (**Center-align** will be on the standard toolbar just like Microsoft Word.)
 5. To graph the results, set up a spreadsheet file so it looks exactly like this:

	A	B
1	Favorite Treats	Number of Votes
2	Candy	18
3	Chips	40
4	Cookies	60
5	Pizza	12

Marking assessment tool

- 4. Was excel opened correctly and without help. (1)
- 5. Were the columns widened correctly? (2)
- 6. Have the numbers been center-aligned? (2)
- 7. Was the table copied correctly. (5)
- 8. Was the document saved correctly?(1)

Total: 11

Creating a table 1

- 1. Open Microsoft Word and start a new word document.
- 2. Write your name and surname on top of the page as well as the date.

3. At the top of your page write the heading "Food". Make sure it is in the size **24** and in the font Century Gothic and centre the word "food".
4. Insert a table with 2 columns and 6 rows.
5. In the first block of the table type "Food I like" make sure it is written in bold. Center this sentence.
6. Click tab. Then type in the next block "Food I dislike" this too should be in **bold**. Center this sentence.
7. Click tab. In this block you should write something you really like to eat.
8. Click tab. In this block you should write something you really dislike eating.
9. Click tab. In this block you should write something you really like to eat.
10. Click tab. In this block you should write something you really dislike eating.
11. Click tab. In this block you should write something you really like to eat.
12. Click tab. In this block you should write something you really dislike eating.
13. Select your entire table. Go to the heading table tools. Then select design.
14. Choose one of the colours and select the colour to add to your table.
15. Save your document.

Your table should look like this:

Food

Food I like	Food I dislike

Table exercise

Part one

1. Was a new word document opened.	/1
2. Everything is correctly typed and in the correct size.	/2
3. Have they entered only once after the heading?	/1

4. Has the font size been changed to 24?	/1
5. Have they inserted the correct amount of rows and columns?	/2
6. Does the table look like its supposed to and is it completed?	/7
7. Save the word document.	/1
Total	/15

Creating a table 2

Open Microsoft Word and start a new word document.

Write your name and surname on top of the page as well as the date.

Write the heading "My diary" and press enter.

Insert a table with 2 rows.

1. In the first row type the current date, center it and make it **bold**.
2. Write dear diary, and then press enter.

3. Type five sentences about the day you had.

Your table should now look like this:

18 June 2019
Dear Diary,

Table exercise	
Part one	
1. Was a new word document opened?	/1
2. Everything is correctly typed and in the correct size.	/2
3. Have they entered only once after the heading?	/1
4. Have they inserted the correct amount of rows and columns?	/2
5. Have they typed the current date, centered it and made it bol ?	/3
6. Have they written their dairy entry in correctly and written atleast five sentences?	/6
7. Save the word document.	/1
Total	/15
